Southpaw. Embracing the World of Sensory Therapies.

Welcome to the 2023 Southpaw Master Catalog

While the delivery of therapy continues to evolve, the need for quality products will never change, nor will Southpaw's commitment to make our products safe for everyone.

At Southpaw, we will continue to lead with safety and quality for our products, guaranteed to last and proudly manufactured in our facility in Dayton, Ohio. Nothing is more important than our partnership with the sensory community, as we continually and rigorously test our products and rely on feedback from therapists in the field who use our products daily.

In today's challenging times, it has never been more important to buy equipment that is built to last from a company that will stand behind it, and the Southpaw Promise guarantees that quality. We use only the best materials available and custom build each one by hand. In addition, Southpaw is committed to offering creative solutions to provide new products to therapists as new challenges and needs arise.

We have all faced untold challenges over the past year and the therapy community has risen to that occasion, never taking their eye off the goal of providing the care that patients deserve. At Southpaw, we will continue to support the therapy community and partner with them to make the therapy experience the best it can be by innovating, and applying our years of experience and commitment to safety and quality for every product that leaves our Dayton warehouse.

Thank you for putting your trust in Southpaw. We will never take that for granted.

THE SOUTHPAW PROMISE

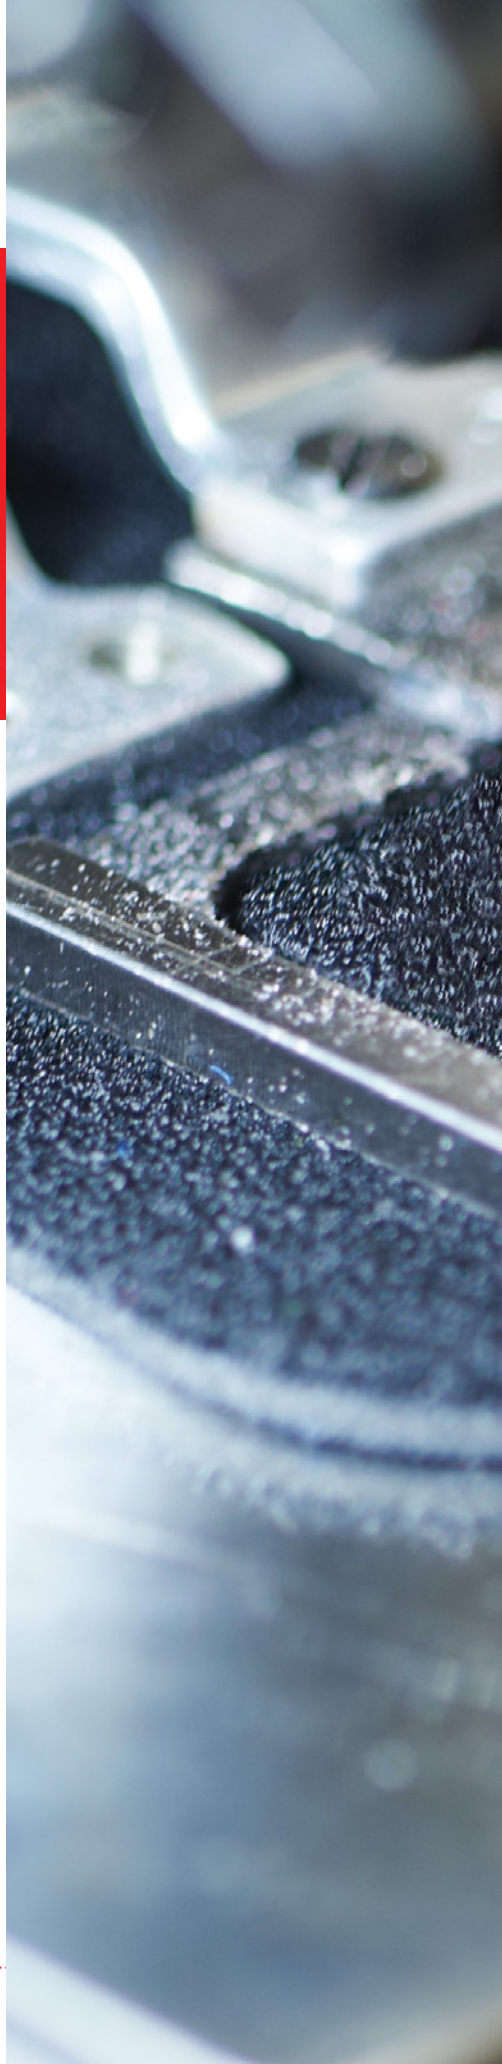

We promise superior quality and craftsmanship.

We promise to build products that are uniquely guaranteed to last.

We promise to focus solely in the area of sensory therapy.

We promise unparalleled customer service.

We promise to offer creative solutions based on clinical need.

New Products

MOTION TABLE

Full body tactile/vibration input is a powerful key to regulation, and Southpaw's Motion Table is answering the call. The Motion Table provides a smooth horizontal vibra-glide action that stimulates the vestibular system of many of your clients who have autism, TBI, sensory impairment and developmental delays. The motorized table offers smooth consistent motion with precise variable speed control that lets you set the exact amount of surface movement.

Easily movable, the Motion Table is available with carpeted or vinyl padding (making it easier to clean). Available with side rails for additional security (sold separately).

Dimensions: 60"L x 30"W x 8"H

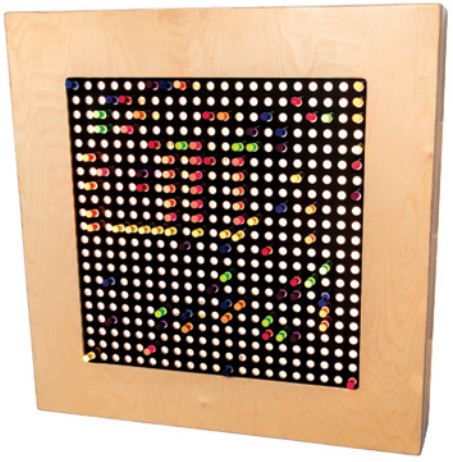

854050	**Motion Table**	**$2,250.00**
854051	**Motion Table Side Rails (Set Of 2)**	**$250.00**
854060	**Vinyl Covered Motion Table**	**$2,250.00**
854061	**Vinyl Covered Motion Table Side Rails**	**$250.00**

UV ROD PANEL

Southpaw is bringing back a legendary favorite, and it is bigger and better than ever. The UV Rod Panel will delight the visual and tactile senses while providing an interactive and engaging strengthening experience. Mounted on a vertical surface like our other activity panels, the UV Rod Panel is outfitted with 96 translucent pegs in 8 colors that will light up when successfully placed in the peg board. Therapists can use the board to address multiple areas, such as fine and visual motor skills, balance, postural control, stereognosis and even reciprocal engagement.

Dimensions: 30"W x 30"H x 6"D

303318	**UV Rod Panel**	**$1,697.00**

Items on this page ship Motor Freight.

REPLACEMENT VINYL PADS FOR SWINGS

Replace the carpet with Vinyl Pads on your swings to make them easier to disinfect and clean between clients. These Vinyl Pads attach to the swings with Velcro® and can be removed and replaced for cleaning very quickly.

121802	Platform Swing Replacement Pad	$38.00
121856	Linear Glider Replacement Pad	$57.00
121857	Adult Linear Glider Replacement Pad	$69.00
127262	ITN Platform Swing Replacement Pad	$44.00
126017	HTS Platform Vinyl Pad	$40.00
121909	Flexion Disc Vinyl Pad	$49.00
125010	Sm Rocker Board Vinyl Pad	$45.00
125020	Lg Rocker Board Vinyl Pad	$70.00
126023	Mini U-Boat Vinyl Pad	$35.00

See below to see which vinyl pad will fit your swing.

Platform Swing Pad (#121802): Fits Platform Swing (#1800), Modified Platform Swing (#1805), Advantage Line Platform Swing (#120040) and the Bouncy Platform Swing (#1830)

Linear Glider Pad (#121856): Fits Linear Glider (#1850)

Adult Linear Glider Pad (#121857): Fits Adult Linear Glider (#1852)

ITN Platform Swing Pad (#127262): Fits ITN Platform Swing (#7260) and A-Frame Platform Swing (#7295)

HTS Platform Pad (#126017): Fits HTS Platform Swing (#126015)

Flexion Disc Pad (#121909): Fits Flexion Disc (#1909)

Small Rocker Board Pad (#125010): Fits Small Rocker Board (#150010)

Large Rocker Board Pad (#125020): Fits Large Rocker Board (#150020)

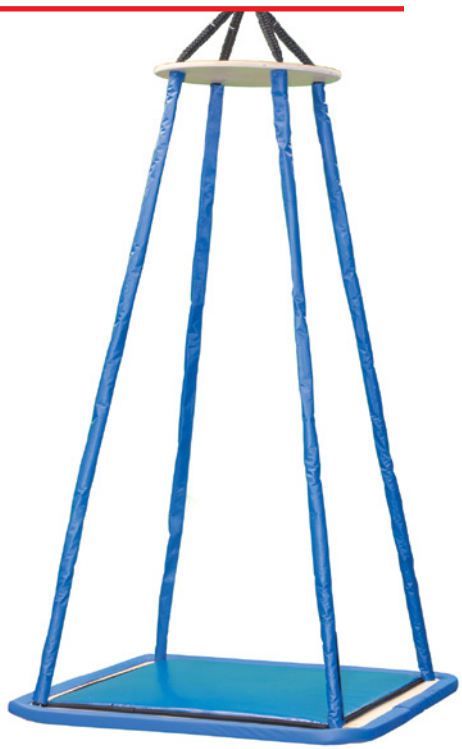

Mini U-Boat Pad (#126023): Fits Mini U-Boat (#126021)

VINYL WRAP FOR ROPES

The Vinyl Wraps are made for swings that do not have vinyl tubing around the ropes to aid in keeping your therapy equipment clean and sanitary. Just wrap these vinyl strips around exposed ropes before a client uses a piece of equipment, and afterward the Wraps can be easily cleaned. The Wraps are secured using Velcro® and can be wiped down using a disinfectant prior to the next client. They are available in multiple sizes to cover exposed rope on multiple pieces of equipment, such as swings, climbing ladders and others.

NOTE: Wraps are sold individually.

PPE1000-04	Vinyl Wrap for Rope - 4" Cover	$11.00
PPE1000-09	Vinyl Wrap for Rope - 9" Cover	$12.00
PPE1000-12	Vinyl Wrap for Rope - 12" Cover	$12.00
PPE1000-18	Vinyl Wrap for Rope - 18" Cover	$15.00
PPE1000-24	Vinyl Wrap for Rope - 24" Cover	$15.00
PPE1000-28	Vinyl Wrap for Rope - 28" Cover	$16.00
PPE1000-32	Vinyl Wrap for Rope - 32" Cover	$17.00
PPE1000-45	Vinyl Wrap for Rope - 45" Cover	$21.00
PPE1000-52	Vinyl Wrap for Rope - 52" Cover	$21.00

New Products

VINYL BOLSTER SWING COVER

The Vinyl Bolster Swing Cover wraps around the swing and is held in place with Velcro® at both ends and can be removed easily for quick cleaning or replacing.

165030	Vinyl Bolster Swing Cover	$91.00
165031	Vinyl Pony Bolster Swing Cover	$84.00

VINYL GLIDER BOLSTER SWING COVER

The Vinyl Bolster Cover wraps around the Bolster Swing and can be easily removed for cleaning or replacing.

165032	Vinyl Glider Bolster Swing Cover	$129.00
165033	Vinyl Mini Glider Bolster Swing Cover	$97.00

PEG IN THE EGG™

The design of the patent-pending Peg in the Egg™ by JustGrowPlay, LLC owner Ellen M. Cullen, OTD, OTR/L, is intuitive, functional and fun! The unique triangular Peg combined with the Peg in the Egg™ activities engages all of the muscles of the hand. The textured sides provide a non-slip gripper surface that creates appealing tactile bumps. The stamper surface makes a smiley face with a nose—which grows longer the more a child pushes! The narrow end of the Peg allows a student to use the Peg as a writing tool and the putty as paper.

Each Peg in the Egg™ consists of a Peg, Theraputty, and a container with a label for the child to write their name on. Sold in packs of 4. Replacement Pegs can also be purchased separately in 4 packs.

290355-04 Peg In The Egg (4 Pack)	$59.00
290355-Peg04 Replacement Pegs (4 Pack)	$14.00

DIMMING LIGHT COVER, STARS

These 2′ x 4′ light covers quickly transform bright fluorescent lights into a starry sky in a matter of minutes. These covers help to dim the intense light enough so that sensitive eyes can still see to do their classwork or other tasks. Held in place by Velcro®, the covers can be easily hung up or removed and stored away for later use.

1570	**Dimming Light Cover, Stars**	**$51.00**

BLACKOUT LIGHT COVER, BLUE VINYL

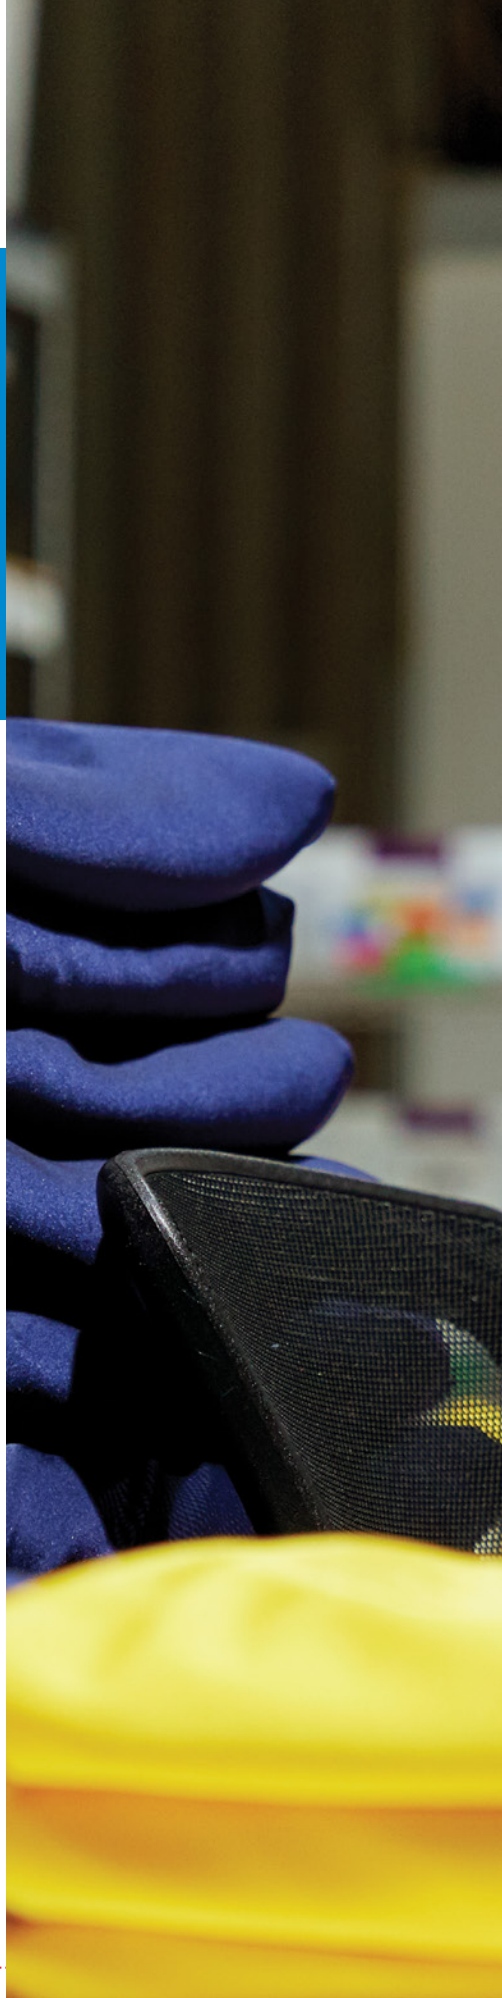

Cozy up your classroom with Southpaw's Vinyl Blackout Cover. The simple Velcro® system allows you to block out harsh fluorescent lighting for sensitive learners. The Vinyl Blackout Cover is easy to install and remove as needed. Constructed of professional-grade vinyl, and measuring 2'W x 4'L, these Blackout Covers will fit standard fluorescent fixtures.

1575	**Blackout Light Cover, Blue Vinyl**	**$55.00**

SENSORY INTEGRATION

Since our founding in 1978, Southpaw has been dedicated to developing and manufacturing sensory integration dysfunction and neurodevelopmental products to help therapeutic professionals, people with special needs, their families and other professionals solve problems and overcome challenges. We are committed to offer education, insight and resources for learning about neurodevelopmental disorders and will continue to partner with therapists to provide the absolute best products based on clinical need.

Look for the Southpaw USA icon that indicates products proudly made in our Dayton, Ohio, facility.

SENSORY INTEGRATION

BOLSTERS

Versatile. Tested. Southpaw Bolster Swings.

BOLSTER SWINGS

If a therapist has to select just one piece of hanging equipment, a Southpaw Bolster Swing is the best choice.

The Deluxe version of the Bolster Swings has all the features of the Bolster Swings, plus a detachable carpet that provides tactile stimulation. Held in place by hook-and-loop fasteners, the carpet increases the bolster's circumference to 29", which will accommodate larger children or adults.

Includes a built-in safety rotational device.

Dimensions:
9"dia. x 48"L x 69"H (Standard)
9"dia. x 36"L x 69"H (Pony)
Working Load: 350 lbs. (Standard or Pony)
Weight: 24 lbs. (Standard); 21 lbs. (Pony)

1000	Standard Bolster Swing	$599.00
1001	Standard Deluxe Bolster Swing	$699.00
1002	Standard Carpet Kit	$135.00
1005	Pony Bolster Swing	$569.00
1015	Pony Deluxe Bolster Swing	$659.00
1004	Pony Carpet Kit	$105.00

REPLACEMENT PARTS

The Upper Works includes the built-in safety rotational device and the three control ropes above the wooden bar. Bar snaps not included.

The Replacement Upper Bar easily replaces the existing wooden bar that works in conjunction with the upper works control loops. Snaps not included.

121000	Standard Bolster Replacement, Upper Works	$115.00
121005	Pony Bolster Replacement, Upper Works	$115.00
121001	Standard Bolster Replacement, Upper Bar	$159.00
121006	Pony Bolster Replacement, Upper Bar	$149.00

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

DID YOU KNOW: Our new lacquer finish provides an antimicrobial barrier.

ADVANTAGE LINE™ BOLSTER SWING

One of the first choices of therapists, a Bolster Swing can be used in a variety of ways to challenge postural and balance reactions.

We have adapted our standard Bolster Swing by eliminating some extra parts, which lets us offer you a product that will function just as intended, at a lower price!

Dimensions: 9"dia. x 48"L x 69"H
Working Load: 300 lbs.

120050	**Advantage Line™ Bolster Swing**	**$369.00**

HALF ROUND SWINGING BOLSTER

Our Half Round Swinging Bolster brings an additional balance challenge to your clients, as it tends to move faster and higher and needs additional control to stay in line.

As with all our Bolsters, it is made of foam covered in safety-compliant vinyl.

Dimensions: 36"L x 21.5"W x 40.25"H
Ropes: 67"L
Working Load: 150 lbs.

1090	**Half Round Swinging Bolster**	**$389.00**

TACTILE BOLSTER SWING COVERS

Provide additional stimulation with these Tactile Covers for the Bolster Swing. Covers come in both fleece and velour texture. Colors may vary.

165020	**Tactile Bolster Swing Cover**	**$175.00**
165021	**Tactile Pony Bolster Swing Cover**	**$165.00**

Vestibular Activities

ADVANTAGE LINE™ 2-IN-1 BOLSTER SWING & TRAPEZE BAR

Enjoy two popular pieces of suspended equipment in one swing for one affordable price. This combination includes an adapted Pony Bolster Swing and a Trapeze Bar that will allow you to address a variety of therapeutic needs.

Dimensions: 9"dia. x 36"L x 70"H
Working Load: 300 lbs.

120060	**Advantage Line™ 2-in-1 Bolster Swing & Trapeze Bar**	**$447.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

BILATERAL BOLSTER SWING

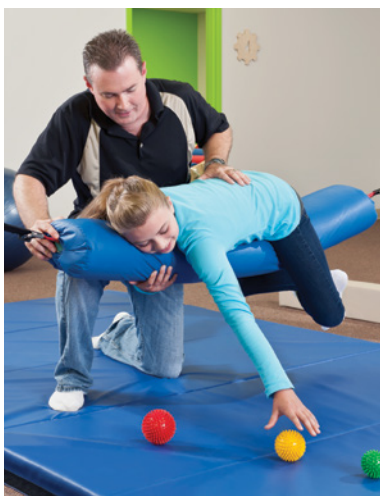

Help improve bilateral integration while getting the benefits of postural and balance adjustments. Southpaw's Bilateral Bolster Swing offers all the benefits of our Standard Bolster Swing, but we've added two ropes attached to the body for clients to grasp with both hands.

If you already have our Standard swing, you can purchase the body of the Bilateral Bolster and attach it to your existing upper works and bar. The Bilateral Bolster comes in Standard and Pony sizes.

Dimensions: 9"dia. x 48"L x 70"H (Standard); 9"dia. x 36"L x 70"H (Pony)
Working Load: 350 lbs. (Standard or Pony)

1070	**Standard Bilateral Bolster Swing**	**$591.00**
1071	**Standard Bilateral Bolster Swing, Body only**	**$493.00**
1002	**Standard Carpet Kit**	**$135.00**
1075	**Pony Bilateral Bolster Swing**	**$537.00**
1076	**Pony Bilateral Bolster Swing, Body only**	**$439.00**
1004	**Pony Carpet Kit**	**$105.00**

THE WHALE

All your clients will have a whale of a time on this piece of equipment that was developed after an early design by Dr. A. Jean Ayers. The Whale is great at providing rhythmical calming and organizing input. It also helps with postural control, balance and core strengthening.

The Whale conveniently installs between walls with attachment points or to any Southpaw Support Structure with the purchase of the Upright Eyebolt Kit (page 49).

The minimum span distance is 9 feet, maximum span is 16 feet. Any distance greater than 16.5 feet will require additional extension straps. The Whale is made with soft, flexible foam and comes complete with four double loop Vertical Stimulation Devices.

Dimensions: 10"dia. x 50"L
Working Load: 300 lbs.
Weight: 15 lbs.

1080	**The Whale**	**$575.00**

Vestibular Activities

VARIABLE AXIS SWING

Southpaw's Variable Axis Swing allows clients to be moved in a number of different directions. From general swinging on any axis to spinning with Southpaw's Rotational Device, this swing provides comfort while your clients can be positioned in vertical and horizontal planes. This swing is a great way to address spatial awareness as well as vestibular and proprioceptive inputs.

The covering of this durable and aesthetically pleasing swing is easily washable. The Variable Axis Swing:

- Allows positioning of clients to stimulate areas of semi-circular canals for maximum therapeutic benefit
- Is lightweight and folds easily for storage
- Is cold water washable

Dimensions:
22.75"W x 41.25"H (Swing)
8"W x 20"H (Footrest)
Working Load: 200 lbs.
Weight: 2 lbs. (Swing); 8 lbs. (Footrest)

4600	**Variable Axis Swing, with Safety Snap**	**$735.00**
4601	**Variable Axis Swing Footrest**	**309.00**
4602	**Variable Axis Swing & Footrest**	**$949.00**

PLEASE NOTE: The Variable Axis Swing must be used with our Safety Rotational Device and a Safety Snap (both page 58).

4602 VARIABLE AXIS SWING & FOOTREST

4601 VARIABLE AXIS SWING FOOTREST

CAROUSEL

Take a spin on the Carousel! The slightly angled seat allows children to propel the Carousel by shifting the body's center of gravity, or younger children may push off with their feet. The Carousel helps develop muscle integration and strength while improving balance. The seat provides a thick edge for a solid grip and a solid and stable metal base with rubber feet ensures safe spinning.

Dimensions: 22"dia. x 10"H
Working Load: 150 lbs.

256175	**Carousel**	**$175.00**

TUBE COVERS

Convenient Tube Cover provides for a softer feel and additional comfort for the client when using the Jump & Play Island (page 15) or Tube Swing (page 44).

1502	**Tube Swing Cover**	**$289.00**
4510	**Jump & Play Tube Cover**	**$418.00**

4510 JUMP & PLAY TUBE COVER

1502 TUBE SWING COVER

BOUNCE PATH SYSTEM

The Bounce Path System is designed to get your clients working on coordination, dynamic balance and motor planning, postural control and strength. Therapists will be able to facilitate muscle control and balance-righting reactions to enhance mobility training and functional muscle retraining in the lower extremities.

The Bounce Path System contains (1) short, straight path, (1) long, straight path, (1) offset "S" path and (2) corner paths. The heavy-duty springs are vinyl-covered to prevent pinched fingers.

Combine or create your own pathway to fit your client's needs. Each Bounce Path is covered with a textured, non-skid finish for safety. We offer optional carpets for each piece of the bounce path. Offers extra tactile input for bare feet. Carpets sold separately.

Dimensions:
40"L x 14"W x 6.5"H (Short Straight Path)
59"L x 14"W x 6.5"H (Long Straight Path)
59"L x 14"W x 6.5"H (Offset "S" Path)
59"L x 14"W x 6.5"H (Corner Paths)
Working Load: 200 lbs. (Bounce Path); 375 lbs. (Heavy-Duty Bounce Path)

451120	Bounce Path System	$2,485.00
151121	Short Straight Path	$389.00
151122	Long Straight Path	$549.00
151123	Offset "S" Path	$565.00
151124	(1) Corner Path	$629.00
451125	Heavy-Duty Bounce Path System	$2,595.00
151161	Heavy-Duty Short Straight Path	$417.00
151162	Heavy-Duty Long Straight Path	$575.00
151163	Heavy-Duty "S" Path	$589.00
151164	Heavy-Duty Corner Path	$651.00
151127	Bounce Path Carpets for Short Straight Path (151121)	$89.00
151128	Bounce Path Carpets for Long Straight Path (151122)	$105.00
151129	Bounce Path Carpets for Offset "S" Path (151123)	$109.00
151130	Bounce Path Carpets for (1) Corner Path (151124)	$112.00

DID YOU KNOW? The Bounce Path System is now available with heavier springs to support larger working loads.

JUMP & PLAY ISLAND

Children will love this addition to your therapy setting. Fun, fun, fun is what they'll have when they play and bounce on our Jump & Play Island. This piece of equipment is ideal for group participation and increases spatial awareness while providing a great deal of proprioceptive input. In addition, it increases balance and motor planning as children walk around it or maneuver in and out of the middle. The options are endless, so let those creative juices flow!

Dimensions: 6'dia. x 81"H
Working Load: 350 lbs.

4500	Jump & Play Island	$1,099.00
4511A	Replacement Inner Tube	$145.00

Vestibular Activities

U-BOAT SPIRAL DISC

Some things just go together. We have taken the unique shape of our Mini U Swing and added it to our Spiral Floor Disc to offer vestibular input with a bit of support. This allows it to be used with more versatility during your sensory-based treatments.

Dimensions: 24"dia x 12"H
Working Load: 250 lbs.

156120	**U-Boat Spiral Disc**	**$335.00**

SPIRAL FLOOR DISC

Just the right size! This Floor Disc provides vestibular input for both children and adults. Now you can easily provide the input your clients crave and need with ease, no matter how big or small.

Dimensions: 24"dia. x 2"H
Working Load: 500 lbs.

156100	**Spiral Floor Disc**	**$270.00**

DID YOU KNOW: Great for the traveling therapist!

BOUNCE PAD

Use our triangular Bounce Pad as a clever alternative to a trampoline to provide your client with otolithic stimulation. Push-offs and landings require balance, timing and motor planning. The heavy-duty springs are covered to prevent pinched fingers. An optional carpet is available to attach to the Bounce Pad with Velcro® tabs.

Dimensions: 22" Triangle x 5"H
Working Load: 200 lbs.
Weight: 15 lbs.

1120	**Bounce Pad**	**$251.00**
151126	**Bounce Pad Carpet**	**$65.00**

BOUNCE DISC

Similar to the Bounce Pad, our Bounce Disc is a clever alternative to a trampoline with added stability. The base is made of Baltic Birch.

Dimensions: 36"dia. x 6.167"H (Bounce Disc); 24"dia. x 6.167"H (Mini Bounce Disc)
Working Load: 200 lbs. (Bounce Disc); 375 lbs (Heavy-Duty Bounce Disc)

151151	**Bounce Disc, 8 Springs**	**$575.00**
151150	**Mini Bounce Disc, 6 Springs**	**$417.00**
151170	**Heavy-Duty Mini Bounce Disc**	**$429.00**
151171	**Heavy-Duty Bounce Disc**	**$599.00**

DID YOU KNOW? The Bounce Disc is now available with heavier springs to support larger working loads.

CHILD COCOON SWING

Provide a different perspective to vestibular input. The Cocoon Swings are ideal to be used in various positions while allowing clients to feel secure. They are made of soft, no-pinch nylon mesh fabric, and hang from six webbing straps. With the front and rear straps detached, the Child Cocoon Swing becomes a single-point sling hammock, which provides full body support with an extension position.

Dimensions: 50"H (Child); 60"H (Adult)
Working Load: 150 lbs. (Child); 300 lbs. (Adult)

0132	**Child Cocoon Swing**	**$327.00**

DID YOU KNOW: These products stretch to fit the shapes and sizes of your clients.

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

LINEAR GLIDER TENT COVER

Our Linear Glider Tent Cover works with the Adult Linear Glider (item 1852, not included), to provide a small space for the over-stimulated client. Unlike other swings that provide some bit of enclosure, the Linear Glider Tent Cover provides the ability for a therapist and child, or two peers, to work on activities at the same time. This simple addition to an already therapeutic favorite provides a great way to improve attention, focus and one-on-one interaction.

Dimensions: 59"W x 57"H x 29"D

121855	**Linear Glider Tent Cover**	**$452.00**

LINEAR GLIDER WRAP

The Linear Glider Wrap covers torn or damaged edge stripping. Easily wraps around the base of the swing and attaches with hook-and-loop fasteners.

121851	**Standard Linear Glider Wrap**	**$110.00**
121853	**Adult Linear Glider Wrap**	**$125.00**

Vestibular Activities

LINEAR GLIDERS

Your creative possibilities are endless with this piece of equipment. It is ideally used to provide vestibular input, increase balance, address weight shifting abilities, and increase bilateral coordination.

The Standard Linear Glider and the Adult Linear Glider feature a platform with removable carpet or vinyl padding, and suspension ropes with stabilizing rungs. Includes removable carpet, Pull Handles and (2) Safety Snaps.

Dimensions:
59″L x 29″W x 70″H (Adult)
46″L x 24″W x 60″H (Standard)
Suspension Points: 4.5′ to 5.5′ Apart (Adult);
3.5′ to 4.5′ Apart (Standard)
Working Load: 450 lbs.

1852	**Adult Linear Glider**	**$487.00**
6552	**VP Adult Linear Glider**	**$497.00**
1850	**Standard Linear Glider**	**$429.00**
6550	**VP Linear Glider**	**$439.00**

DID YOU KNOW: If you already own a Linear Glider with carpet, we now offer vinyl replacement pads that can be purchased to replace the carpet and make it easier to wipe down after each use. The vinyl pad attaches to the swing using Velcro® just like the carpet. The vinyl pads can be purchased separately on page 5.

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

GLIDER BOLSTER

Southpaw's Glider Bolsters allow therapists to accommodate larger or more involved clients in all developmental positions. They're also strong enough for a therapist to ride with clients and provide hands-on facilitation.

For younger or posturally insecure clients, the swing offers stability. It can be hung from two or four points and moved in smooth arcs, or gently rocked, depending on the need. If you want to encourage social interaction, the Glider Bolster can easily accommodate several clients during an activity.

Use the heavily padded, vinyl-covered base on either side by simply flipping the bolster over. One side is high-density foam padding; the other side is padded with low-density foam. This special feature is designed to increase your clients' comfort.

Our Covers take away the leather feeling from our swings, giving clients a different tactile input and comfort. They are easy to assemble and are washable.

Dimensions:
4'L x 1'W (Mini); 6'L x 1.5'W (Standard)
Side Ropes: 45"L
Suspension Points: 3.5' to 5.5' Apart (Mini); 5.5' to 6.5' Apart (Standard)
Working Load: 400 lbs.
Weight: 28 lbs. (Mini); 44 lbs. (Standard)

Other lengths can be special-ordered to best suit your program.

1006	**Standard Glider Bolster**	**$997.00**
1007	**Mini Glider Bolster**	**$743.00**
165022	**Tactile Glider Bolster Cover**	**$229.00**
165023	**Tactile Mini Glider Bolster Cover**	**$189.00**

PLEASE NOTE: Glider colors may vary.

1007 MINI GLIDER BOLSTER

165022, 165023 TACTILE GLIDER BOLSTER COVERS

PULL HANDLES & ROPE

These are the same Pull Handles included with the Linear Glider, but they are offered separately for use with other equipment such as the Platform Swing (page 26) or Therapy Net (page 22). Handles are made of durable plastic with soft, poly rope. This well-made accessory has no knots or sharp edges.

Rope length: 5.5'

1855	**Pull Handles & Rope**	**$79.00**

Vestibular Activities

GIDDIE-UP GLIDER

Not only is this swing fun, but it's also good for kids! The Giddie-Up Glider provides vestibular input and addresses bilateral control and motor planning skills as well as incorporating heavy work.

Dimensions: 35"L x 10"W x 71"H
Working Load: 200 lbs.

120010	**Giddie-Up Glider**	**$436.00**

AWESOME HAMMOCK

This cozy hammock provides a comfortable relocation space for your clients, small and large.

Children feel safe and secure in this nest, which promotes a state of calmness that allows them to focus. The swing provides tactile, vestibular and proprioceptive input. The hammock offers ergonomic seating and reclining positions for a variety of uses in the classroom, home or clinic.

Working Load: 350 lbs.

220020	**Awesome Hammock**	**$245.00**

TEEKOZ HARNESS

Open up any child's world to movement! The TeeKoz Harness gives children who are moderately to severely involved the freedom to independently and safely enjoy movement. It offers support at the trunk, shoulders and hips while allowing the child increased control of extremities.

The harness provides consistent deep pressure for a calming and organizing effect for the child.

2290	**TeeKoz Harness, 16-25" Torso**	**$359.00**
2291	**Large TeeKoz Harness, 18-30" Torso**	**$445.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

HOME THERAPY SYSTEM

The Home Therapy Kit includes: (1) Doorway Support with Brackets, (1) Home Therapy System Trapeze Bar, (1) Home Therapy System Platform Swing, (1) Home Therapy System Ladder, (1) Therapy Net.

420010	Home Therapy System	$747.00

116010 DOORWAY SUPPORT

126015 PLATFORM SWING

126010 TRAPEZE BAR

126020 CLIMBING LADDER

0130 THERAPY NET

Therapy Net is also sold separately (page 22).

DOORWAY SUPPORT

Designed for doorways between 28.75"W and 36"W only. Support brackets screw into the door frame with the included drill bit. Has three adjustable heights and comes with (2) Safety Snaps.

Working Load: 200 lbs. (Dependent on the strength of your door jambs)

116010	Doorway Support	$235.00

ADDITIONAL BRACKETS

Want to use the Home Therapy system in more than one location? Just purchase additional brackets for each doorway and the system becomes portable!

Dimensions: 1.5"dia. x 15"W
Working Load: 200 lbs.

116011	(2) Brackets Per Set, Includes Drill Bit	$116.00

PLATFORM SWING

The Platform Swing provides vestibular input and may be used in a variety of ways. Designed in a smaller, rectangular version, this swing is able to meet all your therapeutic needs outside of the clinic. Carpet sold separately.

Dimensions: 30"L x 20"W x 57"H
Working Load: 200 lbs.

126015	Platform Swing, Home Therapy System	$195.00
126016	Carpet for Platform Swing	$41.00

TRAPEZE BAR

Children will have fun swinging while improving their flexion skills. The bar may be moved, so kids can hang from the handles as well.

Dimensions: 17"W x 30"H
Working Load: 125 lbs.

126010	Trapeze Bar	$102.00

CLIMBING LADDER

Made with the same quality standards as our clinic-sized ladder. The ladder has six climbing rungs, with a rung at the bottom connected only at one end, to be used as a stabilizer by the parent or therapist.

Dimensions: 74"L x 17"W
Working Load: 125 lbs.

126020	Climbing Ladder	$180.00

Vestibular Activities

THERAPY NET

The Southpaw Therapy Net is an all-around must-have for any therapeutic setting. It's simple to use, and can be used in a variety of ways. It provides vestibular input in all planes, improved head and neck extension, proprioceptive input, and overall body control. Use the Therapy Net by itself or with our Net Adaptation Kit.

Dimensions: 48"H; Working Load: 200 lbs.

0130	**Therapy Net**	**$61.00**

THERAPY NET ADAPTATION KIT

Nets are wonderful therapy tools, but for physically challenged or uncoordinated clients, they can be difficult to use. Southpaw's answer to this problem is the Net Adaptation Kit.

The kit includes a padded wooden seat, top spreader bar and (2) attachment clips. The hardwood spreader bar attaches easily to your net, and the seat insert lets you easily adjust your client's position in the net.

0131	**Therapy Net Adaptation Kit**	**$109.00**
0137	**Spreader Bar, for Use with Therapy Net**	**$32.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

U-BOAT SWING

Clients can use this swing while sitting, prone or even on their backs. The large dimensions of the U-Boat make it suitable to hold several toddlers or pre-schoolers simultaneously, encouraging socialization and cooperative play. The working load of 300 lbs. makes it possible to hold older children or adults as well.

Dimensions: 41″L x 20″W x 65″H
Working Load: 300 lbs.

126022	**U-Boat Swing**	**$516.00**

MINI U-BOAT SWING

Similar to the U-Boat, but smaller for a single client.

Dimensions: 20″L x 20″W x 65″H
Working Load: 300 lbs.

126021	**Mini U-Boat Swing**	**$279.00**

DID YOU KNOW: Our new lacquer finish provides an antimicrobial barrier.

Soft. Stretchy. Fun and Comfortable Cuddle Swings.

CUDDLE SWING

Increase calming and organize input by providing deep touch pressure and vestibular stimulation in our Cuddle Swing. Postural flexion is also encouraged while your child or client lies in the swing. Children will find this soft, stretchy swing fun and comfortable. Includes (1) Safety Snap.

Dimensions: 50″L
Working Load: 200 lbs.

120030	**Cuddle Swing**	**$187.00**

ADULT CUDDLE SWING

Larger clients need pressure too! Increase calming and organizing input by providing deep touch pressure and vestibular stimulation in the Adult Cuddle Swing. With one side of the cuddle cut taller than the other, the swing becomes a natural seat, encouraging postural flexion. The Adult Cuddle Swing is made of soft, stretchy nylon mesh and long-lasting Cordura® fabric. Includes (1) Safety Snap.

Dimensions: 63.5″L
Working Load: 300 lbs.

120035	**Adult Cuddle Swing**	**259.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

SNUGGLE SWING

Like the Cuddle Swing, the Snuggle Swing is made of a soft, stretchy fabric, but offers one closed side, allowing for more stability as a child sits and looks through the opening of the swing. With the deep pressure provided throughout the body, the Snuggle Swing is an ideal way to address calming and organizing needs while incorporating vestibular input during any treatment activity. Includes (1) Safety Snap.

Dimensions: 64″L
Working Load: 300 lbs.

120005	**Snuggle Swing**	**$207.00**

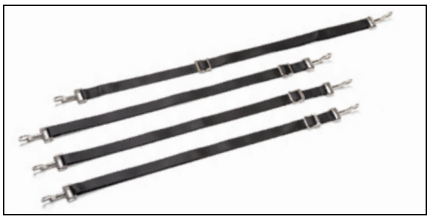

SWADDLE SWING

The Swaddle Swing, brought to us by Catherine Hoyt Drazen OTD, OTR/L, allows you to make a swing anywhere. This unique swing provides vestibular stimulation and helps infants and toddlers with self regulation and calming. The gentle pressure from the LYCRA® provides a safe, secure environment for the child to experience the movement and comfort of the swing with the soft light coming through the mesh. Can be used by a therapist alone to swing a child, or in cooperation with a parent. A great product for an itinerant or home-based therapist.

Four shoulder straps, shown below, included for extra back support.

120006	**Swaddle Swing**	**$307.00**

Vestibular Activities

PLATFORM SWING

The Platform Swing is an essential tool in sensory integration therapy. Our platform swings offer therapists the ability to create a wide range of tilting movements with the control lines attached to the top disc. Can be used with clients in a variety of positions from prone to standing. The Platform Swing is available with vinyl padding or carpet.

Dimensions: 31"L x 31"W x 60"H
Working Load: 300 lbs.
Weight: 21 lbs.

6500	**Vinyl Padded Platform Swing**	**$429.00**
1800	**Platform Swing with Carpet**	**$419.00**

PLATFORM SWING WRAP

The Platform Swing Wrap provides an option to cover torn or damaged edge stripping. Easily wraps around the base of the swing and attaches with hook-and-loop fasteners.

121801	**Platform Swing Wrap**	**$95.00**

BOUNCY PLATFORM SWING

With the addition of bungees to this essential therapy tool, the Bouncy Platform Swing adds a component of proprioceptive input to your therapeutic activity, making this an all-in-one piece of equipment. Available with vinyl padding or carpet.

Dimensions: 31"L x 31"W x 60"H
Working Load: 240 lbs.

6503	**Vinyl Padded Bouncy Platform Swing**	**$499.00**
1830	**Bouncy Platform Swing with Carpet**	**$489.00**

DID YOU KNOW: If you already have a Platform Swing with carpet and wish to replace it with vinyl, we offer vinyl pads that can be purchased separately. Both the carpet and the vinyl pad attach to the swing using Velcro®. The vinyl pads are sold separately on page 5.

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

ADVANTAGE LINE™ PLATFORM SWING

Now it's easy to add a staple piece of suspended equipment to any environment. Our Advantage Line version of the Platform Swing has been simplified to bring you an economical version of our classic model. Available with either carpet or vinyl padding.

Dimensions: 31"L x 31"W x 60"H
Working Load: 300 lbs.
Weight: 18 lbs.

6501	Vinyl Padded Advantage Line™ Platform Swing	$267.00
120040	Advantage Line™ Platform Swing with Carpet	$257.00

THE MODIFIED PLATFORM SWING

Just as good as our original Platform Swing, but the top disc of The Modified Platform Swing has been enlarged, so there's more room inside the ropes for a larger teen or adult. Available with either vinyl or carpet padding.

Dimensions: 31"L x 31"W x 60"H
Working Load: 300 lbs.
Weight: 24 lbs.

6502	The Modified Platform Swing, Vinyl Padded	$489.00
1805	The Modified Platform Swing with Carpet	$479.00

ADVANTAGE LINE™ INFANT ADAPTATION KIT

The Advantage Line Infant Adaptation Kit creates a soft, enclosed space on our Platform Swing for infants and small clients with extreme gravitational insecurity. The soft-sided surface attaches to all Southpaw Platform Swings and Advantage Line Platform Swings. It can be used to create a small cocoon space for the swing. And, for some extra fun, it can even turn the swing into a moving ball pit.

121820	Advantage Line™ Infant Adaptation Kit	$315.00
421820	Advantage Line™ Platform Swing/Infant Adaptation Kit Combo	$517.00

PLEASE NOTE: The Advantage Line™ Infant Adaptation Kit provides a measure of security for an infant or small child on a platform swing, but is not to be considered a safety device. Proper spotting techniques, protective equipment and matting should still be used.

Vestibular Activities

RAINBOW BUCKET SWING

This swing is a fun, ideal way to provide smaller individuals with vestibular input. The bucket design allows children a place to sit with some support, while the LYCRA® fabric bottom gives them a soft feeling with resistance. Fill the bucket with balls or other small toys for a variety of therapeutic activities.

Dimensions: 31"L x 31"W x 75"H x 10"D
Working Load: 200 lbs.

420178	**Rainbow Bucket Swing**	**$705.00**
420175	**Deluxe Rainbow Kit (Frame, Platform Swing, Bucket Cover)**	**$1,057.00**

BUOY SWING

Have fun with a challenging alternative to the traditional swing! The Buoy Swing provides proprioception, core strengthening and vestibular stimulation for your clients. Children will be able to swing with a gentle motion or an active orbiting arc. The Buoy Ball has a molded end for high strength, and also features a trapeze bar attachment that can be used separately. Recommended for ages 6–13.

Dimensions: 16"dia.; Working Load: 125 lbs.

120150	**Buoy Swing**	**$157.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

RAINBOW PLATFORM SWING

A fun, exciting change to a therapy classic. This platform swing offers all the same vestibular input of our wooden platform swing, but with a LYCRA® fabric bottom. The resistive fabric provides a soft base and extra proprioceptive input.

Dimensions: 31″L x 31″W x 63.5″H; Working Load: 200 lbs.

420177	**Rainbow Platform Swing**	**$737.00**

Vestibular Activities

NOT-SO-INFANT SWING

The front of the Not-So-Infant Swing can be quickly unbuckled, the child can sit back into the swing, and the therapist or parent can re-fasten the front. The Not-So-Infant Swing can also be used with the Southpaw Vertical Stimulation Device (page 52) to make it a bouncing swing. Seat is machine washable.

Dimensions: 13"L x 13"W (Seat Opening)
Working Load: 200 lbs.

120025	**Not-So-Infant Swing**	**$399.00**

INFANT SWING

The Infant Swing offers superior durability for the youngest clients. We have even made it easier to place children in the swing with our front-loading seat. This is also helpful for the little ones who demonstrate gravitational insecurity. To offer some proprioceptive input, the swing can become a bouncer with the addition of a Vertical Stimulation Device (page 52) and an extra Safety Snap. Seat is removable and machine washable.

Dimensions: 10"L x 10"W (Seat Opening)
Working Load: 170 lbs.

120020	**Infant Swing**	**$369.00**

INFANT ADAPTATION KIT

Southpaw's Infant Adaptation Kit is a great addition to the Platform Swing for smaller clients. This kit provides a padded pool for infants and small clients with gravitational insecurity and decreased trunk control. This high-density foam pool with soft insides provides proper rigidity and maximum protection. Works only with Southpaw's Platform Swing (page 26), and easily attaches using (4) included hook-and-loop flaps.

1820	**Infant Adaptation Kit**	**$417.00**
1810	**Platform Swing & Adaptation Kit**	**$753.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

420115 FEATHERWEIGHT BUCKET SWING™

420110 FEATHERWEIGHT PLATFORM SWING™

FEATHERWEIGHT PLATFORM SWING™ & FEATHERWEIGHT BUCKET SWING™

Our Featherweight Platform Swing and Featherweight Bucket Swing offer all of the fun and flexibility of a platform swing, but with a number of key innovations! First, we replaced the wood platform with a lightweight aluminum frame and a durable 1000 denier nylon cover. The result is a 35% weight savings that makes hanging the swing much easier. A protective padding is sewn into the cover to keep therapists' shins safe. One frame can be used with both the platform cover and the bucket cover.

Dimensions:
31″L x 31″W x 58″H (Platform Swing)
31″L x 31″W x 70″H x 8″D (Bucket Swing)
Working Load: 200 lbs.
Weight: 10.5 lbs. (Platform Swing); 11 lbs. (Bucket Swing)

420110	**Featherweight Platform Swing™**	**$779.00**
420115	**Featherweight Bucket Swing™**	**$769.00**
420120	**Deluxe Featherweight Kit (Bucket & Platform Covers)**	**$1,017.00**

THE BUDDY BOAT

Clients can use this swing while sitting, prone or even on their backs, with no fear of falling, encouraging active movement. Using positioning aids, such as wedges or cushions, makes this a great swing to use with children who have decreased motor control. In addition, the soft fabric makes The Buddy Boat cozy and inviting for even your most tactile-defensive clients.

The large dimensions make it suitable to hold several toddlers or pre-schoolers simultaneously, encouraging socialization and cooperative play.

One end of The Buddy Boat is made of durable clear vinyl, so the children can see out and the therapist can see in. The see-through side can be lowered and stowed, allowing older children to use their hands or feet to obtain some great proprioceptive input.

Dimensions: 46″L x 22″W x 72″H x 12″D
Working Load: 300 lbs.

120100	**The Buddy Boat**	**$679.00**

Vestibular Activities

WEE TRAPEZE BAR

Even the smallest clients can challenge their skills with our Wee Trapeze Bar swing. It is shorter and has a smaller diameter than the other trapeze bars. Smaller hands find the 1"dia., non-turning bar easier to grasp. Includes (1) Safety Snap.

Dimensions: 14"W (Inside Ropes) x 23"H
Working Load: 100 lbs.

4004	**Wee Trapeze Bar**	**$77.00**

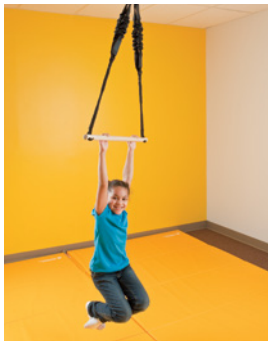

DOUBLE TRAPEZE BAR

Southpaw's Double Trapeze Bar, featuring the security of a double bar, enables your clients to swing into success. Children pull up to a sitting position from a hanging position with more confidence. The 1.25"dia. solid hardwood rungs are 25" wide and 18" apart. The Double Trapeze Bar can be hung from one or two ceiling points. Includes (2) Safety Snaps.

Dimensions: 25"W x 27"H
Working Load: 200 lbs.

4003	**Double Trapeze Bar**	**$185.00**

BUNGEE TRAPEZE BAR

The Bungee Trapeze Bar addresses a child's upper extremity strengthening, core stability, motor planning and bilateral coordination. The bungee adds increased vestibular input and an increased challenge for balance. It is also good for teaching timing and body control. The trapeze is challenging, as the bungee adds an element requiring more focus than physical strength.

Dimensions: 30"W x 36"H
Working Load: 120 lbs.

4002	**Bungee Trapeze Bar**	**$185.00**

SWING HARNESS

The Swing Harness adds a new dimension and challenge to any therapeutic activity. Once strapped in, clients experience vestibular input in a variety of planes, including upside down. It is a great piece of equipment to use with activities that address motor planning and body awareness. Adjustable belt fits up to a 32" waist. Leg loops fit up to 20" thigh. Vertical Stimulation Device is not included.

Working Load: 500 lbs.

120065	**Swing Harness**	**$175.00**

TRAPEZE BAR

The Southpaw Trapeze Bar allows clients to work on their upper extremity strengthening, increase their flexion posture, and improve their motor planning skills. It offers a fun way to challenge many of their overall development skills. Safety Snaps included.

Dimensions: 39″W x 36″H (Adult); 30″W x 36″H (Child); 1.25″dia. (Bar)
Working Load: 400 lbs.

4000	**Adult Trapeze Bar**	**$99.00**
4001	**Child Trapeze Bar**	**$85.00**

FLYING PURPLE PEOPLE EATER

This versatile swing is great for any child who loves small places. Kids will love to swing and spin while in their own little space. Fill it with therapy balls (or any other tactile material) to increase the input and excitement.

Includes a removable stabilizing bottom board, so you can provide a solid, flat floor to sit or kneel on. Each board is covered in durable fabric and attaches easily to the bottom of the swing with hook-and-loop fasteners.

Dimensions: 52″H
Working Load: 200 lbs.

120090	**Flying Purple People Eater**	**$441.00**

TACO SWING

The swing delivers full body pressure provided by the client's own weight. This provides excellent proprioceptive input to help with calming the over-stimulated client.

The Taco Swing is an easy and fun way to get relaxed. To get the full therapeutic effect, have the child or adult lie face up or down and begin slowly swinging.

The swing cover is made from a quilted poly-cotton material that is durable and soft to the touch. Machine washable and dryable. Colors may vary.

Dimensions: 72″H
Working Load: 200 lbs.

120130	**Taco Swing**	**$399.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

Vestibular Activities

FROG SWING

The Frog Swing is one of the most popular swings for clinical and home use for providing proprioceptive stimulation and vertical movement.

The Frog Swing has a wood crossbeam that allows it to be adapted for a working load of 150 lbs. The Frog Swing comes with three single vertical stimulation loops for an initial working load of up to 90 lbs. These loops can be removed to provide a greater bounce for younger clients. You can easily increase the working load to 120 or even 150 lbs. by simply adding more loops.

Dimensions: 56"H
Working Load: 90 lbs. (up to 150 lbs. with additional VSDs)

1925	**Frog Swing**	**$425.00**
1927	**Padded Frog Swing Seat**	**$65.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

2-IN-1 FROG SWING

Two great swings in one! Our awesome Frog Swing comes with a Trapeze bar at the top to allow clients a handlebar to hold onto, but then with a few clicks, change the activity into a Trapeze swing task. This piece of equipment offers great proprioceptive stimulation and vertical movement with the Frog Swing; and upper extremity strengthening, motor planning and core strengthening with the Trapeze Bar.

Dimensions: 30″L (Trapeze Bar) x 56″H
Working Load: 120 lbs. (up to 150 lbs. with additional VSDs)

121920	**2-in-1 Frog Swing**	**$330.00**

TADPOLE SWING

Allow your young clients to leap and bounce with our Tadpole Swing while working on core stability skills. Made of nylon mesh fabric, this cushioned sling-like swing is great to use with kids in the prone position. It is ideal for those clients who are low tone or gravitationally insecure.

Comes complete with seat, (3) vertical stimulation loops and (2) locking Safety Snaps.

Dimensions: 65″H
Working Load: 90 lbs. (up to 150 lbs. with additional VSDs)

121925	**Tadpole Swing**	**$445.00**

SLING SEAT

Southpaw's Sling Seat is designed to be used with the standard Dual Swing or alone. Larger clients, as well as therapists, sometimes find the sling seat more comfortable to use than the leg loops. Use alone as a seat or belly swing. The 6″W seat comes with two permanently attached lines. With this adaptation, you'll find many of your clients will be more comfortable and work longer.

Dimensions: 67″H
Working Load: 400 lbs.

1625	**Sling Seat**	**$97.00**

Vestibular Activities

CHILD AND ADULT SLING SWINGS

Southpaw's Sling Swing, a single-point suspended hammock, provides full and even support, and will not gather or bunch with the weight of the client. Made of soft nylon knit fabric, the Sling Swing works like a net, without any tangle problems.

Supported with heavy-duty vinyl for strength and durability, the Sling Swing offers responsive support, and provides all support in a flexion position. It also offers vestibular stimulation prone or seated. Includes (1) Safety Snap.

Dimensions: 60"H (Child & Adult)
Working Load: 200 lbs. (Child); 300 lbs. (Adult)

0133	**Child Sling Swing**	**$189.00**
0134	**Adult Sling Swing**	**$279.00**

SWING PULLEY

With our newly engineered swing pulley, you no longer have to balance those bulky swings and struggle to put them up, get the right height, and take them down. This system allows you the ease of putting up and taking down suspended equipment by simply attaching the swing to the pulley and away you go.

Working Load: 500 lbs.

112500	**Swing Pulley**	**$355.00**

HELICOPTER SWING

The Helicopter Swing offers responsive support in a flexion position. The swing can be used lying face down or on the back, and helps the most nervous client gain confidence in swinging.

Working Load: 400 lbs.

120170	**Helicopter Swing**	**$365.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

STANDARD DUAL SWING

The Standard Dual Swing remains high on the list of Southpaw's popular therapy tools because of its ability to provide orbital and rotational movements.

The swing can be used prone or sitting. It provides vestibular input while working on extension, proprioceptive input, motor planning and core stability. This versatile swing may be used with one or two clients in the sitting position. It definitely adds a great deal of variety and fun to your treatment sessions.

The Southpaw Standard Dual Swing consists of four super-soft nylon leg loops attached to four 40" ropes. It fastens at the top with two Safety Snaps to permit easy hanging. The loops are made of extremely soft webbing and provide comfortable support for most clients. Its versatility and low price make it a must for every program. Includes (4) ropes, (4) leg loops and (2) Safety Snaps.

Dimensions: 67"H x 40"L (Ropes)
Working Load: 400 lbs.

1600	**Standard Dual Swing**	**$192.00**

Vestibular Activities

BIORBITAL ACCELERATOR

Three ranges of movement, vertical, rotational and orbital, provide all the versatility and motion you could want from one piece of equipment. The Biorbital Accelerator's steel crossbar serves as a teeter-totter, which permits an exaggerated vertical movement.

The main pivot of the steel crossbar can be moved easily by shifting the rotational device to one of the three positioning eyebolts, thus allowing two clients of different sizes to work together.

Includes (2) sets of leg loops, (1) sling seat and (2) adjustable chest harnesses.

Dimensions: 36″L x 60″H
Working Load: 300 lbs.

1700	**Biorbital Accelerator**	**$572.00**

SKY SAILOR

This piece of equipment offers both vestibular and proprioceptive input. From the nylon mesh material adding resistance and providing a calming feel to the vestibular input that can be provided in a variety of positions, this swing can be a great addition to many therapeutic activities.

Dimensions: 48"L x 25"W x 48"H; Working Load: 250 lbs.

120133	**Sky Sailor**	**$430.00**

INTERACTION DUAL SWING

The Interaction Dual Swing encourages interaction as it provides stimulation.

Active play by two clients provides both rotational and orbital stimulation, and demands postural adjustments. This unique design encourages a more normal shoulder and upper extremity position. The shared exercise encourages longer involvement in therapeutic activity.

Includes (2) lines and spreader bar, (4) leg loops and (1) Safety Snap.

Dimensions: 61"H
Working Load: 400 lbs.

1630	**Interaction Dual Swing**	**$157.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

Vestibular Activities

MOON BALL SWING

The Moon Ball Swing provides excellent vestibular and proprioceptive stimulation because it allows for controlled bouncing and vertical movement. The swing incorporates a 55cm therapy ball as the base for a variety of activities, including flexion, extension and postural adjustments. Can be used as both a swing and on the floor for controlled activities.

Dimensions: 22″W x 60″H (Resting height)

120175	**Moon Ball Swing**	**$467.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

MOON SWING

The Moon Swing is a great means for addressing bilateral coordination, balance, strength and vestibular input. Its size and shape allows the therapist to create an easy mount and dismount for clients. The soft gooseneck is extra long to help the child hang on.

The Moon Swing is exceptionally durable, with a ring connection point that is reinforced for extended wear.

Dimensions: 18″dia. x 48″L
Working Load: 200 lbs.

0140D2	**Moon Swing**	**$276.00**

ACROBAT SWING

Southpaw's Acrobat Swing can be hung from two, three or four attachment points. As a hammock, it provides vestibular input with increased pressure offering a calming effect. The three- or four-point hookup increases the challenge by allowing clients to climb through the layers. Or, it can provide a calming tent-like space. This swing is great for developing body awareness and addressing motor planning skills.

Made of four layers of heavy-duty, four-way stretch LYCRA®, this swing provides varying degrees of resistance, layer by layer. Safety Snaps are not included.

Dimensions: 96″L x 48″W
Working Load: 300 lbs.

120077	**Acrobat Swing**	**$516.00**

Vestibular Activities

FLEXION DISC

Southpaw's Flexion Disc provides both vestibular and proprioceptive stimulation for your clients. Vary the vestibular input from gentle pushing and rocking to a more active shaking, rotating and orbiting. The Flexion Disc has a carpeted base with a heavily padded edge and center post. A minimum ceiling height of 8′ is required.

Accommodate a wide range of clients by adding the Large Flexion board to your Flexion Disc. Our Large Flexion Disc board is 56% larger than the standard disc. The board is carpeted and padded around the edge like the standard board. Includes detachable control strap and (1) Safety Snap.

Dimensions: 24″dia. x 35″H (Without VSD); 55″H (With VSD)
Working Load: 300 lbs. (Disc Alone)

1909	Flexion Disc	$419.00
1910	Deluxe Flexion Disc, Includes VSD	$585.00
1914	Large Flexion Disc Board	$172.00

PLEASE NOTE: Minor assembly is necessary. Replacement VSDs (item 1935) can be found on page 52.

FLEXION T-BAR

Here's a great way to address balance and bilateral strength, and also provide vestibular input for your more involved population. The Southpaw Flexion T-Bar challenges your clients' flexion patterns as they enjoy activities while on this piece of suspended equipment.

Advanced clients will be stimulated when they hang beneath the T-Bar and shift from side to side while swinging. Use for a wide range of rotational and orbital movements. Includes control strap and (1) Safety Snap.

Dimensions: 44″H (Without VSD); 64″H (With VSD)
Working Load: 350 lbs. (T-Bar Alone)
Weight: 19 lbs.

1919	Flexion T-Bar	$551.00
1920	Deluxe T-Bar Includes Vertical Stimulation Device	$703.00

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

3-IN-1 BARREL SWINGS

Therapists will be able to challenge clients in vestibular stimulating and calming, weight bearing, flexion/extension, balance, push/pull and climbing activities. The 3-in-1 Barrel Swing can be suspended from either a single- or two-point suspension system. You can also create a trapeze bar with the hanging assembly and use the barrel as a floor roll.

Its strong, corrugated structure can support both client and therapist. The exterior (1.375") and interior (1") padding makes all Barrel Swing positions extra comfortable. The exterior is covered in a durable vinyl that allows easy maintenance and cleaning.

Dimensions:
13"ID x 20"OD x 33"L x 70"H (Small)
16"ID x 23"OD x 38"L x 73"H (Large)
Working Load: 400 lbs.

120140	**Small 3-in-1 Barrel Swing**	**$821.00**
120145	**Large 3-in-1 Barrel Swing**	**$949.00**

PLEASE NOTE: The circumference of the 3-in-1 Barrel Swing may cause a "W" sitting position in some clients when straddling the swing, and should be discouraged.

Vestibular Activities

TUBE SWING

The heavy-duty tube shown may be inflated to any size needed. The natural bounce of the rubber tube makes it ideal for providing proprioceptive and vestibular stimulation. Southpaw's harness is made with heavy-duty material.

Webbed nylon sling adjusts to fit most larger inner tubes and protects clients from being scraped or poked by the valve stem.

Working Load: 250 lbs. when used with our Heavy-Duty Inner Tube (item 0180)

1500	**Tube Swing Harness Only, Inner Tube Not Included**	**$89.00**
0180	**Heavy-Duty Inner Tube**	**$61.00**
1501	**Tube Swing Kit, Includes Harness & Heavy-Duty Inner Tube**	**$135.00**
0185	**Single Tube Wrap**	**$62.00**

TIRE SWING KIT

Who says that work can't be fun? Created as a therapeutic piece of equipment, the Tire Swing Kit is so much fun that clients won't be able to stay away. Provides a stable swing in situations where a minimum of movement is desired, and permits a variety of applications for use with clients standing, kneeling, sitting or lying down.

You provide the appropriate size tire for your client, and Southpaw's Tire Swing Kit provides the rest: ropes, hardware and instructions. Fits any size automotive tire.

Dimensions: 70"H
Working Load: 250 lbs.

1550	**Tire Swing Kit**	**$152.00**

PLEASE NOTE: All swings must be used with Southpaw's Safety Rotational Device and a Safety Snap (both page 58).

FUN RIDE DELUXE™

This heavy-duty trolley ride allows clients to glide from one side of the room to the other along the 70′ long steel cable. The Fun Ride Deluxe addresses motor planning, bilateral strengthening and improving flexion development. This piece of equipment is a necessity for developing a tolerance for movement and diminishing gravitational insecurity. The Fun Ride is recommended for clients over the age of 8.

Working Load: 225 lbs.

1148	**Fun Ride Deluxe™**	**$99.00**

STEERING WHEEL SWING

Take flight like a helicopter with our Steering Wheel Swing. This piece of equipment allows individuals the ability to feel rotational input while challenging them with strengthening their upper body and providing core stability. It is small, easy to store, and a great addition to your therapeutic space.

Dimensions: 26″H; Working Load: 200 lbs.

120017	**Steering Wheel Swing**	**$89.00**

Vestibular Activities

DISC SWING

This sturdy, textured disc swing is designed for a comfortable ride, with a plastic neck around the rope to protect your client's legs.

Provides vestibular stimulation and flexion, motor control development, rotational and orbital stimulation, and stimulation for both upper and lower extremities.

Working Load: 150 lbs.

1172	**Disc Swing**	**$72.00**

FOLD & GO TRAMPOLINE

The Fold & Go Trampoline has been designed to offer you the finest children's bouncer. It comes with a padded frame cover and handle. The frame is totally foldable for easy transport. Ages 3+.

Dimensions: 36"dia.; Working Load: 150 lbs.

251200	**Fold & Go Trampoline**	**$115.00**

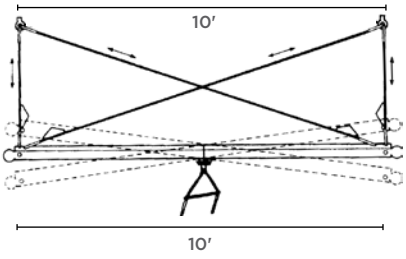

MONO TRAMPOLINE

With a welded steel frame and ergonomic design, the Mono Trampoline is a beautifully designed exercise toy for children. Childcare providers and parents will appreciate the safety of the sloped protective cushion, high rear edge and foam-covered handle. Reinforced webbing suspended in steel springs will keep kids bouncing for a long time.

Dimensions: 40.5"W x 27.5"H; Working Load: 132 lbs.

556111	**Mono Trampoline**	**$515.00**

FLYING TRAPEZE

Motor planning, flexion, vestibular stimulation and fun are all a part of this activity on the Southpaw Flying Trapeze. This horizontal glider is excellent for helping clients develop a tolerance to movement, for improving flexion patterns, and motor planning a new task.

This system hangs from two existing ceiling points, 8′ to 12′ apart, and does not require wall-mounted suspension points. A special track allows the trolley to glide freely from one end to the other. The configuration of the upper rigging uses four height adjustment systems to give you complete control over the height and angle of the track, and keeps the mechanism from swaying.

Adjustability is built into the Flying Trapeze so you can meet your clients' individual needs. Adjust the height, the angle, and choose a seat. You may want a young client to sit in the sling seat so his feet almost touch the floor. You may want to position another client prone in the sling seat with the beam at an angle so she can pull herself hand-over-hand up a rope using heavy work patterns.

Includes track, upper rigging, trolley, trapeze bar and detachable sling seat.

Dimensions: 10′L x 8′–12′H (Adjustable)
Working Load: 200 lbs.

1960	**Flying Trapeze**	**$1,539.00**

This item ships Motor Freight.

TWIRLER

Southpaw's Twirler invites clients to spin and twirl while providing axial and vestibular stimulation. Use the Twirler in conjunction with Southpaw's Vertical Stimulation Device (page 52) to add bounce. Southpaw's Twirler is an excellent tool to stimulate flexion and extension patterns.

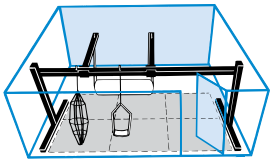

Includes rope and handle.

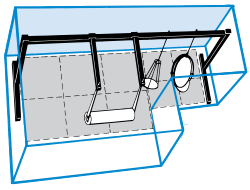

Dimensions: 36″H
Working Load: 300 lbs.

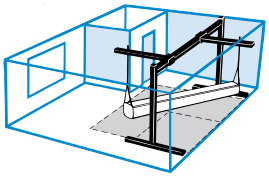

1149	**Twirler**	**$149.00**

CUSTOM SUPPORT STRUCTURE

The First and Best Custom Support Structure!

CUSTOM SUPPORT STRUCTURE

Designed to fit any room regardless of size, shape or location of doors and partitions, Southpaw's Custom Support Structure is perfect for rooms that cannot accommodate a permanently installed ceiling eyebolt.

We start with a standard size of 12'L x 8'W x 10'H at the base. From there you can customize the finished height of your structure to a minimum of 7'6" or a maximum height of 12'. The main crossbeam may be as short as 8' or as long as 20' to accommodate your therapy space. There is a limited range of swings that can be used at the 7'6" height.

Southpaw's Custom Support Structure is constructed of .25" thick 5" x 3" structural steel tubing. This solid, stable, freestanding structure will support almost any piece of suspended equipment, and will not slip or slide with the most rigorous activity.

Custom Support Structures under 15' in length include three forged eyebolts spaced evenly on the top beam. You may add eyebolt wraps, swivel eyebolt wraps or upright-mounted eyebolts for an additional charge. For added protection, the uprights and bases are heavily padded. The slip-fit, bolt-together construction is easy to assemble and disassemble. It is shipped in 5 cartons (6 with a splice).

The Splice Package (7000-S) is required for Support Structures 15' or greater in length. It converts a one-piece crossbeam into two pieces for ease of moving and assembly. Structures greater than 15' will require the eyebolt wraps or swivel eyebolt wraps for suspension of swings.

To help you determine what size will fit your needs, call us at 800.228.1698.

Dimensions: 12'L x 8'W x 10'H
Weight: 700 lbs. (Approximate); Working Load: 1,500 lbs.

7000	**Custom Support Structure**	**$3,750.00**
7000-S	**Splice Package, Required for Support Structures 15' or Greater**	**$385.00**
7004	**Extra Length per Foot, Over 12'**	**$75.00**

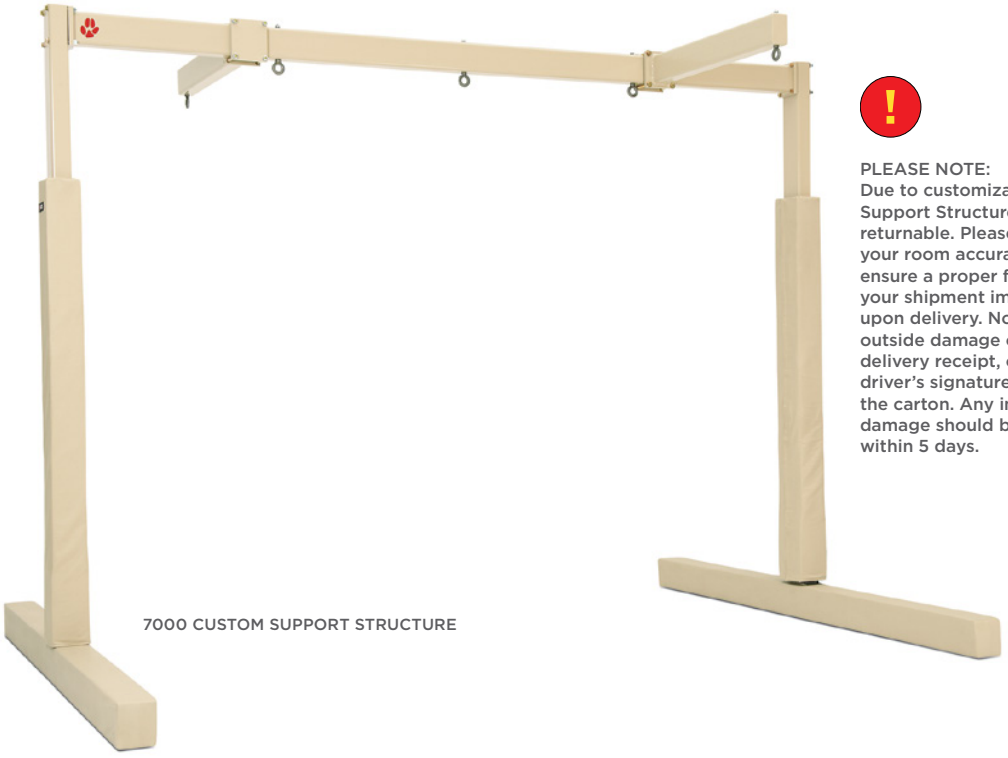

CUSTOM FLOOR MAT

We now offer custom-made floor mats to fit within the dimensions of your Support Structure. The 5" thick mats are the same height as the base of the structure, and are made of 3.75" of 1.8 density 50 ILD polyurethane, topped with 1.25" cross-linked polyethylene. The standard size is 11.25'L x 8'W. Additional 11.25'L x 2'W mats may be ordered so you can cover the complete floor area. All mats are camel colored.

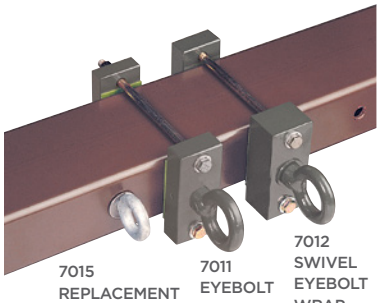

557950	**11.25'L x 8'W Floor Mat**	**$1,475.00**
557951	**7.25'L x 8'W Floor Mat**	**$1,053.00**
557952	**9.25'L x 8'W Floor Mat**	**$1,315.00**
557953	**11.25'L x 2'W Floor Mat**	**$500.00**

All items on this page ship Motor Freight.

7000 CUSTOM SUPPORT STRUCTURE

PLEASE NOTE:
Due to customization, the Support Structure is non-returnable. Please measure your room accurately to ensure a proper fit. Inspect your shipment immediately upon delivery. Note any outside damage on the delivery receipt, obtain driver's signature, and save the carton. Any internal damage should be reported within 5 days.

7015 REPLACEMENT EYEBOLT

7011 EYEBOLT WRAP

7012 SWIVEL EYEBOLT WRAP

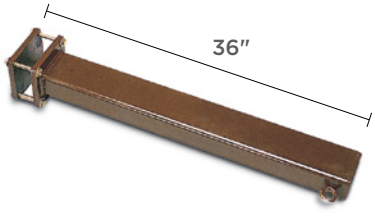

EYEBOLTS & EYEBOLT WRAPS

We've made it easier for therapists to position therapeutic equipment while using the Custom Support Structure. We've designed the Eyebolt Wrap, which moves along the top beam. The eyebolt is larger than our standard .5" eyebolt.

The Swivel Eyebolt Wrap includes a built-in Rotational Device. Each Eyebolt Wrap is designed to be used only with Southpaw's Custom Support Structure.

Working Load: 1,000 lbs.; Weight: 7 lbs.

7011	**Eyebolt Wrap**	**$167.00**
7012	**Swivel Eyebolt Wrap**	**$225.00**
417011	**Eyebolt Wrap (Set of 3)**	**$425.00**
417012	**Swivel Eyebolt Wrap (Set of 3)**	**$575.00**
7015	**Replacement Eyebolt**	**$16.95**

7005 CUSTOM EXPANSION BEAM

CUSTOM EXPANSION BEAM

We have enhanced our Custom Support Structure by designing the Expansion Beam. The beam will fit any size Custom Support Structure designed by Southpaw. Some assembly required. Colors may vary.

Dimensions: 36"L; Working Load: 700 lbs.; Weight: 55 lbs.

7005	**Custom Expansion Beam, Complete with Hardware and Eyebolt**	**$425.00**

UPRIGHT EYEBOLT KIT

The Upright Eyebolt Kit is used to connect pull handles or to anchor the bottom end of a zip line.

7008	**Upright Eyebolt Kit**	**$51.00**

Suspension & Hardware

CHOOSE THE CORRECT INSTALLATION KIT.

If you have a drop ceiling, you need to order one of the kits on this page. Remember, you need to order one kit for every location where you want to hang a swing. Call us at 800.228.1698 to help answer any questions you may have.

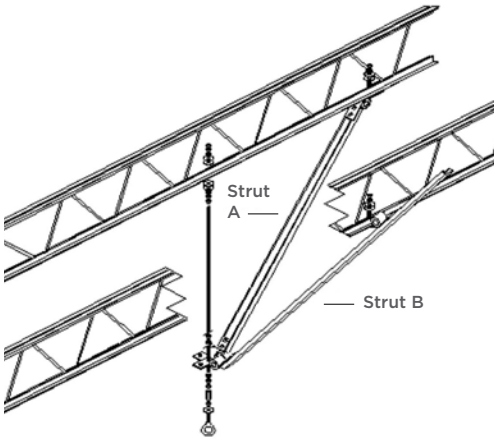

PREFAB JOIST INSTALLATION KIT

We've redesigned the rod end in this kit to prolong the life of the suspension hardware and allow for more fluid movement. The kit includes all the hardware needed to install an eyebolt in your prefabricated metal joist over a dropped ceiling. Complete installation guidelines are included. Choose the kit that corresponds to the distance between the bottom of the joist and the dropped ceiling.

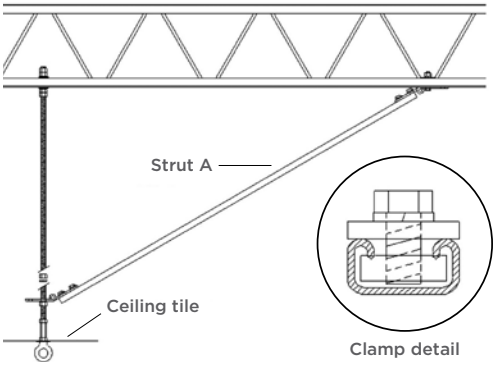

Working Load: 500 lbs.

7051	**1′ to 3′ Drop Prefab Joist Installation Kit**	**$298.00**
7062	**3′ to 5′ Drop Prefab Joist Installation Kit**	**$385.00**

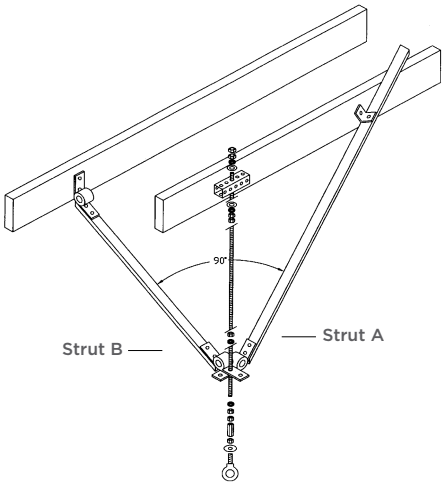

Steel struts extend out 2 ft. from shoulder bolt to adjacent and opposing T-beams.

Lateral struts extend to next beam approximately 18″ to 48″.

WOOD JOIST DROP CEILING INSTALLATION KIT

We have produced a ceiling eyebolt kit designed for wooden joists above a dropped ceiling. Similar in design to our metal pre-fab joist kit, it includes all the hardware you need to complete the installation. Simply measure the distance from the bottom of your joist to your dropped ceiling, then order the appropriate kit.

Working Load: 500 lbs.

7056	**1′ to 2.5′ Drop Wood Joist Installation Kit**	**$365.00**
7066	**2.5′ to 5′ Drop Wood Joist Installation Kit**	**$430.00**

2" X 6" BEAM INSTALLATION KIT

We've redesigned the rod end in this kit to prolong the life of the suspension hardware and allow for more fluid movement. This kit is mounted to an exposed 2" x 6" or greater wooden beam with five hex head bolts. Comes complete with all the hardware necessary for installation. Ready for your building contractor to install. Safety Snaps not included.

Working Load: 500 lbs.

7013	**2" x 6" Beam Installation Kit**	**$145.00**

! PLEASE NOTE: If you have wooden beams, order this kit.

I-BEAM OR H-BEAM KIT

Steel I-Beams or H-Beams are common support structures in buildings that have two floors. Included in this kit are (1) 2" x .5" galvanized forged steel eyebolt, (1) .5" washer and (1) .5" positive lock nut.

Working Load: 600 lbs.

7000-I	**I-Beam or H-Beam Kit**	**$17.95**

! PLEASE NOTE: If you have steel I-Beams or H-Beams, order this kit.

Suspension & Hardware

C-STAND & LINEAR MOTION BAR

Our easy-to-assemble, freestanding C-Stand frame has a flat, padded base that provides a stable, strong support platform without frame legs to interfere with treatment. We have simplified the height adjustment by adding a C-stand exclusive height adjustment strap, which also eliminates metal-to-metal contact and wear. Additionally, the "C" portion of the kit is a two-piece unit, which makes moving and assembly easier.

Setup time is approximately 1 to 2 hours. The kit includes everything you need to start using your therapeutic equipment... just unpack and assemble.

Dimensions: 60"dia. x 60"W x 92"H
Working Load: 300 lbs.
Weight: 600 lbs.

7100	C-Stand, Complete with Integrated Rotational Device, Height Adjusting Strap, Base and Bump Mats	$4,205.00
7101	Linear Motion Bar for C-Stand	$426.00
7102	C-Stand Replacement Eyebolt	$45.00

This item ships Motor Freight.

PLEASE NOTE: Please measure your room accurately to be sure the C-Stand will fit in your designated area. Inspect your shipment immediately upon delivery. Notate any outside damage on the delivery receipt, obtain driver's signature, and save the carton. Any internal damage should be reported within 5 days. The C-Stand is non-returnable.

7101 LINEAR MOTION BAR FOR C-STAND

7100 C-STAND, SWING SOLD SEPARATELY

VERTICAL STIMULATION DEVICE

The VSD provides excellent vestibular and proprioceptive stimulation because it allows controlled bouncing and vertical movement. It comes complete with two locking safety snaps and four industrial quality elastic loops—two single loops, each with a working load of 30 lbs., and two double loops, which have a working load of 60 lbs. per double loop. This setup provides a working load range of 30–180 lbs. You can add additional double loops in place of the single loops to increase your VSD's capacity to 240 lbs.

Dimensions: 20"H; Working Load: 30 lbs. Per Single Loop; 60 lbs. Per Double Loop

1935	Vertical Stimulation Device	$230.00
1937	Replacement Single Loop, 30 lb. load, each loop	$43.00
1938	Replacement Double Loop, 60 lb. load, each loop	$62.00

PLEASE NOTE: The life span of the loops will depend upon the intensity, frequency and duration of use. While they may last a very long time, the typically demanding use of this particular product necessitates a higher rate of replacement. Therefore, SOUTHPAW CAN ONLY WARRANTY THE LOOPS FOR SIX MONTHS.

Southpaw does not recommend that you use more than four double loops at a time on your VSD.

7152 LINEAR MOTION BAR FOR HEAVY DUTY C-STAND

HEAVY DUTY C-STAND

Southpaw's Heavy Duty C-Stand is designed to allow for a larger working load. The frame has a padded base that provides a stable, strong support and allows for ample room for swinging. The Heavy Duty C-Stand has a built-in rotational device and height adjustment strap. Platform Swing (page 26) sold separately.

Dimensions: 62"W x 93"H x 88"D
Working Load: 600 lbs.

7150	**Heavy Duty C-Stand**	**$6,759.00**
7152	**Linear Motion Bar for Heavy Duty C-Stand**	**$465.00**

PLEASE NOTE: Please measure your room accurately to be sure the Heavy Duty C-Stand will fit in your designated area. Inspect your shipment immediately upon delivery. Notate any outside damage on the delivery receipt, obtain driver's signature, and save the carton. Any internal damage should be reported within 5 days. The Heavy Duty C-Stand is non-returnable.

This item ships Motor Freight.

Suspension & Hardware

7600 MANTIS PORTABLE SUSPENSION FRAME. SWING SOLD SEPARATELY

This item ships Motor Freight.

MANTIS PORTABLE SUSPENSION FRAME

We designed this portable frame along with the University of Dayton Engineering Department because you asked for a suspension system that could be moved around the room easily. It can be assembled or dismantled by two people in less than 20 minutes. Once unassembled, it will fit through any standard door. Our suspension unit is made of aluminum tubing and has removable padding on all eight legs. With three suspension points, it will accept any kind of swing, and can be used for linear movement.

Dimensions: 14'6"L x 8'W x 7'8"H; Working Load: 500 lbs.; Weight: 160 lbs.

7600	**Mantis Portable Suspension Frame**	**$4,600.00**

NESSIE CLIMBER

This is a wonderful addition to our Custom Support Structure (page 48) that allows your clients to climb the rigging of a pirate ship or scale a building like Spiderman. The net has 13 sections across and 9 sections down, is made of blue and black tubular nylon webbing, and attaches to the support structure with 14 black nylon webbing straps secured by side release buckles.

It is definitely a great way to address motor planning, bilateral coordination, balance and stability skills for either individuals or groups.

Dimensions: 81"L x 117"W; Working Load: 500 lbs.

120070	**Nessie Climber**	**$685.00**

ITN INFANT ADAPTATION KIT

This kit is a must-have add-on to the Itinerant Platform Swing if you are working with very young children or those with low trunk control. It allows you to create a smaller, more secure space to complete activities or provide vestibular input, and it also enables you to keep your hands free to allow for increased interaction. The kit can be used with both the Itinerant Platform Swing (#7260, page 56) and the A-Swing Platform Swing (#7295) and easily attaches using the 4 included hook-and-loop straps.

7261	**ITN Infant Adaptation Kit**	**$295.00**

A-SWING FRAME

The A-Swing Frame has been designed to facilitate sensory integration therapy for pediatric clients that are served within their home or in community settings. It is easy to carry and stow in most vehicles. A-Swing Platform Swing sold separately.

Dimensions: 60″W x 60″H x 60″D
Working Load: 300 lbs.

7290	**A-Swing Frame**	**$810.00**
7295	**A-Swing Platform Swing with Carpet**	**$329.00**
6518	**A-Swing Platform Swing with Vinyl Padding**	**$329.00**

DID YOU KNOW: To make cleaning your Platform Swing easier, we offer vinyl replacement pads that can be purchased to replace the carpet. Both the carpet (included) and the vinyl pad attach to the swing using Velcro®. The vinyl pads are sold separately on page 5.

LOW-PROFILE SLING SWING

Offering the benefits of our Sling Swing in a shorter version. This single-point swing can be easily used with Southpaw's itinerant swing hook-ups, and offers even support during vestibular input.

Dimensions: 48″H
Working Load: 200 lbs.

SS0133	**Low-Profile Sling Swing**	**$177.00**

SWING PULLEY

With our newly engineered Swing Pulley, you no longer have to balance those bulky swings and struggle to put them up, get the right height, and take them down. This system allows you the ease of putting up and taking down suspended equipment by simply attaching the swing to the pulley and away you go.

Working Load: 500 lbs.

112500	**Swing Pulley**	**$330.00**

Suspension & Hardware

7250 ITINERANT SUPPORT FRAME. 7260 ITINERANT PLATFORM SWING SOLD SEPARATELY.

ITINERANT SUPPORT FRAME

Using the lightest, strongest and most cost-effective material available, our Itinerant (ITN) Support Frame will fit in almost any area, giving on-the-go therapists the first real portable suspension system on the market.

Weighing only 28 lbs., and less than 6′ in length when collapsed, the ITN Support Frame can easily be carried in most cars. The ITN Support Frame requires only 49 square feet of floor space, adjusts up to an 8′ working height, and supports up to a 300 lb. static load.

It comes complete with a built-in safety rotational device and a sturdy carrying case. A perfect complement for the ITN Therapist Kit. Vinyl-covered cables attach the legs to one another for extra stability. Swing sold separately.

Dimensions: 7′3″H, 7′10″H, or 8′5″H
Base Area: 84″L x 84″W
Traveling Length: 72″L
Weight: 28 lbs.

7250	**Itinerant Support Frame**	**$1,179.00**
7251	**Itinerant Support Frame Carry Case**	**$215.00**

PLEASE NOTE: The Itinerant Support Frame is intended as a temporary alternative for passive therapies where a permanent eyebolt installation is not possible. It is not intended to substitute for a permanent ceiling installation. When treating clients who require more intensive movements on a daily basis, a more supportive suspension unit should be used.

ITINERANT PLATFORM SWING

The traveling therapist now has more options with Southpaw's Itinerant Platform Swing! Designed to fit the Itinerant Support Frame, this lightweight swing weighs only 11 lbs., is 30″ in diameter and comes with its own carrying case. It also includes removable spreader bars to help provide more room inside the ropes for larger clients. It can be purchased with either carpet or vinyl padding on the seat. Both options are attached to the swing using Velcro®.

The platform swing is a useful tool for every therapist. It offers a variety of uses for vestibular input, postural control and balance.

Dimensions: 30″dia. x 7′3″H
Working Load: 300 lbs.
Weight: 11 lbs.

7260	**Itinerant Platform Swing**	**$461.00**
6517	**Itinerant Platform Swing with Vinyl Padding**	**$461.00**

DID YOU KNOW: If you already own a Platform Swing with carpet and wish to make cleaning your swing easier, we offer vinyl replacement pads that can be used in place of the carpet and are held in place using Velcro®. The vinyl pads are sold separately on page 5.

ITINERANT THERAPIST KIT 1

NOT compatible with the Itinerant Support Frame

1. Pony Bolster
2. Dual Swing
3. 30" Trapeze Bar
4. Sling Swing
5. Temporary Attachment Loop
6. Rotational Device
7. Safety Snap
8. Height Adjuster
9. 10 ft. Therapy Rope with Eye Splice
10. Carrying Case

1003 **Itinerant Therapist Kit 1** **$1,465.00**

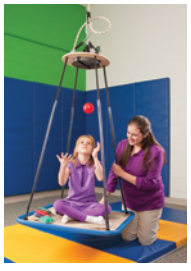

ITINERANT THERAPIST KIT 2

Compatible with the Itinerant Support Frame

1. Itinerant Platform Swing
2. Dual Swing
3. 30" Trapeze Bar
4. Sling Swing
5. Temporary Attachment Loop
6. Rotational Device
7. Safety Snap
8. Height Adjuster
9. 10 ft. Therapy Rope with Eye Splice
10. Carrying Case

7280 **Itinerant Therapist Kit 2** **$1,035.00**

BASIC VESTIBULAR SET

Every therapist knows there are three swings that are the basis of every vestibular program: the platform swing, bolster swing and net swing.

The carpeted platform swing can be used in a wide range of tilting movements and is suitable for clients in prone to standing positions. The bolster swing may be used for a variety of progressive flexion activities, and is strong enough to support both therapist and client. The therapy net provides vestibular input in all planes and improved head and neck extension. We've put the three swings together in one kit and are offering them at a substantial savings to you.

Dimensions: 30"L x 30"W x 60"H (Platform Swing); Working Load: 300 lbs.
Dimensions: 48"L x 69"H (Bolster Swing); Working Load: 350 lbs.
Dimensions: 48"H (Therapy Net); Working Load 200 lbs.

420130 **Basic Vestibular Set** **$975.00**

Suspension & Hardware

SUSPENSION & HEIGHT ADJUSTMENT KIT

Everything you need to safely hang your Southpaw equipment from ceilings up to 14′H. The kit includes a safety snap, rotational device, 10′ of therapy rope with eye splice, and a height adjuster with safety snap. These items may also be purchased separately. Remember to regularly inspect all equipment for wear.

Dimensions:
Safety Snap: 4″H; Working Load: 1,000 lbs.
Safety Rotational Device: 7″H; Working Load: 1,000 lbs.

410001	Suspension & Height Adjustment Kit	$225.00
0100	Safety Snap	$15.95
0150-04	4′ Therapy Rope	$20.50
0150-05	5′ Therapy Rope	$22.00
0150-06	6′ Therapy Rope	$24.00
0150-07	7′ Therapy Rope	$26.00
0150-08	8′ Therapy Rope	$27.50
0150-09	9′ Therapy Rope	$30.00
0150-10	10′ Therapy Rope	$31.50
5000	Height Adjuster, with Safety Snap	$129.00
2000	Safety Rotational Device, One Safety Snap Included	$72.00
412000	Safety Rotational Bulk Pack (Qty. 10) SAVE 15%!	$612.00

HEAVY-DUTY ROTATIONAL DEVICE, ONE SAFETY SNAP INCLUDED

A rotational device is one of the single most important pieces of hardware when it comes to suspended equipment. We have beefed up the components of our original rotational device to provide greater durability. The wear-point of the eyebolt is 70% greater, which will extend the useful life of the rotation device. The useful life of a rotational device depends entirely upon proper maintenance. See the product instruction sheet for details. Comes with a two-year warranty.

Dimensions: 8″H; Working Load: 1,000 lbs.

112000	Heavy-Duty Rotational Device, One Safety Snap Included	$95.00
422000	Heavy-Duty Safety Rotational Bulk Pack (Qty. 10)	$807.50

! PLEASE NOTE: Southpaw's Therapy Rope with Eye Splice is designed to work with Southpaw's Height Adjustment System. The Therapy Rope is extremely strong (2,000 lb. load capacity) and is custom cut to the length of 4′ or more, ordered separately from the kit. To determine the length of rope needed, subtract 4′ from your ceiling height.

410001 SUSPENSION & HEIGHT ADJUSTMENT KIT

EQUIPMENT STORAGE SYSTEM

Clear your space of those difficult-to-store swings with our Equipment Storage System. This device is able to keep your Frog Swing, Platform Swing or almost any other piece of equipment off the floor. Southpaw's storage racks will keep your space organized and efficient.

Like many of our products, these racks are designed to be flexible for your needs. The eyebolt attachment points are adjustable and can be easily moved to accommodate the equipment you have. Or, you can add more eyebolts if necessary. The Equipment Storage Rack is available in two sizes to fit your room: 6′ length or 4′ length. Mounting hardware is sold separately. Choose the kit that corresponds to your wall type.

121110	**6′L Equipment Storage Rack**	**$124.00**
121120	**4′L Equipment Storage Rack**	**$104.00**
121110A	**Block/Brick/Concrete Mounting Kit**	**$28.00**
121110B	**Metal Stud Mounting Kit**	**$10.00**
121110C	**Wood Stud Mounting Kit**	**$15.00**
121110X	**Additional Eyebolt Kit (each)**	**$13.95**

121110X
ADDITIONAL
EYEBOLT KIT

Aerial View of 6′ Ball Storage Rack

BALL STORAGE RACK

You can increase the versatility of your equipment storage system by adding a Ball Storage Rack to it.

Designed in conjunction with the Equipment Storage Rack, the Ball Storage Rack simply bolts right on. The 6′ Ball Storage Rack has a unique stepped design, allowing for the storage of large balls AND balls down to 16″dia. The 4′ rack holds balls 18″ and larger. These attach ONLY to the Equipment Storage Rack (sold separately).

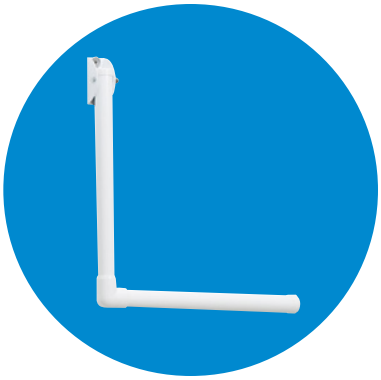

132000	**6′L Ball Storage Rack**	**$119.00**
132001	**4′L Ball Storage Rack**	**$99.00**

FOLDING BALL RACK

Keep your therapy balls organized, save space, and maintain a safer therapy environment with Southpaw's Folding Ball Rack. Our innovative design will store a ball of almost any size, from the very smallest ball up to 45″dia. When not in use, the arm folds nearly flat to the wall, freeing up usable therapeutic space.

This is ideal for every therapy room, but especially for smaller rooms where space is a premium. The single-ball size also gives you flexibility in placement. Place two or more Folding Ball Racks side by side or vertically — whatever works best for your space. This is simply the best storage device for therapy balls available today! Attaches to any wall with appropriate mounting hardware (use your own, or sold separately).

132002	**Folding Ball Rack**	**$97.00**
132002H	**Hardware Mounting Kit, Each**	**$6.95**

SAFETY TIPS

Southpaw. Committed to Safety for Clients and Therapists.

Sensory integration therapy is not inherently dangerous, but every activity has certain elements of risk.

Precautions can be taken that will eliminate most hazards.

Southpaw is committed to helping its customers develop a comprehensive safety strategy. We believe the elements of safety include the layout of the clinic or therapy space, the installation of ceiling eyebolt supports to the proper specification, the implementation of a systematic equipment inspection program, proper matting, and personal protection.

Call Southpaw's knowledgeable Customer Service Representatives for more information on safety features at 800.228.1698.

CEILING SUPPORT

Ceiling support must be designed around the most rigorous environment, not necessarily the current one. Your ceiling support point should meet the following standards no matter what population you treat or the manner in which you treat them.

Ceiling supports should be able to support at least a 1,000-pound working load at up to a 45-degree angle in any direction, regardless of ceiling structure. Keep in mind that during treatment activities, the forces acting on the ceiling eyebolt will not always be straight down. Even a gentle swing on the equipment varies the angle of those forces on the ceiling support point. There should be no more than .25" of movement in your eyebolt, which is up to and inclusive of the stated 1,000-pound, 45-degree pull. Eyebolt movement beyond .25" or any rotation under any load is UNSAFE.

WARNING! Eyebolts will wear with use and must be inspected on a regular basis. Discontinue use of eyebolt and replace immediately when wear begins to show, never letting wear exceed 30%.

In ceiling support applications, following the inspection and maintenance checklist that comes with the product is even more critical where components of the ceiling support are above a dropped ceiling. In these situations, loose or worn components are typically only discovered by a scheduled inspection.

WORKING LOAD

The working load is the combined weight of the equipment, the child and/or therapist on it, and the weight created by movement. It is NOT the number at which the equipment will fail, but rather the maximum sustainable load that the equipment can handle.

To demonstrate, if a 150-pound person stands on a scale, it will read 150 pounds. However, if that person jumps on the scale, the reading will momentarily shoot way past 150 pounds. That is an example of weight created by movement, the result of which is the working load exerted on the scale.

MATTING

Because safety is always a priority, proper matting must be considered up front. Regardless of the application, we recommend as many of the best, thickest mats you can afford. When purchasing mats, consider these questions:

- What kind of suspended activities do your clients perform?
- Do activities include linear swinging, rotation or a mix?
- Do clients swing very high?
- Where do activities take place?

Once you have answered these questions, you will have a good idea of the floor space that will need to be covered with mats and how thick the mats should be.

The base of the eyebolt must be flush with the ceiling. There must not be any gap between the base and ceiling surface.

DEVELOP A COMPREHENSIVE 3-STEP INSPECTION AND MAINTENANCE PROGRAM.

Most therapy equipment takes quite a beating. Southpaw works hard to design equipment around this fact by using the best materials available. However, even the best piece of equipment will have a finite life.

In the few instances of equipment failures we have seen over the years, most have been a result of parts wearing completely through, such as eyebolts breaking or ropes failing. The vast majority of failures can be completely prevented by simple, routine inspections and maintenance.

A COMPREHENSIVE 3-STEP INSPECTION AND MAINTENANCE PROGRAM INCLUDES THE FOLLOWING:

1. TRAINING

All therapists who will use the equipment must familiarize themselves with the instruction sheet and maintenance checklist that comes with each item purchased from Southpaw. Both documents, which include a list of all parts, setup procedures (if applicable), safety notes, inspection point, and cleaning and storage instructions, need to be kept in a fully accessible, known location.

2. KNOW WHAT NEEDS TO BE INSPECTED

As noted above, each item from Southpaw includes an instruction sheet and maintenance checklist. Each instruction sheet lists items to inspect on the product as well as inspection intervals. Following these guidelines will bring your attention to the wear on a piece of equipment before it becomes dangerous.

In addition to inspecting the specific points noted on the checklist, therapists must always inspect each piece of equipment as a whole before and after each use. The last person to use the equipment may have changed or reconfigured something that makes its use inappropriate for the next person.

3. MASTER SCHEDULE

Developing a regular inspection and maintenance master schedule is one of the most significant steps you must take to keep equipment, therapists and clients safe.

A master schedule is highly detailed and includes a comprehensive list of all items requiring inspection, the related instruction sheets and checklists, and the dates on which each inspection should take place. The program should specifically identify assigned groups or persons to perform each task.

The importance of proper, scheduled maintenance cannot be overstated.

Weight & Resistance

Weighted Blankets. Safe and Calming.

2277 GIANT WEIGHTED 10 LB. BLANKET

WEIGHTED BLANKET

Weighted blankets are an excellent way to provide clients with full-body proprioceptive input in order to help with calming. The blankets are versatile as they can be folded and used where needed. Southpaw's Weighted Blanket is manufactured with safe, non-toxic steel shot sandwiched between two outside layers in a proprietary laminating process. This allows the entire blanket surface to be weighted — not just individual sections. This exclusive design allows the therapist to choose the amount of weight needed (by adding additional blankets) AND to position the weight exactly where it is needed. Both sides of our blanket are made of a softly textured fabric, to which Velcro® hook materials will adhere easily.

Dimensions: 58"L x 30"W; Weight: 5 lbs.

2275	**Deluxe Weighted 4-Blanket Set**	**$458.00**
2276	**Weighted Blanket**	**$127.00**
2278	**Weighted Blanket Slipcover**	**$139.00**

SMALL WEIGHTED BLANKETS

We're offering two weighted blankets for your smaller clients or those who need minimal input. They use the same non-lead weights, and our special laminating process that allows the entire blanket to be weighted.

Dimensions:
40"L x 30"W (Small); 50"L x 40"W (Medium)
Weight: 3 lbs. (Small); 4 lbs. (Medium)

142275	**Small Weighted Blanket**	**$99.00**
142276	**Medium Weighted Blanket**	**$113.00**

PLEASE NOTE: All Southpaw Weighted items are lead-free.

GIANT WEIGHTED 10 LB. BLANKET

Southpaw's popular 5 lb. weighted blanket is also available in a 10 lb. version (shown right) that is wider than the original and has double the weight. Ideal for more than one child or for an adult. Machine washable.

Dimensions: 58"L x 58"W; Weight: 10 lbs.

2277	**Giant Weighted 10 lb. Blanket**	**$219.00**
2279	**Giant Blanket Slipcover**	**$199.00**

HEAVYWEIGHT GIANT 20 LB. BLANKET

Made through the same process as our regular weighted blanket, this larger, heavier blanket (shown right) has the same uniform distribution of weight across its 58" x 58" area. It was designed primarily for adults with autism, but is perfect for children who crave deep pressure. Like our other weighted blankets, it is machine washable!

Dimensions: 58"L x 58"W; Weight: 20 lbs.

142277	**Heavyweight Giant 20 lb. Blanket**	**$299.00**
2279	**Heavyweight Giant Slipcover**	**$199.00**

CUDDLE BLANKET AND CUDDLE BLANKET COVER

The Cuddle Blanket is similar to our weighted blankets, but has a cutout that relieves weight from the head and neck area. Perfect for lying in a prone position and still allowing for weight around shoulders. Made with our proprietary laminating process, the safe, non-toxic steel shot is evenly distributed to provide proprioceptive input. Plush cover is sold separately.

Dimensions: 55"L x 42"W; Weight: 5 lbs.

2282	**Cuddle Blanket**	**$137.00**
2283	**Cuddle Blanket Cover**	**$127.00**

142277 HEAVYWEIGHT GIANT 20 LB. BLANKET

2282 CUDDLE BLANKET

2283 CUDDLE BLANKET COVER

DISPOSABLE BLANKET COVERS

Use these throw-away water-resistant covers to help keep your weighted blankets free of stains and looking like new. The covers are sold in sets of 10 and are available for our 3 lb. (40"L x 30"W), 4 lb. (50"L x 40"W) and 5 lb. (58"L x 30"W) blankets.

142297	**Disposable 3 lb. Blanket Cover (set of 10)**	**$189.00**
142298	**Disposable 4 lb. Blanket Cover (set of 10)**	**$220.00**
142293	**Disposable 5 lb. Blanket Cover (set of 10)**	**$235.00**

142297, 142298, 142293 DISPOSABLE BLANKET COVER

VINYL BLANKET COVER

The new vinyl blanket cover is water resistant and can be easily cleaned with disinfectant wipes in between uses.

The covers are available for our 3 lb. (40"L x 30"W), 4 lb. (50"L x 40"W), 5 lb. (58"L x 30"W) and 10/20 lb. (58"L x 58"W) blankets.

122275	**Vinyl 3 lb. Blanket Cover**	**$81.00**
122276	**Vinyl 4 lb. Blanket Cover**	**$87.00**
122278	**Vinyl 5 lb. Blanket Cover**	**$95.00**
122279	**Vinyl 10/20 lb. Blanket Cover**	**$178.00**

Weight & Resistance

WEIGHTED LADYBUG BLANKET

Our Weighted Ladybug Blanket can be used the same as our regular weighted blankets for calming or all-over sensory input. The inner liner is laminated with 12 evenly spaced weight pockets to provide an even distribution of weight. The Ladybug outer cover is made of durable fabric that is pleasant to the touch. The inner liner is intended for use inside of an outer cover, and may be surface washed.

Dimensions: 56″L x 40″W

440040	**8 lb. Weighted Ladybug Blanket**	**$360.00**
440041	**16 lb. Weighted Ladybug Blanket**	**$406.00**

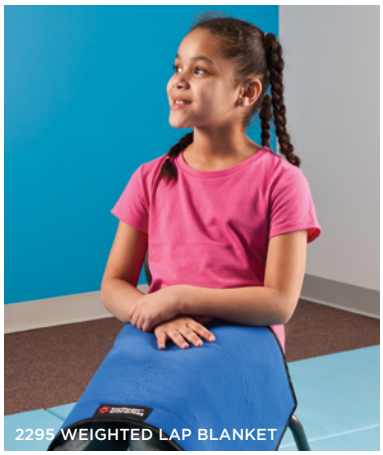

WEIGHTED PENGUIN BLANKET

Your child can obtain the calming input she seeks while snuggling up with a fun pal. Made with the same quality of materials that our other Weighted Blankets have, this blanket offers full-body input to help your child relax, calm or fall asleep.

Dimensions: 52″L x 30″W

440086	**5 lb. Weighted Penguin Blanket**	**$390.00**
440087	**10 lb. Weighted Penguin Blanket**	**$421.00**

PLEASE NOTE: All Southpaw Weighted items are lead-free.

2295 WEIGHTED LAP BLANKET

WEIGHTED LAP BLANKET

Just the right size. Our Weighted Lap Blanket offers an even amount of proprioceptive input to help your client attend and organize during sit down tasks. The deep pressure provided with the use of the Weighted Lap Blanket will assist your little wiggle worm with just the right input.

Dimensions: 25″W x 13″D; Weight: 3 lbs. each

2295	**Weighted Lap Blanket (Set of 3)**	**$165.00**

2296 WEIGHTED LAP PAD

WEIGHTED LAP PAD

Offer your client proprioceptive feedback while doing sit-down tasks. Great for children who have the wiggles. Choose the amount of weight to be used by using the capsule weights, which are .5 lb. each. The Weighted Lap Pad can hold up to 12 lbs. of weight and includes (24) .5 lb. weights. Soft and durable.

Dimensions: 25″L x 15″W

2296	**Weighted Lap Pad**	**$249.00**

WEIGHTED LAP BELT

The Weighted Lap Belt is a great way to provide a bit of proprioceptive input and deep pressure to assist the somewhat fidgety child during sitting activities. The Weighted Lap Belt is ideally used to gain regulation and calmness in order to improve attention and participation in tasks at home, school or during therapy activities. Additionally, the Belt is made of a soft fur that helps build tactile awareness. Designs and colors may vary.

Dimensions:
36″L x 6″W; Weight: 4 lbs.
44″L x 6″W; Weight: 6 lbs.

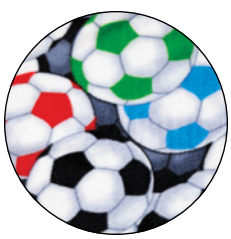

2274	**Cheetah Print Weighted Lap Belt (Set of 2)**	**$165.00**
2274A	**Animal Print Weighted Lap Belt (Set of 2)**	**$165.00**
2274B	**Ball Print Weighted Lap Belt (Set of 2)**	**$165.00**

2274B BALL PRINT

Weight & Resistance

SHIMMER LAP PAD COVER

Add some shimmer and shine to our already beneficial weighted lap blanket. This cover allows children to calm and organize by rubbing hands over the sequins, changing the color and design, while receiving weighted input from the blanket inside. The cover has a zipper closure, and the blanket is held in place with Velcro® to prevent sliding and bunching. Weighted lap blanket sold separately.

Dimensions: 28"L x 15.5"W

2298	**Shimmer Lap Pad Cover**	**$85.00**

PADJIT™

This 8 lb. weighted activity lap pad provides multiple sensory stimuli and accompanying comfort in a therapy device. A large, wipe-free dry-erase window ideal for electronic devices or notebooks is positioned in the middle, with smaller pockets on each side giving easy access to fidgets and tactile materials, keeping them easily accessible and making this ideal for the classroom or home setting. One side pocket has a clear outer layer, giving visibility to the contents. The Padjit™ comes with two detachable pieces of tactile material that can be placed inside the pockets for added sensory input.

Weight: 8 lbs.

2297	**Padjit™**	**$265.00**

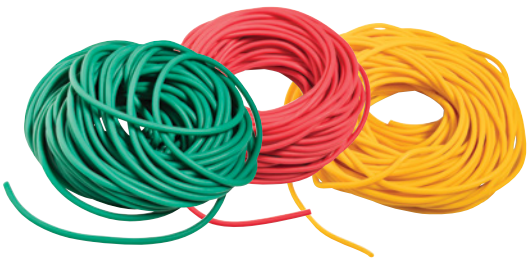

CANDO® NON-LATEX TUBING

For those who are allergic to latex, this is the perfect exercise tubing to help improve balance and functional ability injuries. Four progressive levels of resistance

Dimensions: 100'L

259051	Extra Light, Yellow Non-Latex Tubing	$49.95
259052	Light, Red Non-Latex Tubing	$42.95
259053	Medium, Green Non-Latex Tubing	$49.95
259054	Heavy, Blue Non-Latex Tubing	$55.95

CANDO® NON-LATEX BANDS

Developed for persons with allergies to latex, these latex-free bands provide the same benefits as regular bands to help improve balance and functional ability injuries. We offer four progressive levels of resistance to accommodate all your clients.

Dimensions: 150'L x 5"W

259021	Extra Thin, Yellow Non-Latex Bands	$73.95
259022	Thin, Red Non-Latex Bands	$79.95
259023	Medium, Green Non-Latex Bands	$86.95
259024	Heavy, Blue Non-Latex Bands	$92.95

STRETCH-EZE®

Individual nylon LYCRA® stretch band for resistance and stretch exercises increases overall body coordination while supporting you in pain-free exercise. There is no buildup of tension as you stretch one muscle group while stabilizing the opposing body part. Use this resistance stretch band to stretch and strengthen.

261037	Extra Small Stretch-eze®	$27.95
261033	Small Stretch-eze® (under 5'2")	$28.95
261034	Medium Stretch-eze® (5'2"–5'5")	$31.95
261035	Large Stretch-eze® (over 5'5"–5'9")	$33.95

CANDO WATE BALLS

The color coded weighted balls are small enough and flexible enough to grasp with one hand, yet big enough to hold with two hands. Available in 6 weights ranging from 1.1 pounds through 6.6 pounds (0.5 kg to 3 kg) while maintaining a constant 5" (12.7 cm) diameter. Balls are soft and comfortably conform to your grasp. Use a bicycle pump to inflate/deflate to make ball harder/easier to grasp.

259270	CanDo WaTe ball, tan 1.1 lbs	$12.00
259271	CanDo WaTe ball, yellow 2.2 lbs	$13.00
259272	CanDo WaTe ball, red 3.3 lbs	$15.00
259273	CanDo WaTe ball, green 4.4 lbs	$16.00
259274	CanDo WaTe ball, blue 5.5 lbs	$18.00

Weight & Resistance

BODY SOX®

Body Sox promotes body awareness and creative movement in clients of all ages. Spatial awareness and interaction are reinforced as clients move over, under, around, through, on, off, up, down, in and out, exploring the three-dimensional space they occupy.

Clients discover how to transform space while developing balance and coordination skills. Once inside, your client is free to explore his/her private domain, creating unique, art-like shapes. Because the material is see-through, your clients can see the shapes they create.

Each pillow case-like sack is constructed of four-way LYCRA® with a reinforced hook-and-loop closure. Available in 4 sizes. Colors may vary.

Dimensions: Small: 27"W x 40"H; Medium: 27"W x 47"H; Large: 28"W x 56"H; Extra Large: 28"W x 66"H

2207	Small Body Sox®	$40.00
2208	Medium Body Sox®	$45.00
2209	Large Body Sox®	$50.00
2210	Extra Large Body Sox®	$55.00

THERAPUTTY™

Theraputty can be used for a variety of finger, hand and wrist resistive exercises. It can also be used to facilitate grasp patterns with pediatric clients. Pleasant to the touch, this silicone putty will not dry out. It is non-toxic, unscented, non-oily and latex-free.

The six different resistance strengths are represented by six colors, ranging from tan for the softest to black for the most resistant. We offer 1 lb. containers and personal 2 oz. containers.

259078	2 oz. XX Soft, Tan Theraputty™	$3.50
259079	2 oz. X Soft, Yellow Theraputty™	$3.50
259080	2 oz. Soft, Red Theraputty™	$3.50
259081	2 oz. Medium, Green Theraputty™	$3.50
259082	2 oz. Firm, Blue Theraputty™	$3.50
259083	2 oz. X Firm, Black Theraputty™	$3.50
259095	2 oz. container (Set of 6)	$18.90
259084	1 lb. XX Soft, Tan Theraputty™	$21.95
259085	1 lb. X Soft, Yellow Theraputty™	$21.95
259086	1 lb. Soft, Red Theraputty™	$21.95
259087	1 lb. Medium, Green Theraputty™	$21.95
259088	1 lb. Firm, Blue Theraputty™	$21.95
259089	1 lb. X Firm, Black Theraputty™	$21.95

3970 15′L RESISTANCE TUNNEL

RESISTANCE TUNNEL

Challenge your clients with heavy work while developing body awareness and motor planning using Southpaw's Resistance Tunnel. As your client pushes a therapy ball or other large objects through the tunnel, he/she will experience varying degrees of resistance as well as tactile and deep touch input. The sections are made from a ribbed knit cotton, LYCRA® spandex and nylon jersey. Three convenient reinforced handles are attached for you to hold and pull while your client pushes through the tunnel. Colors may vary.

Dimensions: 15′L; 10′L

3970	**15′L Resistance Tunnel**	**$247.00**
3972	**10′L Resistance Tunnel**	**$157.00**

RESISTANCE TUNNEL WITH THERAPY BALL

We have updated our tunnel with a slightly larger opening to have clients push a ball through it to increase proprioceptive input and motor planning skills. With a 22″ Therapy Ball, this makes the perfect therapeutic activity!

Dimensions: 20″dia. x 15′L

453975	**Resistance Tunnel with Therapy Ball**	**$275.00**

STEAMROLLERS

The Original Steamroller. Exclusively from Southpaw!

STEAMROLLER DELUXE

Some children crave deep pressure, and the Southpaw Steamroller is a fun way to get it! Your children will love the challenge of crawling between the rollers and being flattened by the Steamroller.

Allow children to hang out in the Steamroller to complete an activity while prone, or use in preparation for those tasks that require more attention. This piece of equipment offers more than just deep pressure. It allows children to work on motor planning skills, body awareness and shoulder stability as they work their bodies out of the device. It's a great addition to all of your therapeutic activities.

The Steamroller can accommodate a small child up to an average-sized adult. The pressure may be increased or decreased by adjusting the tension bands. Comes with (2) sets of bands so you can increase the pressure. Colors may vary.

Dimensions: 33.5"L x 29"W x 16"H; Roller: 7"dia. x 22.5"W
Working Load: 300 lbs.

150040	**Steamroller Deluxe**	**$699.00**
150041-04	**Replacement Bands (Set of 4)**	**$17.00**
150041-10	**Replacement Bands (Set of 10)**	**$40.00**

ADVANTAGE LINE™ STEAMROLLER

An alternative steamroller for younger children is our Advantage Line model, which has one set of rollers to crawl through, but is just as effective for deep pressure input. Colors may vary.

Dimensions: 25"L x 29"W x 16"H; Roller: 7"dia. x 22.5"W
Working Load: 200 lbs.

150030	**Advantage Line™ Steamroller**	**$469.00**

PLEASE NOTE: Adult Supervision is recommended.

150040 STEAMROLLER DELUXE

Weight & Resistance

BEAR HUG

Give your clients the sensation of a big bear hug with Southpaw's deep-pressure vest. The Bear Hug vest can be used to develop proprioceptive integration and for calming activities to help the oversensitive child decrease hyper-responsiveness.

The Bear Hug fits snugly next to the body and does not shift as the child moves, which makes it comfortable to be worn under clothing if desired. The adjustable straps and body wrap allow the therapist to adjust the amount of pressure as desired. Each vest is made out of comfortable neoprene with loop-compatible outer skin. The body wrap and straps utilize strong hook-and-loop closures.

The Bear Hug consists of (1) adjustable body wrap and two adjustable shoulder straps and comes in four sizes. Cold water washable.

Dimensions:
Small: 8" x 26" Torso Wrap; 20" Shoulder Straps
Medium: 8" x 34" Torso Wrap; 20" Shoulder Straps
Large: 10" x 40" Torso Wrap; 24" Shoulder Straps
Extra Large: 12" x 48" Torso Wrap; 24" Shoulder Straps

2284	**Small Bear Hug**	**$80.00**
2285	**Medium Bear Hug**	**$85.00**
2286	**Large Bear Hug**	**$105.00**
2287	**Extra Large Bear Hug**	**$115.00**

BEAR HUG WEIGHTED WRAP

Add weight to your Bear Hug and give proprioceptive input with deep pressure to help increase arousal level and attention.

The weighted wrap is baffled into sections, which hold capsule weights of .5 lb. each. You control the amount of weight for each child depending on the number of capsules used. Easily attaches to the Bear Hug with hook-and-loop fabric. Weighted Wrap does NOT include the Bear Hug.

2288	**Small with (16) .5 lb. Weights**	**$160.00**
2289	**Large/Extra Large with (24) .5 lb. Weights**	**$210.00**

WEIGHTED VESTS

The Southpaw Weighted Vest continues to be an extremely popular therapy tool, and it is arguably the most durably constructed, therapy-specific vest of its kind, providing proprioceptive feedback and stability.

These vests have hook-and-loop closures on the sides for adjustability and safety in the event that they must be quickly removed. Additionally, each vest is cut to maximize ventilation for the client, and the weight pockets are sewn to prevent the weights from pressing on the spine. Available in navy only.

142256N	**Extra Small Weighted Vest**	**$292.00**
142257N	**Small Weighted Vest**	**$292.00**
142258N	**Medium Weighted Vest**	**$305.00**
142259N	**Large Weighted Vest**	**$312.00**
142260N	**Extra Large Weighted Vest**	**$325.00**

WEIGHTED VESTS MEASUREMENT CHART

For best fit, measure largest circumference of child's torso (the chest or tummy).

Size	Circumference	Length	Weights (4 each)
XS	22″–26″	14″	.5 lb. .75 lb. 1 lb.
S	26″–29″	15″	.5 lb. .75 lb. 1 lb.
M	29″–32″	17″	.5 lb. 1 lb. 1.5 lbs.
L	32″–35″	18″	.5 lb. 1 lb. 1.5 lbs.
XL	38″–42″	18″	.5 lb. 1 lb. 1.5 lbs.

ADDITIONAL WEIGHTS (SETS OF 4):

2153	**.5 lb. Weights**	**$49.00**
2154	**.75 lb. Weights**	**$49.00**
2155	**1 lb. Weights**	**$51.00**
2156	**1.5 lbs. Weights**	**$53.00**

WEIGHTED COMPRESSION VEST

This vest combines the benefits of a Weighted Vest and Bear Hug Compression Vest. Designed to provide proprioceptive input throughout to help calm and organize children. Along with the weight, the adjustable, heavy-duty Velcro® lets you add just the right amount of compression. This vest is ideal for those kids needing the right input to maintain focus at school and keep calm at home and is a great addition to your sensory equipment collection.

142220	**Small/Medium Weighted Compression Vest (3 lbs.)**	**$134.00**
142221	**Large/XLarge Weighted Compression Vest (6 lbs.)**	**$154.00**

WEIGHTED COMPRESSION VEST MEASUREMENT CHART

For best fit, measure largest circumference of child's torso (the chest or tummy).

Size	Torso	Length
Small/Medium	Up to 28″	14.5″
Large/XLarge	Up to 36″	19″

Weight & Resistance

WEIGHTED SHOPPING CARTS

This Weighted Shopping Cart is useful for heavy work activities for children with sensory processing difficulties. These activities involve whole-body actions such as pushing, pulling and lifting. Fill the cavity in the base with .5 lb. weights (sold separately) for proprioceptive input, and let them go. The cart also offers support for young children who have impaired balance responses.

Dimensions: 27"L x 18"W x 30"H

156605	**Weighted Shopping Cart**	**$375.00**
140038	**Set of (10) .5 lb. Weights**	**$99.00**

Junior Dimensions: 15.25"L x 13.5"W x 21.5"H x 8"D
Height to Handle: 25.25"H; Length including Handle: 18"L

156606	**Junior Weighted Shopping Cart**	**$340.00**

156605 WEIGHTED SHOPPING CART

WEIGHTED SEEK & FIND

Not only does this item provide deep pressure to the lap area to help calm and organize, it also allows clients of various physical abilities to enjoy a great game of Seek & Find. The weighted version is also a great way to pull in bilateral strengthening during the shake-up. A definite must-have that is ideal for itinerant therapists!

Weight: 6 lbs.

140100	**Weighted Seek & Find**	**$225.00**

WARNING: Choking Hazard. Small parts not for children under three years.

156606 JUNIOR WEIGHTED SHOPPING CART

140038 .5 LB. WEIGHTS
(SET OF 10)

WEIGHTED WHEELBARROWS

Using creative play, increase the challenge to your therapeutic activities with our Weighted Wheelbarrows (weights sold separately). Just like our Weighted Shopping Carts, the Weighted Wheelbarrows are a great way to provide heavy work and address bilateral skills and motor planning. The Weighted Wheelbarrows can be ordered with a single front wheel, ideal for addressing balance and coordination skills, or two front wheels, providing more stability and support.

Dimensions:
48″L x 15.5″W x 21″H (1-Wheel)
44″L x 21″W x 21″H (2-Wheel)

156620	**1-Wheel Weighted Wheelbarrow**	**$475.00**
156625	**2-Wheel Weighted Wheelbarrow**	**$545.00**
140038	**(Set of 10) .5 lb. Weights**	**$99.00**

Weight & Resistance

WASHABLE & WEIGHTED TEDDY BEAR

Made of brown berber, our Teddy offers the weighted input that is beneficial for calming and organizing a child. Introduce your child to this cute and cuddly friend, while producing just the right input for self-regulation. It makes a great lap pad.

Dimensions: 14"H; Weight: 5 lbs.

241151	**Washable & Weighted Teddy Bear**	**$59.00**

WEIGHTED WASHABLE BODY SHAWL

This version of the popular quilted, weighted body shawl will provide the same comfort and feel with the added feature: it's now washable. Recommended hand wash and line dry.

Weight: 5 lbs.

241150	**Weighted Washable Body Shawl**	**$64.00**

WARNING: Stop! Item not microwaveable for warmth.

WEIGHTED BODY SHAWL

Improve your calming abilities by adding heat to your weighted input. This quilted microwaveable body shawl feels like a warm hug when used for therapy on your full back, abdomen or across the shoulders. You can even use it to warm a therapy treatment table! Made from a light blue soft Berber fleece with a jungle print on the reverse.

Dimensions: 28"L x 19"W; Weight: 5 lbs.

240050	**Unscented Weighted Body Shawl**	**$44.00**

WEIGHTED WASHABLE BODY BLANKET

Our weighted blanket is made of soft plush fleece and cotton flannel. It offers calming sensory input. The blanket is filled with non-toxic Poly Pellets®.

Dimensions: 40″L x 30″W; Weight: 5 lbs.

241152	**Weighted Washable Body Blanket**	**$68.00**

WARNING: Stop! Item not microwaveable for warmth.

FLANNEL WEIGHTED BODY SHAWL

This quilted, microwaveable body shawl sports a flannel material with a more mature pattern for adolescents. Yet, it still feels like a warm hug when used for therapy on your back, abdomen or across the shoulders. You can even use it to warm a therapy treatment table! Made from a navy blue flannel and red plaid flannel. Unscented.

Dimensions: 28″L x 19″W; Weight: 5 lbs.

240055	**Flannel Weighted Body Shawl**	**$44.00**

WARM ME TURTLE

Using a warming agent in therapy is beneficial for calming and relaxing the over-stimulated client. The fluffy top is a soft pillow that can act as a soothing heat pack when warmed in the microwave. You can also place Warm Me Turtle in the freezer for an effective cold pack. Unscented.

Dimensions: 12″L x 9″W

240005	**Warm Me Turtle**	**$26.50**

Weight & Resistance

UPPER BACK AND SHOULDER WRAP

The Upper Back and Shoulder Wrap provides calming sensory input. It is microwaveable so that you can add heat to your weighted therapy and stays warmer longer due to the new design. The wrap can be used as a weighted lap pad too. Colors and patterns may vary.

Weight: 5 lbs.

240007	**Upper Back and Shoulder Wrap**	**$44.00**

BODY SNUGGLE

Similar to our Bear Hugs, the Body Snuggle will offer your client the extra proprioceptive input needed to calm, focus and attend. Made of LYCRA® material and with adjustable straps at the shoulders and groin, this suit provides input that is balanced and dispersed throughout the body.

142100	**Small Body Snuggle**	**$179.00**
142101	**Medium Body Snuggle**	**$195.00**
142102	**Large Body Snuggle**	**$199.00**

BODY SNUGGLE MEASUREMENT CHART

For best fit, measure largest circumference of child's torso (the chest or tummy) and length from chest to groin.

Size	Chest Circumference	Chest to Groin
S	24"–26"	12"
M	28"–30"	13"
L	34"–36"	15"

WEIGHTED ANIMAL WRAPS

Our Weighted Animal Wraps can provide hours of therapy and snuggle time for your clients. Each animal is made from soft plush or fleece, and some have colorful prints on the reverse side. This makes them great for younger clients who may be tactile defensive. The animals may all be placed in the microwave or the freezer, offering varying levels of therapy. Each animal is available in either an unscented or an aromatherapy version.

Dimensions:
21"L x 4"W (Kitty Cuddles, Puppy Hugs);
23"L x 8"W (Dolphin Wrap)
Weight: 2.2 lbs. (Kitty Cuddles, Puppy Hugs);
2.7 lbs. (Dolphin Wrap)

240030	**Unscented Dolphin Wrap**	**$33.95**
240040	**Aromatherapy Dolphin Wrap**	**$33.95**
240010	**Unscented Kitty Cuddles**	**$33.95**
240020	**Aromatherapy Kitty Cuddles**	**$33.95**
240015	**Unscented Puppy Hugs**	**$33.95**
240025	**Aromatherapy Puppy Hugs**	**$33.95**

PUPPY HUGS

DOLPHIN WRAP

KITTY CUDDLES

BOWIE THE WEIGHTED BOA

Children will love their friend Bowie, as he brings sparkle and shine to this weighted accessory. Kids will feel calm with the proprioceptive input from Bowie while keeping their hands busy fidgeting to change his sequined body. Bowie is ready to be your child's new best friend at home, school or on the go.

Weight: 5 lbs.

2240	**Bowie the Weighted Boa**	**$152.00**

Weight & Resistance

240073	Medium Sensory Belt, 4 lb. for teens & adults weighing 75-125 lb.	$69.95
240075	X-Large Sensory Belt, 6 lb. for teens & adults weighing 175 lbs+	$89.95

ALL PRO® PEDIATRIC ANKLE WEIGHTS

These fully adjustable, padded All Pro Ankle Weights were designed for comfort and full freedom of movement. Each ankle weight can be adjusted, using non-toxic 2.7 oz. iron rods, up to a maximum of 12 rods per ankle weight (2 lbs.). The weights slip securely into a fabric sleeve made of a durable nylon fabric.

2261	All Pro® Pediatric Ankle Weights (Set of 2)	$32.00

ALL PRO® PEDIATRIC WRIST WEIGHTS

Designed especially for children, these All Pro Wrist Weights are fully adjustable and padded for comfort. The weights slip securely into a fabric sleeve made of a durable nylon fabric.

241001	All Pro® Pediatric Weights (Set of 2)	$32.95

Clinic Supplies & Equipment

CUBBIES

Our Cubbies are perfect for organizing your clinic or classroom. The Corner Cubby fits snuggly next to the Cubby to help maximize your storage area. Conveniently sized for versatile storage. Storage bins not included.

Dimensions:
41"W x 18"H x 18"D (Shoe Cubby)
54"W x 40"H x 18"D (Cubby)
18"W x 37"H x 18"D (Corner Cubby)

853000	**Shoe Cubby**	**$430.00**
853010	**Cubby**	**$700.00**
853020	**Corner Cubby**	**$350.00**

All items on these two pages ship Motor Freight.

MOBILE CHANGING TABLE

Our table will help eliminate the back strain and pain that accompanies lifting and transferring clients. The table is powered by an electric motor that lowers the frame to 18″H from the floor, enabling the client to self-transfer or use minimal assistance. The safety rails are then locked in the upright position and the frame is then raised to a maximum 37″H. This allows the caregiver to attend to the client while in an upright position. Safety rails are padded on the inside for the client's comfort. All four casters lock. Upholstery is dove grey and frame is granite colored steel. A hook-and-loop safety strap is also included.

Dimensions: 60″L x 27″W x 18–37″H (Children's); 72″L x 27″W x 18–37″H (Adult's)
Working Load: 400 lbs.

555510	**Children's Changing Table**	**$3,353.00**
555511	**Adult's Changing Table**	**$3,415.00**

XL CHANGING TABLES

In response to requests from our customers, we are now offering two mobile changing tables that will hold clients who weigh up to 500 lbs. The two models are 72″L x 34″W and 72″L x 40″W. These tables have slightly larger motors with 500 lbs. lifting capacity, and the frame moves toward the foot as it lifts up. The height range is the same as the original models, and we have added casters that have greater weight capacity.

Dimensions: 72″L x 34″W (XL); 72″L x 40″W (XXL)

555512	**XL Changing Table**	**$3,600.00**
555513	**XXL Changing Table**	**$3,675.00**

PLEASE NOTE: Delivery time for all items on this page will be 21 working days

ECONOMY MATS

Our economy mats have a 1.5"D (thick) closed-cell laminated polyethylene foam core, making them perfectly priced for general therapy activities and floor use. Offered with hook-and-loop attachment on two short ends or all four sides.

Hook-and-Loop 2 short ends		
556500	4′ x 6′ Economy Mats	$241.00
556501	4′ x 8′ Economy Mats	$314.00
556502	5′ x 10′ Economy Mats	$473.00
556503	6′ x 12′ Economy Mats	$655.00

Hook-and-Loop 4 sides		
556510	4′ x 6′ Economy Mats	$280.00
556511	4′ x 8′ Economy Mats	$347.00
556512	5′ x 10′ Economy Mats	$516.00
556513	6′ x 12′ Economy Mats	$724.00

All of our mats and wall padding in the catalog meet the requirements for lead and phthalates as defined by the Consumer Product Safety Improvement Act (H.R. 404).

- Vinyl also meets FR specifications of NFPA-701, CSFM and ASTM E 84.
- All mats are covered in high-impact nylon-coated vinyl that has been treated with anti-mildew and UV-resistant agents.
- All mats accordion-style fold every two feet for quick setup and easy storage.
- All mats with hook-and-loop on two ends are quick ship in Royal Blue.
- Mats normally ship within 4–5 weeks.

Larger mats on this page ship Motor Freight.

Clinic Supplies & Equipment

TUMBLING MATS

Our tumbling mats are filled with 1.375"D (thick) cross-linked polyethylene foam providing firm protection and shock absorption for any high-impact program. This mat is ideal for high-impact use because of the high resiliency and composition of the foam. Offered with hook-and-loop attachment on two short ends or all four sides.

Hook-and-Loop 2 short ends		
556520	4′ x 6′ Tumbling Mats	$254.00
556521	4′ x 8′ Tumbling Mats	$332.00
556522	5′ x 10′ Tumbling Mats	$502.00
556523	6′ x 12′ Tumbling Mats	$699.00

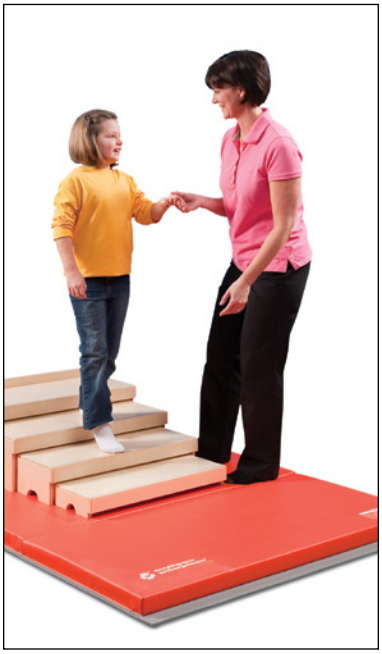

Hook-and-Loop 4 sides		
556530	4′ x 6′ Tumbling Mats	$296.00
556531	4′ x 8′ Tumbling Mats	$366.00
556532	5′ x 10′ Tumbling Mats	$574.00
556533	6′ x 12′ Tumbling Mats	$752.00

CUSHIONING MATS

These cushioning mats have a 2"D (thick) closed-cell laminated polyethylene foam core, providing a bit softer, more cushioning surface for larger clients and students. They are intended for general floor use. Offered with hook-and-loop attachment on two short ends or all four sides.

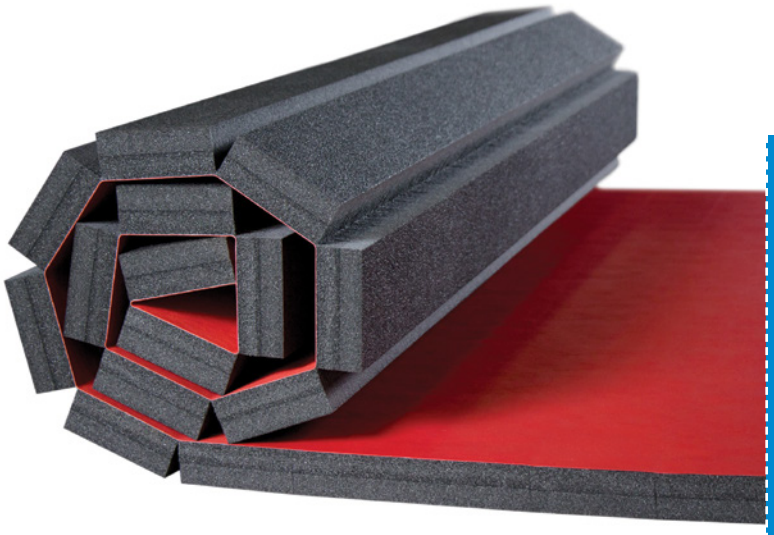

Hook-and-Loop 2 short ends		
556540	4′ x 6′ Cushioning Mats	$254.00
556541	4′ x 8′ Cushioning Mats	$330.00
556542	5′ x 10′ Cushioning Mats	$498.00
556543	6′ x 12′ Cushioning Mats	$691.00

Hook-and-Loop 4 sides		
556550	4′ x 6′ Cushioning Mats	$293.00
556551	4′ x 8′ Cushioning Mats	$365.00
556552	5′ x 10′ Cushioning Mats	$567.00
556553	6′ x 12′ Cushioning Mats	$735.00

Larger mats on these two pages ship Motor Freight.

EZ FLEX MATS

In a constantly changing world, therapy spaces tend to change as quickly as those who use them. EZ Flex Mats are much lighter than traditional folding mats and can be quickly moved when needed but are durable enough to withstand everyday use. They can be rolled up for storage and are easily portable if you need to adjust your therapy space.

EZ Flex Mats can be made to any size and may also be cut for full wall-to-wall coverage. The mats are offered in 1.25″, 1.625″, and 2″ thick cross-linked polyethylene foam covered in smooth vinyl with built-in antimicrobial protection and no fraying edges. Seams between mats are sealed with matching colored tape.

EZ Flex Mats have no folds on top, eliminating infection control hazards found in classic folding mats. Angled transitions further reduce the risk of tripping while moving on and off the mats.

Available in the following colors: Black, Gray, Red, Royal Blue and Green.

PLEASE NOTE: All mats are custom ordered. Please call 800.228.1698 for a quote.

DUAL LAYER MATS

The dual layer mats consist of a layer of 1.375″ cross-linked polyethylene laminated to 1″ polyurethane. Perfect for tots and first-time tumblers, this foam combination provides a soft initial introduction while preventing bottoming out to the floor. Offered with hook-and-loop attachment on two short ends or all four sides.

Hook-and-Loop 2 short ends		
556560	4′ x 6′ Dual Layer Mats	$332.00
556561	4′ x 8′ Dual Layer Mats	$395.00
556562	5′ x 10′ Dual Layer Mats	$613.00
556563	6′ x 12′ Dual Layer Mats	$850.00

Hook-and-Loop 4 sides		
556570	4′ x 6′ Dual Layer Mats	$355.00

Clinic Supplies & Equipment

SOFT SHELL HELMET

Our lightest helmet averages 8 oz. and is fully ventilated. Constructed from .5"D (thick) shock-absorbing foam that retains compression resistance. The helmet can be hand washed with warm soapy water. It is vinyl coated with Fabricoat to ensure there is no bacteria buildup. Available in seven sizes: Extra Extra Small, Extra Small, Small, Medium, Large, Extra Large and Extra Extra Large; and three colors: tan, royal blue and pink. Please use chart below for measuring.

557801	**Soft Shell Helmet**	**$140.00**
557802	**Soft Shell Helmet with Chin Guard**	**$190.00**

FULL COVERAGE HELMET

This helmet is designed to cover the temporal/cheek area, and to provide additional protection around the ears and nape of the neck. Available in seven sizes: Extra Extra Small, Extra Small, Small, Medium, Large, Extra Large and Extra Extra Large; and three colors: tan, royal blue and pink.

557803	**Full Coverage Helmet**	**$180.00**

HARD SHELL HELMET WITH FACE GUARD

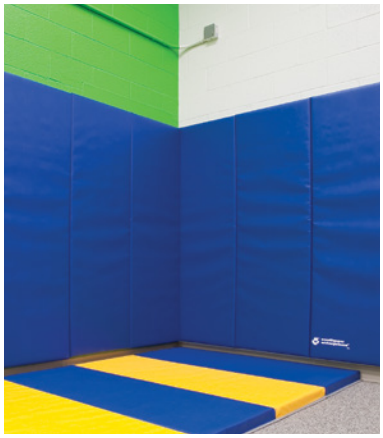

If full head coverage is necessary, this helmet offers the best combination of features. A strong polyethylene shell is riveted to the foam liner, and the face guard is attached to the shell. The clear polycarbonate face guard has an eye level opening (6"W x 1.5"H) for unobstructed vision, and a mouth opening (3.75"W x 1"H) for maximum ventilation. The bottom edge of each face guard is lined with foam. Available in six sizes: Extra Extra Small, Extra Small, Small, Medium, Large and Extra Large. Liner is available in three colors: tan, royal blue and pink.

557804	**Hard Shell Helmet with Face Guard**	**$285.00**

FIRE-RETARDANT WALL PADDING PANELS

Our commercial-grade wall padding panels offer protection for all your therapy clients and students at any facility. Choose your pad requirements, pad height, installation method and color. Southpaw has your wall padding needs covered!

Our 2" thick/firm, closed-cell polyethylene foam is environmentally friendly and meets the ASTM 2404-04 standard for Impact Attenuation. This foam contains 60-100% recycled pre-consumer raw material content. This wall padding will meet the needs of most programs.

Our 2" medium/firm, specially formulated foam pad is tested as a composite product to meet the stringent ASTM E 84 Fire Retardant standards. Choose this wall padding when strict standards apply.

Standard panels of both are 24" wide, feature heavy-duty 7/16" OSB plywood backing laminated to 2" thick foam. Our wall pads are covered in CPSC phthalate and lead-compliant, Class A vinyl. Installation instructions for Nailing Margin Install or Z-Clip Install are included with each shipment. Select panels with a 1"H Nailing Margin Top and Bottom for installation on concrete, concrete block and wood walls. Select the Z-Clip panels for mounting to any wall surface including drywall. Z-Clip orders include pre-cut Z-Clip with screws for your on-site panel prep and 6'L lengths for wall attachment. Use the color chart on page 85 to choose from our 16 CPSC-compliant vinyl colors, or create your own alternating color pattern.

Specifications: Meet ASTM 2404-04 Specifications

Clinic Supplies & Equipment

ADJUSTABLE WORKTABLE

This personal Adjustable Worktable adjusts from 23"H to 33"H in 1" increments, making it ideal for persons in wheelchairs, and for multi-user environments. Steel powder-coated legs have knob style column locks and (4) adjustable base levers. The worktable has a maple laminate top with a vinyl edge. Optional casters are available below. Table comes flat-packed for economical shipping, and must be assembled.

Dimensions: 30"L x 36"W x 23"–33"H (adjustable)

556410	**Adjustable Worktable**	**$366.00**

ADJUSTABLE TILT WORKTABLE

The Adjustable Tilt Worktable offers the same height adjustability as our 556410 Adjustable Worktable, but the table surface can also be tilted from 0° to 50°, offering various positions for accessibility and rehab activities. The front edge has a .5"H lip to keep books or work material in place when the table is tilted. Optional casters are available. Table comes flat-packed for economical shipping, and must be assembled.

Dimensions: 30"L x 36"W x 23"–33"H (adjustable)

556411	**Adjustable Tilt Worktable**	**$435.00**

556410 ADJUSTABLE WORKTABLE

556411 ADJUSTABLE TILT WORKTABLE

556413 ADJUSTABLE DESK WITH STORAGE

ADJUSTABLE TILT DESK WITH STORAGE

The Adjustable Tilt Desk has all the features of the 556412 Adjustable Desk, but it also has the added feature of a worktop that can be adjusted from 0° to 50° tilt, for accessibility. The front edge has a .5"H lip to keep papers and books in place. Book storage is also included. Table comes flat-packed for economical shipping, and must be assembled.

Dimensions: 30"L x 36"W x 23"–33"H (adjustable)

556413	**Adjustable Tilt Desk with Storage**	**$436.00**

PLEASE NOTE: Adjustable Worktables and Desks normally ship within 4–5 weeks.

OPTIONAL CASTERS, SET OF 4

These non-mar casters may be used with our desks and worktables on these pages. They add 2"H to the height of the desks.

556414	**Optional Casters (Set of 4)**	**$2100**

CHAIR BACK ORGANIZER

Help students stay organized by keeping all their needed items close by and easy to find. Our desk chair cover offers a pocket that holds tablets, notebooks and writing utensils. This is a great solution to help those students who struggle with keeping themselves organized.

1580	**Chair Back Organizer**	**$45.00**

STANDING DESK CONVERSION KIT

Turn your classroom desk into a standing desk. The Conversion Kit combines the benefits of standing and fidgeting, allowing students to move and channel their energy while improving attention and focus. Simply take off your desk's old leg extensions, put on the new, and attach the FootFidget® Footrest. This Kit includes 4 custom leg extensions and one FootFidget® Footrest. To determine which Kit will fit your desk, remove a leg extension from your sitting desk and measure the diameter. It will be either 1" or .875". Determining the length of the new leg extension will depend on the height of the student.

256042	**Standing Desk Conversion Kit 19" Leg/1"**	**$79.00**
256043	**Standing Desk Conversion Kit 24" Leg/1"**	**$79.00**
256044	**Standing Desk Conversion Kit 24" Leg/.875"**	**$79.00**

STANDING DESK MEASURING GUIDE

1. Remove leg extension from current desk. Measure the diameter. Is it 7/8" or 1"?
2. Measure from the desktop to screw hole on stationary leg attached to desk. Match to Column A
3. Measure student standing from elbow to floor. This is student's correct desk height. Match to Column B or C.

COLUMN A Desktop to Screw hole	COLUMN B 19" extension desk height range	COLUMN C 24" extension desk height range
13"		29.5" to 35.5"
14"		30.5" to 36.5"
15"		31.5" to 37.5"
16"	27.5" to 33.5"	32.5" to 38.5"
17"	28.5" to 34.5"	33.5" to 39.5"
18"	29.5" to 35.5"	34.5" to 40.5"
19"	30.5" to 36.5"	35.5" to 41.5"

FOOTFIDGET® PORTABLE FOOTREST

This lightweight, portable design lets the students take the FootFidget Portable Footrest wherever they go and provides comfortable, ergonomically correct positioning.

256046	**FootFidget® Portable Footrest**	**$57.00**

FOOTFIDGET® FOOTREST

Use as a dynamic footrest that attaches to a standard classroom desk with minimal adjustments. By fidgeting or pressing against the flexible, heavy resistance of the FootFidget with their feet, students will realize proprioceptive input and energy-releasing, focus-attaining movement while leaving their hands free for classwork. The sturdy, nonslip design easily attaches to most school desks.

256045	**FootFidget® Footrest**	**$27.00**

Motor Planning & Balance

AIR MATS

Use your imagination to create a variety of activities that are therapeutic and enjoyable with Southpaw's Air Mats. Use the Air Mats for vestibular or proprioceptive stimulation, balance activities and motor tasks.

Available in three sizes, Southpaw's Air Mats are durable, and can be inflated and deflated with the Inflator/Deflator Pump shown on page 135.

Be sure to remove all sharp personal objects (belts, buckles, keys, etc.) that could puncture the mat. The Air Mats are good for working with postural adjustments, motor planning and sensory stimulation. All clients must be supervised and adequate padding provided during activities. Colors may vary.

Dimensions: 42"L x 42"W (Dolphin Deflated); 84"L x 72"W (Walrus Deflated); 84"L x 48"W (Seal Deflated)
Working Load: 100 lbs. (Dolphin); 150 lbs. (Walrus and Seal)

1324	**Dolphin Air Mat**	**$125.00**
1325	**Walrus Air Mat**	**$145.00**
1326	**Seal Air Mat**	**$135.00**

150010 SMALL ROCKER BOARD

150020 LARGE ROCKER BOARD

ROCKER BOARD

Southpaw's quality rocker boards are ideal for balance activities while standing, kneeling, sitting or lying prone. Balance boards are ideal for giving your clients just the right challenge. Designed with handholds to prevent pinched fingers, making these boards easy to use for all clients.

Dimensions: 28"L x 28"W x 7.5"H (Small); 28"L x 56"W x 7.5"H (Large)
Working Load: 150 lbs.

150010	**Small Rocker Board**	**$335.00**
150020	**Large Rocker Board**	**$397.00**

MINI ROCKER BOARD

Now you can complete balance and coordination activities anywhere! Our new Mini Rocker Board is great for the itinerant therapist. This compact rocker lets clients work on gross motor skills as well as balance and coordination. Non-skid coating has been attached to the top for increased grip.

Dimensions: 15"L x 13"W x 3.5"H
Working Load: 150 lbs.

150015	**Mini Rocker Board**	**$203.00**

DID YOU KNOW: Our new lacquer finish provides an antimicrobial barrier.

Motor Planning & Balance

HALF-ROUND BALANCE BEAM

The Half-Round Balance Beam helps you work on balance and motor planning activities, offering a wider base of support than most traditional wooden beams. It is a versatile piece of equipment featuring one side that is an arched walkway for mobility and balance exercises, and when flipped over can be used as a seat to improve core stability. Offered in two sizes, it is guaranteed to be a great addition to any obstacle course or therapeutic space.

Dimensions: 36"L x 16"W x 8"H (Short);
72"L x 16"W x 8"H (Long)

150160	**Short Half-Round Balance Beam**	**$259.00**
150161	**Long Half-Round Balance Beam**	**$377.00**

AIREX® BALANCE BEAM & PAD

The Airex Balance Beam and Pad have proven effective for rehabilitation and therapy. They are manufactured from closed-cell, ultra-soft specialty foam that gently compresses as you stand on it.

Exercises should be done barefoot. Both the balance beam and pad can be used indoors, outdoors or even in the water. They can be used in programs that work on the improvement of coordination, reaction, flexibility, balance and stamina.

Dimensions: 5'3"L x 9.4"W x 2.4"H (Airex Balance Beam); 19.7"L x 16"W x 2.4"H (Airex Balance Pad)

256048	**Airex® Balance Beam**	**$160.00**
256049	**Airex® Balance Pad**	**$76.00**

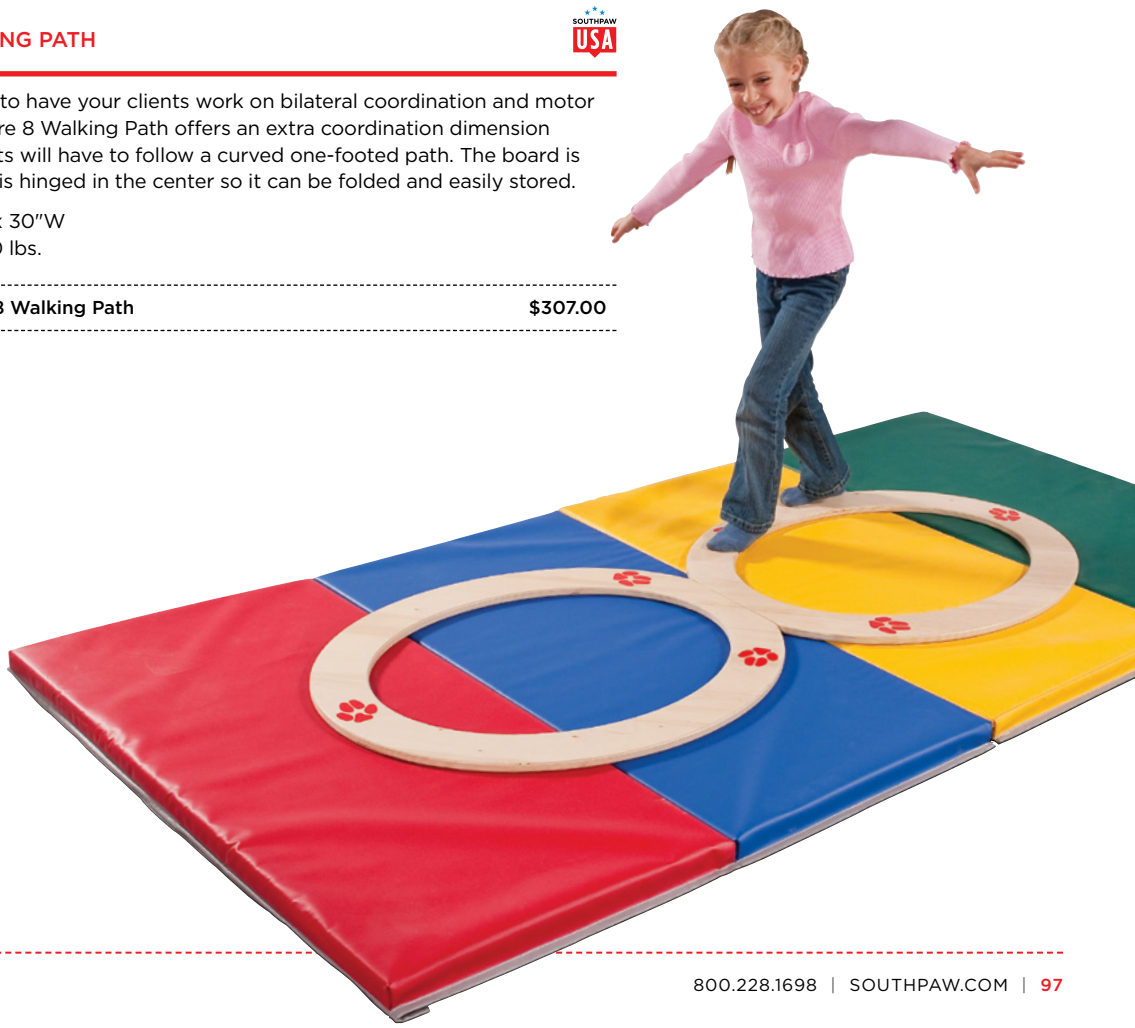

PLEASE NOTE: This product can be used to increase balance activities for ALL clients, old and young.

FIGURE 8 WALKING PATH

Here's a great way to have your clients work on bilateral coordination and motor skills. This flat Figure 8 Walking Path offers an extra coordination dimension because your clients will have to follow a curved one-footed path. The board is made of birch and is hinged in the center so it can be folded and easily stored.

Dimensions: 60"L x 30"W
Working Load: 200 lbs.

151115	**Figure 8 Walking Path**	**$307.00**

Motor Planning & Balance

RIVER BALANCE PATH

A brand new and unique element providing unlimited possibilities for building balance paths! The elements are easy to join, so only the imagination sets limits to the course of the river. Made from durable plastic with anti-slip rubber edges. The elements are stackable for easy storage and can be combined with the Island and the Bridge. Includes (6) pieces of river and (1) connector link.

Working Load: 220 lbs.

256075	**River Balance Path**	**$75.00**

256075 RIVER BALANCE PATH (2 SETS SHOWN IN CIRCLE)

TACTILE DISCS

Tactile Discs are made of an inviting material that challenges childrens' sense of touch on both hands and feet. Each of the five tactile designs can be found on a large floor disc, as well as on a small disc that the child can hold. The discs offer innumerable possibilities for game playing.

Dimensions: approx. 4.5"dia. (Small disc);
approx. 10.5"dia. (Large disc)

556012	**Tactile Discs**	**$95.00**

RIVERSTONES

Use Riverstones to develop better coordination and balance in an imaginative, fun environment. Judge the distance between the stones and step/jump from stone to stone without touching the floor. Each of the six stones has rubber studs on the base to prevent slipping and protect indoor floors.

Dimensions: 14"W x 3"H (Large stones); 10"W x 2"H (Small stones)
Working Load: 110 lbs. (each stone)

556010	**Riverstones (Set of 3 small and 3 large)**	**$67.00**

ROCKING ARCH

"Rock, rock, rock your boat..." This rocker will be a hit with all clients as they address balance, core muscle strengthening and coordination skills. It's great to use with a partner, or even alone with the help of an adult. Turn it over and it becomes a bridge to cross. The dowels are positioned properly to ensure safety for feet of all sizes. A great new double-duty product. Must be completely assembled.

Dimensions: 60"L x 31"W x 16"H; Working Load: 300 lbs.

150005	**Rocking Arch**	**$362.00**

CAUTION: Please make sure to comply with working load limits.

Motor Planning & Balance

BALANZA® FREERIDE

Ideal for people that want to train for power, coordination and balance. Each ball may be adjusted with a needle ball pump.

Dimensions: 39"L x 12"W x 6"H; Working Load: 440 lbs.

556062	**Balanza® Freeride**	**$228.00**

BALANZA® BALLSTEP TRAINER

4 air filled balls give more stability for people of every fitness level and age. Each ball may be adjusted with a needle pump.

Dimensions: 35"L x 17"W x 6"H (Regular); 71"L x 24"W x 6"H (XXL)
Working Load: 330 lbs. (Regular); 550 lbs. (XXL)

556060	**Balanza® BallStep Trainer, Regular**	**$265.00**
556061	**Balanza® BallStep Trainer, XXL**	**$685.00**

SENSO SKI TRAINER

Balance training for beginners. Low height for safer training, soft knob surface (on one side) for massage effect. Use both sides of the ski trainer for balance and conditioning.

Dimensions: 16"L x 16"W x 6"H; Working Load: 440 lbs.

556063	**Senso Ski Trainer**	**$300.00**

FOAM ROLLERS

These 6" foam rollers are perfect for working on balance and strengthening activities. Use the Half Roll as a rocker board by balancing on the flat side.

Dimensions: 6"dia.; Working Load: 200 lbs.

256064	**36" Foam Rollers Round Roll**	**$19.95**
256067	**36" Foam Rollers Half Roll**	**$11.50**

ROCKING BARREL

The Rocking Barrel offers a variety of uses in the therapeutic setting. Allow clients to work on proprioceptive input and motor planning skills by crawling through or pushing the barrel, and enjoy vestibular stimulation by rolling or rocking in it.

It is great to use as a target to enforce hand-eye coordination skills. Use it as a fun addition to any obstacle course. The Rocking Barrel can also be used for calming, by providing a small space to sit in. It is lined with polyurethane filler and covered in multi-colored vinyl panels. Phthalate and lead compliant.

Dimensions: 32″dia. x 38″L; Working Load: 250 lbs.

550090	**Rocking Barrel**	**$1,345.00**

PLEASE NOTE: Rocking Barrel normally ships within 4–5 weeks.

This item ships Motor Freight.

INFLATABLE BARREL KIT

The Southpaw Inflatable Barrel Kit is a convenient way to put inner tubes together to make a barrel! Southpaw started by choosing inner tubes that have a large inner diameter. This gives your clients plenty of space to lie down or sit inside the barrel. The special cover holds the inner tubes together firmly enough so that clients can sit or lie on top using the barrel like a huge roll. Southpaw's Inflatable Barrel Kit includes: Specially made valve stem covers to protect clients, (3) inner tubes, (1) barrel cover and (3) Southpaw Tube Wraps.

Dimensions: 40″OD; Working Load: 250 lbs.

1330	**Inflatable Barrel Kit**	**$597.00**

PLEASE NOTE: Must be assembled where use is planned.

Motor Planning & Balance

1050 KID-LITE BARREL

SOFT-LITE & KID-LITE BARRELS

Clients can crawl through the barrels to enhance spatial awareness; add movement and they also provide strong vestibular input. If a therapist or client is inside a barrel, it provides heavy work for another client to push the barrel. The sturdy foam enables a therapist to work with a client on top of the barrel for balance and positioning activities.

The Kid-Lite Barrel is lined with vinyl and foam and covered on the outside with soft carpet. Padded edges around the rim help prevent pinched fingers. Colors may vary.

Dimensions: 16″ID x 28″OD x 36″L (Soft-Lite);
21″dia. x 25″L (Kid-Lite)
Working Load: 225 lbs. (Soft-Lite); 250 lbs. (Kid-Lite)
Weight: 20 lbs.

1060	**Soft-Lite Barrel**	**$897.00**
1050	**Kid-Lite Barrel**	**$697.00**

WTX WIDE TRACK TRIKE

This trike does not use a chain drive system like other trikes. Instead the pedals connect directly to the front wheel, giving the rider complete control as the pedals turn all the time when the cycle is in motion. The extra-wide wheelbarrow-style wheels offer exceptional stability and traction.

Dimensions: 21″ to 32″ (Inseam); 48″ and up (User Height)
Weight Capacity: 300 lbs.

553005	**WTX Wide Track Trike**	**$360.00**

PLEASE NOTE: These bikes may take 8–10 weeks for delivery during busy season. Order early to avoid delays.

TRICYCLES

These trikes provide children with countless play opportunities. The trikes are superior quality with no sharp edges, strong oval tubing for maximum strength, weather-resistant rubber seat and handlebar grips, and impact-resistant powder coating that offers effective rust protection. We offer three sizes to fit the needs of all your children. Five-year warranty on frame and fork. Easy assembly.

Dimensions: 26.5″L x 17.75″W x 20″H (Small); 31″L x 20.5″W x 24.5″H (Medium); 34.25″L x 22.75″W x 27.25″H (Large)

553006	**Small Trike, Ages 2–4**	**$221.00**
553007	**Medium Trike, Ages 3–6**	**$240.00**
553008	**Large Trike, Ages 4–8**	**$258.00**

TRICART

This exciting alternative to the classic tricycle adjusts to fit children from 4 to 12. Unlock the seat, move it along the bar, and lock in place for the next rider. Great for a multi-user environment. Five-year warranty on frame.

Dimensions: 38.5″L x 22.75″W x 27.5″H

553011	**Tricart**	**$315.00**

SWINGCART

The Swingcart offers an unconventional way to develop a child's coordination skills. Children can turn the pedals, using their arms, making this an ideal vehicle for those who cannot pedal a regular trike. Strengthens arms and chest. Available in two sizes. Five-year warranty on frame.

Dimensions: 31″L x 29″W x 10.25″H (Small); 37.5″L x 29″W x 10.25″H (Large)

553009	**Small Swingcart, Ages 3–6**	**$276.00**
553010	**Large Swingcart, Ages 8–12**	**$295.00**

Motor Planning & Balance

SPORT ROLLER RACER™

Sport Roller Racer is a versatile, low-to-the-ground vehicle that moves without motors, batteries or pedaling. Simply swing the handlebars from side to side. The use of postural adjustments increases upper extremity and trunk strength.

Made with heavy-duty hardware, Sport Roller Racer is built to be ridden, over and over again. Made in the USA, comes completely assembled.

Working Load: 200 lbs.

1981	**Sport Roller Racer™**	**$119.00**

PLASMACAR

The PlasmaCar is built to last: It's made from state-of-the-art, high-quality ABS plastic, rugged and durable for kids on the go. It sports six wheels, a seat, footrests and a steering wheel. Kids will like its looks because it's vivid, sleek and aerodynamic, just like a race car. They'll love how fast they can get it to go.

To propel the PlasmaCar, you rotate the steering wheel continuously from left to right. It also works in reverse. To stop your PlasmaCar, just stop rotating the steering wheel and, when the car slows, put your feet on the ground to bring it to a full stop. For ages 3 and up.

Working Load: 220 lbs.

256035	**Red PlasmaCar**	**$69.95**
256036	**Blue PlasmaCar**	**$69.95**

1972 FUN FOAM SHAPES

MONSTER BLOCKS & SUPER BLOCKS

Southpaw's Monster Blocks and Super Blocks offer an endless variety of effective, enjoyable construction tasks. Blocks are made of soft foam covered with reinforced wipeable vinyl fabric and stack easily for quick pickups.

Dimensions:
18″L x 9″W x 12″H (Monster Blocks)
18″L x 11.5″W x 21″H Wedge (Fun Foam Shapes)
9″L x 9″W x 11.5″H Junior Blocks (Fun Foam Shapes)
36″L x 9″W x 12″H (Super Blocks)
Weight: 1.5 lbs. ea. (Monster Block); 5 lbs. ea. (Super Blocks)

1975	**Super Block, each**	**$123.00**
1976	**Super Block Set, (Set of 2 vinyl-covered foam blocks)**	**$220.00**
1970	**Monster Block Set, (Set of 6 vinyl-covered foam blocks)**	**$387.00**
1972	**Fun Foam Shapes (Set of 2 vinyl-covered foam Junior Blocks and 2 vinyl-covered foam Wedges)**	**$337.00**

1970 MONSTER BLOCKS

DID YOU KNOW: Monster Blocks and Super Blocks are now made with wipeable vinyl fabric in new colors for easy cleanup!

TODDLER SOFT SQUARES

Toddlers will find these primary-colored blocks irresistible! This set of (12) soft blocks is appropriately sized (5.5″ cubes) for little hands and perfect for helping your child develop essential motor skills.

Dimensions: 5.5″L x 5.5″W x 5.5″D

558020	**Toddler Soft Squares**	**$179.00**

Motor Planning & Balance

PLATFORM & DOUBLE STEPS

This versatile gait training and crawling system has (2) sets of steps. One side has the 4-in-1 Climbing Steps, while the second side has the 2-in-1 steps of different heights. Clients can walk up one set of stairs and down the other and learn how to adjust their tread. This may be used as a rehab activity after lower extremity injury as well as a good gross motor activity.

Dimensions:
Platform & 2-in-1 steps have same dimensions as item 150131
4-in-1 steps have same dimensions as item 150130
Working Load: 200 lbs.

150132	**Platform & Double Steps**	**$739.00**

This item ships Motor Freight.

DID YOU KNOW: Our new lacquer finish provides an antimicrobial barrier.

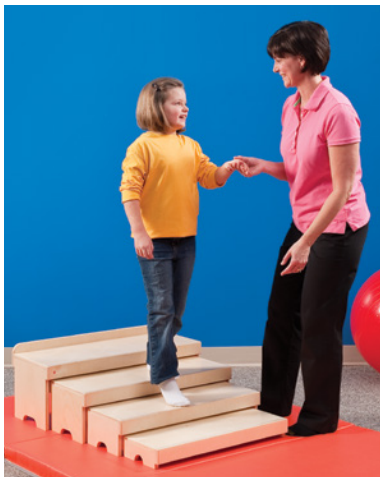

COMPOSITE CLIMBING WALL

The Composite Climbing Wall is made of material that is easy to clean and can be mounted outdoors. The climbing wall comes with (20) handholds that can be used to arrange various paths. The wall has (60) handhold mounts to provide plenty of options.

Dimensions: 48"W x 86"H x 24"D
Working Load: 175 lbs.

110030	**Composite Climbing Wall**	**$1,510.00**

This item ships Motor Freight.

4-IN-1 CLIMBING STEPS

These solid birch steps are wonderful for working with crawling infants or older children working on gait training. Each of the (3) smaller steps nests inside the next larger one. The lip on each step fits inside the step above, and allows you to pull out the bottom and have the others steps follow.

Dimensions:
24.25"W x 3"H x 8.5"D (Step 1)
26.25"W x 5.5"H x 9.5"D (Step 2)
28.25"W x 7.75"H x 10"D (Step 3)
30"W x 10.25"H x 10.75"D (Step 4)
Working Load: 200 lbs.

150130	**4-in-1 Climbing Steps**	**$417.00**

PLATFORM & 2-IN-1 CLIMBING STEPS

Our solid birch platform offers a large, secure turning area for your clients who are working on crawling or gait training using our 2-in-1 Climbing Steps. Interlocking steps can slide together and be moved under the platform when you need space for other activities.

Dimensions:
28"W x 4.5"H x 10"D (Step 1); 30"W x 9.25"H x 10.5"D (Step 2)
32"W x 13"H x 24.5"D (Platform)
Working Load: 200 lbs.

150131	**Platform & 2-in-1 Climbing Steps**	**$275.00**

This item ships Motor Freight.

STEP ROCKING BOAT

Two units in one! A great vestibular activity for two children. Turn it over and the rocking boat becomes a sturdy set of stairs to use for motor planning activities.

Dimensions: 47"L x 24"W x 12"H
Working Load: 100 lbs. for each side support

556030	**Step Rocking Boat**	**$336.00**

Motor Planning & Balance

Southpaw's exclusive Convertible Climbing System allows you to easily change the orientation of the wall from vertical to sloped. Each wall panel measures 57"W x 29"H and is made with the highest quality birch plywood. The 63 handhold mounts (with pre-installed T-nuts) give you thousands of handhold placement options.

Southpaw's sliding rails are pre-slotted, allowing easy anchoring to your existing walls. Each wood panel has pre-drilled and countersunk holes for easy mounting to the sliding-rail system without dangerous protruding bolt heads.

There are three different versions of the Convertible Climbing System corresponding to the type of wall you are using. The mounting hardware and installation methods are different for each wall type.

Also included with each unit are (20) handholds. You can arrange various paths according to skill level, allowing clients to choose the level of difficulty.

CONVERTIBLE CLIMBING SYSTEM

A climbing wall is an excellent tool for motor planning skills. Children must plan what their next step will be, where to place their feet, where to place their hands, and how much strength is needed.

Our climbing wall is made especially for lateral movements, which is also a great way to enhance the use of both hands simultaneously.

Southpaw's Climbing System is ideal for any OT, PT or Adapted P.E. program because it does not need to be used with a belay and harness system. Each Convertible Climbing Wall includes:

- (3) 57"W x 29"H panels, complete with pre-mounted handhold anchors
- Southpaw's unique sliding-rail system
- (20) handholds
- All necessary hardware for installation (hardware packages vary depending on the type of surface to which the Climbing System is mounted)

Dimensions:
57"W x 87"H (Convertible Climbing Wall finished size)
Working Load: 300 lbs.

110010	**Poured Concrete, Concrete Block or Brick Wall**	**$1,335.00**
110011	**Wood Stud Wall**	**$1,335.00**
110012	**Metal Stud Wall**	**$1,335.00**
110022	**Free Radical Handholds Stnd. (set of 20)**	**$165.00**

CAUTION: Matting the floors is required. We recommend at least 4" mats.

DID YOU KNOW: Placing an object, such as a favorite toy or a bucket filled with puzzle pieces, at the top of the wall is a great way to motivate your climbers!

1250 LADDER WALL

1255 SINGLE RUNG CLIMBING LADDER

1200 TOWER LADDER

CAUTION: The best safety precaution is choosing appropriate activities and closely supervising your client during each therapy session.

CLIMBING LADDERS

Our ladders and climbers are a great way for clients to work on bilateral coordination, motor planning, balance, gravitational insecurity and upper extremity strengthening.

Southpaw ladders are made with soft poly ropes supporting the 1.25"dia. hardwood rungs—just right for small hands. The Ladder Wall requires a two-point suspension system. Special ladder heights are available on request.

Dimensions:
18"W x 84"H (Single Rung Climbing Ladder)
17"W x 90"H (Tower Ladder)
48"W x 90"H (Ladder Wall)
Working Load: 250 lbs.

1255	**Single Rung Climbing Ladder, (2) Safety Snaps, (2) mat straps and (2) "quick clips"**	**$185.00**
1200	**Tower Ladder, Top Safety Snap, (2) mat straps and (4) "quick clips"**	**$421.00**
1250	**Ladder Wall, (2) Safety Snaps, (2) mat straps and (2) "quick clips"**	**$431.00**

Fun and Challenging. In-FUN-ity Climbing System.

SOUTHPAW'S IN-FUN-ITY™ CLIMBING SYSTEM

Southpaw's In-FUN-ity Climbing System can go into any clinic or classroom and is expandable to any size.

Climbing enhances body awareness, body scheme, motor planning and bilateral coordination. The child's body weight, combined with gravity, provides additional proprioceptive feedback to his joints, helping the child coordinate his movements while working toward increasingly complex motor planning events. Arm and leg coordination (bilateral coordination) is enhanced as he climbs up the ladder or rock wall and across the monkey bars, propels the scooter board or pulls himself up the scooter board ramp.

See the following four pages for information on the complete In-FUN-ity system.

To help you determine what In-FUN-ity Climbing System will fit your needs, call us at 800.228.1698 for a complimentary phone consultation!

Motor Planning & Balance

IN-FUN-ITY™ CLIMBING SYSTEM

1. **The In-FUN-ity Wall Ladder** (Figure 1) can be used alone or as the cornerstone of a larger, more challenging system. Climb up and down as part of an obstacle course, or swing toward the ladder and try to grab a rung.
   Dimensions: 31″W x 81.5″H x 5″D

2. **The In-FUN-ity Scooter Board Ramp** (Figure 2) consists of two parts — the platform and the ramp. It quickly folds in half, saving valuable space when not in use. The ramp can be used independently from the platform, and can be hooked directly to the Wall Ladder.
   Dimensions: 95″L x 21″W (Overall Scooter Board Ramp)
   57″L (Scooter Board Ramp)
   19″L (Scooter Board Ramp Platform)

3. **The In-FUN-ity Rope** (Figure 3) is a simple, highly effective and versatile tool that challenges clients with many bilateral activities. Each Rope has a built-in loop for easy attachment to the wood rung.
   Dimensions: .75″dia. x 12′L

4. **The In-FUN-ity Climbing Wall** (Figure 4) has 36 handhold locations and comes with 20 climbing holds. It can be hooked on any of the Wall Ladder rungs, allowing you to adjust the angle to adapt to any challenge level. Assembles in minutes.
   Dimensions: 27″W x 80″H

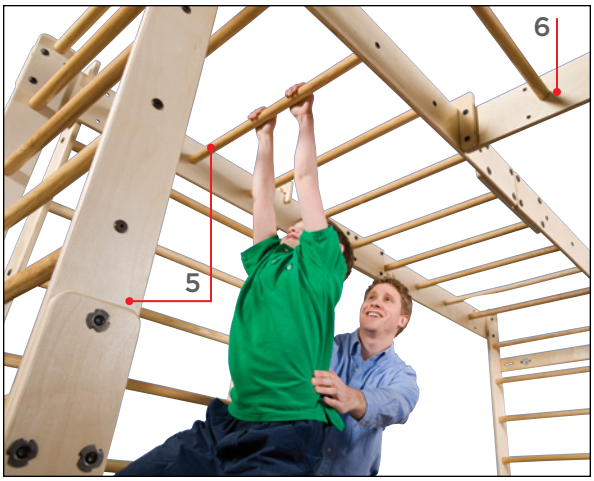

5. **The In-FUN-ity Expansion Kit** (Figure 5) consists of a 4′L overhead jungle gym and a freestanding ladder support end. The ladder support end is compatible with the Wall Ladder and can support both the In-FUN-ity Climbing Wall and ramp. Multiple In-FUN-ity Expansion Kits can be added at a 90-degree angle with the Expansion Kit Right Angle Connector (Figure 5A). Assembles in minutes.
   Dimensions: 50″L x 31″W x 81.5″H
   8″L x 4″W (Expansion Kit Right Angle Connector)

6. **The Jungle Gym Extender** (Figure 6) adds to an Expansion Kit to make the unit 8′L or add two to make the unit 12′L. This can double or triple the challenge for any child or adult, and can be added individually at any time.
   Dimensions: 50″L x 31″W

7. **The In-FUN-ity Crash Mat** (not shown) fits each overhead section and provides 6″ of thick polyurethane foam cushioning.
   Dimensions: 45″L x 30″W x 6″D

Working Load: 250 lbs.

PLEASE NOTE: The Jungle Gym Extender can only be added to an existing In-FUN-ity™ Expansion Kit. For safety and stability, we do not recommend extending the jungle gym past 12′ in length.

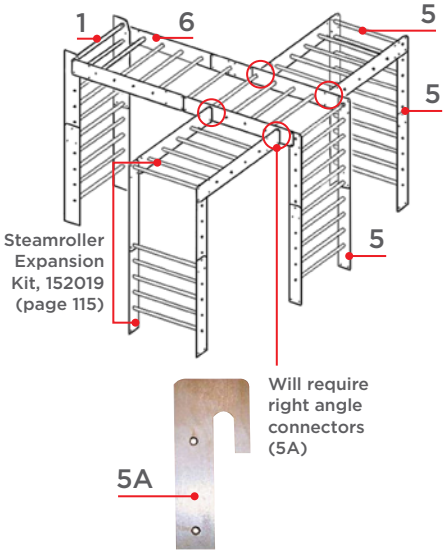

For additional information on some of the ways an In-FUN-ity™ System can be configured, call our customer service department at 800.228.1698, or email us at customerservice@southpaw.com

The In-FUN-ity Climbing System requires one Wall Ladder and must be mounted to a wall using the appropriate hardware kit for the type of wall it will be attached to. Typical In-FUN-ity installations start with one Wall Ladder and have multiple components that are connected.

152000	In-FUN-ity™ Wall Ladder Brick Wall Installation	$359.00
152001	In-FUN-ity™ Wall Ladder Metal Stud Wall Installation	$359.00
152002	In-FUN-ity™ Wall Ladder Wood Stud Wall Installation	$359.00

Add on:

152011	In-FUN-ity™ Scooter Board Ramp	$427.00
152012	In-FUN-ity™ Climbing Wall	$599.00
152013	In-FUN-ity™ Expansion Kit	$507.00
152014	In-FUN-ity™ Jungle Gym Extender	$257.00
152015	In-FUN-ity™ Expansion Kit Right Angle Connector	$59.00
152016	In-FUN-ity™ Rope	$39.00
152017	In-FUN-ity™ Hook On Ladder, Not Shown	$359.00
152025	In-FUN-ity™ Crash Mat	$575.00

Motor Planning & Balance

IN-FUN-ITY™ CLIMBING NET

The In-FUN-ity Climbing Net attaches easily to the Jungle Gym of the Expansion Kit or to the 48"L Jungle Gym Extender (152014). The 45"W x 72"H net is made of flat and tubular nylon webbing and has side release buckles. Your clients receive additional proprioceptive input and body strengthening because the net sways slightly as the children climb.

Dimensions: 45"W x 72"H
Working Load: 250 lbs.

120072	**In-FUN-ity™ Climbing Net**	**$291.00**

IN-FUN-ITY™ CUTOUT CLIMBING WALL

Our wall is designed for the child who is not fully comfortable using the standard rock on most climbing walls and has (21) cutouts where your clients can insert hands and feet. The hook-shaped top attaches easily to the In-FUN-ity Wall Ladder (items 152000, 152001, 152002) or the Expansion Kit Ladder (item 152013). Since it can attach to any rung, you can adjust it to fit the abilities of your least adventurous clients.

Dimensions: 80"L x 27"W
Working Load: 250 lbs.

152018	**In-FUN-ity™ Cutout Climbing Wall**	**$297.00**

IN-FUN-ITY™ EXPANSION KIT FOR STEAMROLLER RAMP

This is our standard Steamroller Ramp, shown on page 122, but here it can be attached to your In-FUN-ity system with the addition of the Steamroller Expansion Kit. This Expansion Kit Ladder has only five rungs, allowing an upper opening where the therapist can stand and supervise the action. Eliminating the higher rungs also eliminates the possibility of placing the steamroller too high for safety.

Dimensions: 50″L x 31″W x 81.5″H (Expansion Kit)
Working Load: 250 lbs. (Expansion Kit)
86″L x 30″W (Steamroller Ramp)
Working Load: 300 lbs. (Steamroller Ramp)

152019	**In-FUN-ity™ Expansion Kit for Steamroller Ramp**	**$447.00**
150045	**Steamroller Ramp**	**$997.00**

IN-FUN-ITY™ LADDER CLIMBING WALL

The adjustable Ladder Climbing Wall is another addition to our In-FUN-ity System that's sure to please your clients. The Ladder Climbing Wall hooks on to the In-FUN-ity Wall Ladder (sold separately on page 112) at any height you wish. This adjustability allows you to suit the angle to adapt to the challenge level of each of your clients. The Climbing Wall has 10 rungs.

Dimensions: 80″L x 27″W
Working Load: 300 lbs.

152020	**In-FUN-ity™ Ladder Climbing Wall**	**$249.00**

PLEASE NOTE: The In-FUN-ity Ladder Climbing Wall must be used with the In-FUN-ity Wall Ladder (sold separately on page 112)

Motor Planning & Balance

ACTIVITY TOWER

ACTIVITY TOWER BASE The Activity Tower Base consists of the basic frame that provides the foundation for your custom tower. Included are 4 uprights, 1 floor piece, and the hardware required to get your tower started.

ACTIVITY TOWER CARPET Add soft carpeting to the floor for added comfort. The carpet can be used either on the ground or second level.

ACTIVITY TOWER MAT Add a mat to your tower floors to provide extra cushion.

ACTIVITY TOWER DOOR PANEL The Door Panel can be used as an entryway into the Activity Tower, or add the Fiber Optic Tunnel (Item #303490, sold separately on page 195) for some added coordination fun for little ones.

ACTIVITY TOWER STEPS & LADDER PANEL Work on coordination and motor planning while little ones climb to the top. An extra top trim piece is included if you wish to keep the top open for easy access to the second level of the tower. A slide can also be attached for extra fun coming back down! Slide sold separately.

ACTIVITY TOWER BUBBLE PANEL Bubbles are fun anywhere, especially as part of this tower. Children can peer through to those around to share giggles and smiles.

ACTIVITY TOWER CLEAR MARBLE PANEL Almost everyone can find themselves addicted to the calming feel the marble panel offers. This panel features clear marbles.

ACTIVITY TOWER MULTI-COLORED MARBLE PANEL Offering the same calming effect as the Clear Marble Panel, but with colorful marbles instead.

ACTIVITY TOWER PLEXI WINDOW PANEL Not only does the window panel offer a way for the children to look out, but it can also be used as a writing surface.

ACTIVITY TOWER CHALK PANEL This chalkboard panel is an ideal way to address those writing skills with vertical input. This panel has a chalkboard on both sides of the panel for plenty of space to create art!

ACTIVITY TOWER DRY ERASE PANEL Like the Chalk Panel, the double-sided Dry Erase Panel provides a perfect spot to engage in rewarding writing and drawing exercises.

ACTIVITY TOWER SLIDE Offers a fun way to end a climb to the top while offering vestibular input sliding to the bottom.

The Southpaw Activity Tower offers a variety of configurations to make any therapeutic space beneficial for children of various needs. It has a variety of interchangeable panels so you can design the configuration to fit your needs. Whether it is motor planning, coordination, social skills, tactile input or a calming place to work, this Activity Tower offers it all. Made of the high-quality materials that all Southpaw-developed equipment is known for, this Activity Tower is sure to last and provide therapeutic fun for years.

When ordering, you must start with the Activity Tower Base (852000) as the foundation and then add whichever panels you choose. Each tower requires 8 panels plus the base to be complete. Note: Steps & Ladder Panel counts as 2 panels.

Dimensions:
54.5"L x 54.5"W x 97"H (Total Structure)
53.5"W x 48"H (Individual Panels)
19.75"W x 48"H x 21"D (Step Panel Stairs)
Working Load: 700 lbs.

852000	Activity Tower Base	$838.00
852001	Activity Tower Carpet	$136.00
852002	Activity Tower Mat	$310.00
852003	Activity Tower Door Panel	$205.00
852005	Activity Tower Steps & Ladder Panel	$297.00
852010	Activity Tower Bubble Panel	$697.00
852011	Activity Tower Clear Marble Panel	$625.00
852012	Activity Tower Multi-Colored Marble Panel	$625.00
852013	Activity Tower Plexi Window Panel	$335.00
852014	Activity Tower Chalk Panel	$354.00
852019	Activity Tower Dry Erase Panel	$275.00
XP9000	Activity Tower Slide	$425.00

This item ships Motor Freight.

Motor Planning & Balance

852015 ACTIVITY TOWER MONKEY BARS

852016 ACTIVITY TOWER TABLE PANEL

ACTIVITY TOWER MONKEY BARS

Bring the benefits of monkey bars to your inside therapy environment. Our Activity Tower already offers so many benefits, but with the addition of the monkey bars, you can address coordination, motor planning and strength in a whole new dimension.

Dimensions: 84″L x 31″W x 84″H
Working Load: 250 lbs.

852015	**Activity Tower Monkey Bars**	**$769.00**

ACTIVITY TOWER TABLE PANEL

Our Activity Tower allows you to develop the perfect therapeutic apparatus for your treatment space. With the addition of the Table Panel, this equipment completes any therapeutic environment, offering a space for working on fine motor activities.

Dimensions: 37″L x 30″W x 25″H

852016	**Activity Tower Table Panel**	**$597.00**

All items on this page ship Motor Freight.

ACTIVITY TOWER HAMMOCK

All the benefits of our LYCRA® Hammock can easily be added to the Activity Tower. This hammock can offer a great space for calming and self-organizing your clients by providing proprioceptive and vestibular input.

Working Load: 200 lbs.

152021	**Activity Tower Hammock**	**$427.00**

MULTI-LEVEL PLAYHOUSE

This unit will make any space more therapeutic. With the ability to fit in the corner, even smaller therapeutic settings can provide clients with various ways to work on balance, coordination and praxis skills.

At just the right height, the addition of one of our Mini Crash Pits allows clients the ability to jump into a pool of fun. Or use the space below as an ideal “small space” to calm or decrease distractions during sessions.

All surfaces are carpeted. Mini Crash Pit sold separately.

Dimensions: 30″L x 98.5″W x 64″H at handrail/28″H at platform (Back Platform); 28″L x 23″W x 21″H (Steps); 97.5″L x 22.5″W x 29″H (Ramp)

150260	**Multi-Level Playhouse**	**$2,995.00**

This item ships Motor Freight.

Motor Planning & Balance

PLAY LOFT

Children of all ages are drawn to the Play Loft. Climbing up to the top deck provides input that encourages bilateral coordination and improved motor planning. It also helps increase upper body strength and scapular stability.

The Play Loft comes with ladder staircase, a custom 1" floor mat and removable/replaceable carpet for the top deck. Also included is the safety slide, which was carefully chosen for this therapeutic use because of the high sides and flat run-off. The Play Loft is constructed of the highest quality birch plywood and is capable of supporting 700 lbs.

Built to order; please allow 4 weeks for delivery.

Weight: 300 lbs. with slide

150200	Play Loft	$2,945.00
150205	Play Loft 1" Floor Mat	$327.00
150201	Play Loft without the Slide	$2,559.00
150200FB	In-FUN-ity™ Attachment Bracket	$69.00

This item ships Motor Freight.

PLEASE NOTE: Assembles in about an hour with two people.

PLAY LOFT HIDEAWAY FLAPS

Create a dark, enclosed womb space with the Play Loft Hideaway Flaps. These are great for giving your over-stimulated clients a quiet, calm area to work. Attaches easily to Play Loft legs with hook-and-loop fasteners.

150220	Play Loft Hideaway Flaps (single flap)	$149.00

PLAY LOFT PADDED WALLS

Ideal for added privacy and calming, the Velcro®-compatible fabric walls also serve as a great communication board. Pad one, two or all three walls depending on your needs. Attaches easily to Play Loft rungs with hook-and-loop fasteners.

150215	Play Loft Padded Walls (set of 3)	$375.00
150216	53" Play Loft Padded Wall	$179.00
150217	48" Play Loft Padded Wall	$179.00

PLAY LOFT BALL PIT

This is a great addition to the Play Loft. Ball pits are great for body awareness, motor planning, tactile input and fun! Four heavy-duty vinyl-covered foam walls and a vinyl floor fit perfectly inside the Play Loft legs. Balls sold separately.

150210	Play Loft Ball Pit	$1,067.00
450210	Play Loft Ball Pit with (1,000) 3" Mixed Color Balls	$1,310.00
551410	Set of (500) 3" Mixed Color Balls	$185.00

JUNGLE GYM

Our new Jungle Gym is sure to excite your pre-school and primary age clients. This new piece of equipment will allow them to climb and swing while working on motor planning and bilateral coordination skills. Each of the ladders has six rungs for climbing, while the top horizontal ladder has four rungs.

The optional net climber offers the opportunity to climb both horizontally and vertically. Ships partially assembled.

Dimensions:
70"L x 31"W x 54"H (Jungle Gym)
45"W x 45"H (Net Climber)

152006	**Jungle Gym**	**$599.00**
120071	**Net Climber**	**$265.00**

JUNGLE GYM CUTOUT CLIMBER

If your little clients are not ready for a rock climbing wall, offer them this alternative. Fourteen multi-shaped cutouts offer open spaces for hands and feet, and a sense of security. And, you can adjust the height and angle of the wall since it attaches to any of the Jungle Gym rungs. Have your tentative tots start low on the rungs and move the wall up as they progress. Helps improve bilateral coordination and body awareness.

Dimensions: 52"L x 25"W; Working Load: 175 lbs.

152008	**Jungle Gym Cutout Climber**	**$427.00**

ROCK WALL FOR JUNGLE GYM

Now even your pre-schoolers and primary grade clients can enjoy the experience of climbing a rock wall. We've designed this wall to attach to the Jungle Gym above. Climbers will rely on motor planning, gross motor and cognitive skills to succeed and reach the top of the wall. This is a great addition to any therapy program. Includes (10) handholds.

Dimensions: 52"L x 25"W; Working Load: 175 lbs.

152007	**Rock Wall for Jungle Gym**	**$517.00**

PLEASE NOTE: The Rock Wall, Cutout Climbing Wall and Jungle Gym are designed for pre-school and primary children, up to about 7 years. If you want your larger clients to enjoy the same experiences, we suggest you consider the In-FUN-ity System and accessories.

Motor Planning & Balance

STEAMROLLER RAMP

And away they go! This ramp is sure to be a hit in any facility. It offers your clients sensory stimulation, heavy work, bilateral coordination and motor planning all in one. We've taken 10 of the steamroller rollers and attached them to 86" long wood side panels to create this new masterpiece. The ramp can be attached to the stand-alone platform or to Southpaw's In-FUN-ity system, and can be placed at varying heights to increase the challenge.

The platform consists of (2) six-rung ladders connected to a solid wooden top. Children can climb up the back to begin their fun. In addition, an optional rope with built-in loop can be attached to provide a great heavy-work activity.

Dimensions:
86"L x 30"W (Steamroller Ramp)
73"L x 30.5"W x 41"H (Platform)
8"dia. (Rollers)
Working Load: 300 lbs.

150045	**Steamroller Ramp**	**$997.00**
150045P	**Platform**	**$375.00**
150045S	**Complete Set**	**$1,235.00**
152016	**Rope**	**$39.00**

PLEASE NOTE: The Steamroller Ramp and Platform both require partial assembly.

ANGLE LADDER®

Add a new dimension to your obstacle course using our angle ladder. This A-frame ladder allows kids to work on bilateral coordination, sequencing and body awareness in a challenging and fun way.

The ladder has five rungs on each side that are connected by ropes at the base. Ships partially assembled.

Dimensions: 70"L x 31"W x 41"H; Working Load: 300 lbs.

152005	**Angle Ladder®**	**$269.00**

PLAYHOUSE

The Playhouse walls are constructed of durable foam, and the top is made of sturdy birch plywood, completely encased in foam. One wall has a removable doorway where your clients can enter the house for some quiet time. The Playhouse is easy to assemble and walls can be configured in many ways.

One of the most versatile functions of the Southpaw Playhouse is that it can double as a ball pool. Just flip the house upside down, pour in the balls, and you now have a pool for tactile stimulation. You can connect multiple playhouses together for an entire elevated playspace. The steps and slide also fit together with hook-and-loop fasteners for continued motor planning while using the playhouse as a ball pool.

Dimensions: 54″L x 54″W x 39″H (Playhouse)
36″L x 29″W x 30″H (Steps)
66″L x 29″W x 39″H (Slide)
Working Load: 400 lbs.

4400	**Playhouse**	**$1,997.00**
4410	**Playhouse Steps**	**$997.00**
4420	**Playhouse Slide**	**$1,597.00**
4401	**Playhouse Connector (for multiple houses)**	**$69.00**

The Playhouse and components ship Motor Freight.

Motor Planning & Balance

BOLSTER SCOOTERS

Our Bolster Scooters are a great tool for working with your clients on extension patterns as well as bilateral motor coordination. Sitting astride a movable surface aids development of balance reactions. Add a little fun to your therapy sessions, and let your clients position in prone, as they see how fast they can go using their arms and feet to propel them across the room. Or have them sit upright, hold on to the wooden handle, and practice walking.

Both scooters have a Baltic Birch base mounted on four freely rotating casters. A sturdy foam half-barrel sits on top of the base and is covered in phthalate-free and lead-free vinyl that meet government regulations. Colors may vary.

Dimensions:
50"L x 20"W x 16.5"H (Large)
38"L x 14"W x 12.5"H (Small)
Working Load: 200 lbs.

150055	**Large Bolster Scooter**	**$419.00**
150056	**Small Bolster Scooter**	**$335.00**

DID YOU KNOW: Bolster Scooters are so VERSATILE! Use in prone, seated and pushed for excellent sensory input!

LARGE SCOOTER BOARD RAMP

Increase the challenge and vestibular input of a favorite therapeutic activity! Our Large Scooter Board Ramp offers all the same great qualities of the standard one; however, the uphill climb and downhill ride offer more. This larger scooter board ramp is great for those larger children who still seek out the fun!

Dimensions:
55"L x 22.75"W x 33"H (Base);
89"L x 22.75"W x 5"H (Ramp)
Working Load: 350 lbs.

150065	**Large Scooter Board Ramp**	**$809.00**

FLOOR SURFER

The Floor Surfer is the perfect tool for play as well as targeted training of motor skills. It has been developed by physiotherapists and will stimulate children at every motor skills level. The ergonomic shape supports posture muscles around the pelvis and muscles in the back and neck, while the Floor Surfer's durable EVA foam pads make it comfortable to lie on.

Maximum load is 220 lbs.

256039	**Floor Surfer**	**$125.00**

Motor Planning & Balance

SCOOTER BOARD XL

The Scooter Board XL provides greater support for longer bodies and comes with two soft-sided straps to help hold the child's torso and/or legs on top of the board. When not in use, the straps can be stored on the underside of the scooter board itself.

The Scooter Board XL is compatible with the Southpaw Scooter Board Backrest (item 1952). Rope not included.

Dimensions: 40"L x 15"W; Working Load: 150 lbs.

150110	**Scooter Board XL**	**$269.00**
450111	**Scooter Board XL and Backrest**	**$420.00**

ADJUSTABLE SCOOTER BOARD

The Scooter Board is a fun, versatile piece of equipment that can be used in practically any environment. Southpaw solves the problem of too much or too little support by offering an Adjustable Scooter Board.

Smaller clients, or those requiring a greater challenge, can use the smaller 18"L x 14"W scooter board. To quickly adjust for larger clients, unlock the scooter board, insert and lock the extra leaf in place and you now have a 24"L x 14"W scooter board. Rotates freely on four 360-degree casters. Backrest sold separately.

Dimensions: 18"L or 24"L x 14"W; Working Load: 150 lbs.

1950	**Adjustable Scooter Board and Tow Strap**	**$362.00**

SCOOTER BOARD BACKREST

Therapists asked us for a positioning device to aid gravitationally insecure clients and lower functioning clients while working on the Scooter Board. This padded, contoured Backrest comes with soft straps to aid in positioning. Easily attaching to all Southpaw Scooter Boards, it can be positioned anywhere within 3" from the front all the way to the back of the Scooter Board.

1952	**Scooter Board Backrest, Includes 2 adjustable straps**	**$195.00**
1953	**Scooter Board and Backrest**	**$497.00**

SCOOTER BOARD RAMP

It's easy to assemble, lightweight and easy to store! Ramp design includes a safety lock end that secures the ramp to the base. The base goes together with only eight screws. Disassembles easily.

A special feature of Southpaw's ramp is the small lip that allows a smooth transition from ramp to floor, and the wide platform that enables a child to turn a scooter board completely around without getting off the board.

Dimensions: 25″L x 24″W x 14″H (Base); 57″L x 24″W (Ramp)
Working Load: 250 lbs.

150060	**Scooter Board Ramp**	**$497.00**
450050	**Ramp & Advantage Line™ Scooter Board**	**$597.00**

DID YOU KNOW: Our new lacquer finish provides an antimicrobial barrier.

ADVANTAGE LINE™ SCOOTER BOARD

No developmental therapy program is complete without a scooter board. Use it for obstacle courses, games and races to help boost posture and coordination skills.

Our Advantage Line Scooter Board is not adjustable and offers a lower-cost alternative to our Adjustable Scooter Board (page 126). Tow strap included.

Dimensions: 20″L x 14″W; Working Load: 150 lbs.

150050	**Advantage Line™ Scooter Board**	**$169.00**

Motor Planning & Balance

451410 MINI CRASH PIT AND (1,000) BALLS

CRASH PIT

Whether it's filled with our Giant Cloud Nine (page 131) or with balls, our Crash Pit is fun and inviting. It's a perfect landing spot for the children who crave the crash-and-burn input. Or add a weighted blanket and create a calming quiet space.

Either way, it's a perfect fit for your clinic or basement playroom. We offer the versatility for you to create the kind of pit you want: with or without a floor mat, with balls or with the Giant Cloud Nine. Made of sturdy yet soft foam with an optional floor mat for the bottom.

Dimensions: 78"W x 24"H x 6"D (Each wall)
72"L x 72"W (Inside); 84"L x 84"W (Outside)

151500	Crash Pit Only	$1,995.00
151402	Crash Pit Floor Mat	$402.00
451500	Crash Pit with Floor Mat	$2,150.00
451501	Crash Pit with (3,500) 3" Balls	$2,961.00
451502	Crash Pit with Floor Mat and (3,500) 3" Balls	$3,325.00
451503	Crash Pit with Giant Cloud Nine	$2,965.00
451504	Crash Pit with Giant Cloud Nine and Floor Mat	$3,325.00
551410	Set of (500) 3" Mixed Color Balls	$185.00

MINI CRASH PIT

Our Mini Crash Pit is fun and inviting for children who crave crash-and-burn input. At just 53" x 53", it is small enough to fit in any treatment room.

Dimensions: 49"L x 24"H x 4"D (Each wall)
45"L x 45"W (Inside); 53"L x 53"W (Outside)

151510	Mini Crash Pit	$1,195.00
151415	Mini Crash Pit Padded Floor Mat	$367.00
451510	Mini Crash Pit and (1,000) Balls	$1,410.00

The Large Crash Pit ships Motor Freight.

CRASH PIT CUBBIE

The Crash Pit Cubbie provides a spot for children to remove and store their shoes, and can act as a step for climbing into the Crash Pit (page 128).

Dimensions: 41"W x 20"H x 18"D

151437	**Crash Pit Cubbie**	**$637.00**

This item ships Motor Freight.

151430 CRASH PIT DUST COVER

CRASH PIT DUST COVER

The Crash Pit Dust Cover is made of lightweight durable vinyl. The covers are made in two sizes for the standard and mini crash pits.

151430	**Crash Pit Dust Cover**	**$347.00**
151431	**Mini Crash Pit Dust Cover**	**$309.00**

Motor Planning & Balance

CRASH PIT STEPS & SLIDE

To improve accessibility to our crash pits, we have added the option of our Steps and Slide. This makes our Crash Pit more versatile and will provide your clients hours of fun as they develop motor planning, gross motor skills and social interaction.

Dimensions: 30"L x 30"W x 24"H (Steps); 72"L x 30"W x 24"H (Slide)

4440	**Crash Pit Steps**	**$945.00**
4450	**Crash Pit Slide**	**$1,457.00**

This item ships Motor Freight.

GIANT CLOUD NINE

Try a piece of heaven for your Crash Pit (page 128) or use it alone as a perfect landing spot, or a soft, cozy, quiet space. Made of the same durable yet soft material as our standard Cloud Nine, only much bigger! Filled with chunks of soft, flexible foam and covered with either a soft velour or an easy-to-clean vinyl cover. Vinyl cover/inner liner optional and sold separately. Not water-resistant.

Dimensions: 72″L x 72″W x 24″H

1459	Giant Cloud Nine with Velour Cover	$1,496.00
6659	Giant Cloud Nine with Vinyl Cover	$1,105.00
1460	Velour Outer Liner	$471.00
1461	Inner Liner	$427.00

1459 GIANT CLOUD NINE.
CRASH PIT SOLD SEPARATELY.

1450 MINI CLOUD NINE. CRASH PIT SOLD SEPARATELY.

MINI CLOUD NINE

This smaller version of our Giant Cloud Nine offers the same comfortable resting place for your clients, age 9 and under. It was designed to fit inside the Mini Crash Pit (page 128) and offer a place to relax or a place to burn some energy while bouncing safely.

The Mini Cloud Nine is available with a Velour Cover and Vinyl Cover/Liner or with just the Vinyl Cover. The Velour Cover and Vinyl Cover/Liner are also available individually.

Dimensions: 45″L x 45″W x 6″D

1450	Mini Cloud Nine with Vinyl Liner and Velour Cover	$521.00
6650	Mini Cloud Nine with Vinyl Cover	$355.00
1451	Velour Outer Cover only	$177.00
1452	Vinyl Inner Liner only	$167.00

CLOUD NINE

Used as a crash pit or a quiet reading space, our Cloud Nine is sure to be a hit with all children. Made with soft velour on the outside, and filled with chunks of flexible foam on the inside. The Cloud Nine can be purchased complete, or if you prefer, the velour cover, vinyl cover/liner and foam are sold separately to meet your individual needs. Colors may vary.

Dimensions: 72″L x 48″W x 12″D

1455	Cloud Nine, complete with Vinyl Cover/Liner and Velour Cover	$979.00
6655	Cloud Nine with Vinyl Cover	$690.00
1456	Cloud Nine, velour cover only	$337.00
1457	Cloud Nine, inner liner only	$309.00
1458	Cloud Nine, replacement foam only	$240.00

6655 CLOUD NINE WITH VINYL COVER

Motor Planning & Balance

HAMBURGER... WITH EVERYTHING

Get creative and have a picnic! Just like our Hot Dog, children can get the deep proprioceptive input they need by becoming a Hamburger using our Floor Pillows and the additional weighted Pickles and Tomato. What a fun way to work on sequencing and motor planning, finishing with some great deep pressure!

Dimensions: 32″dia. x 9″H (Floor Pillow Bun); 32″dia. (Tomato); 12″dia. (Pickles)
Weight: 5 lbs. (Tomato); 1.75 lbs. each (Pickles)

351470	**Hamburger... with Everything**	**$899.00**
141470	**Weighted Tomato & (3) Pickles**	**$215.00**

HOT DOG

A necessity for the fun and active therapy clinic! Your clients will have a blast as you transform them into complete human hot dogs using the components of this kit. Clients will be eager to become the top dog as they experience spatial and body awareness. The Bun, which is similar to our Cloud Nine, can be used multiple ways for postural positioning.

Because the Bun has a special seam in the center, your clients will fit perfectly and comfortably while playing the role of the hot dog. Filled with safe non-toxic medium, the Ketchup and Mustard each weigh 10 lbs., and can be used for additional proprioceptive feedback to complete the Hot Dog look. Cover is machine washable.

Dimensions: 58″W x 12″H (Hot Dog Bun); 3″dia. x 60″L (Ketchup & Mustard)

151460	**Hot Dog Kit**	**$597.00**

SENSORY SHAKER

Your clients will have a ball in Southpaw's Sensory Shaker! The Sensory Shaker is an oversized bag that, when filled with balls, provides tactile input as well as vestibular input for your client as she sits inside and you shake her up. Without movement, the Sensory Shaker provides a small, enclosed space for your client.

The bag is made out of breathable yet sturdy jersey fabric with strong handles to make the shaking easier. The bag's size is versatile enough to accommodate a large range of clients, from toddlers to elementary. Does not include balls. Colors may vary.

Dimensions: 60"H x 120" Circumference

1395	**Sensory Shaker**	**$237.00**

RISE N SHINE FLOOR PILLOW

Help your client relax by having them lay on this fun-themed fluffy bean bag pillow. Add a slice of weighted bacon on top to complete this calming and savory sensory meal!

The 5′ diameter egg has a soft outer cover made of ultra-plush, washable fabric. The vinyl inner liner holds approximately 4 cubic feet of bean bag filling. Please note that the filling is not included with the pillow and must be purchased separately.

The twill fabric bacon is 5′ long x 1′ wide and holds a removable 5 lb. weighted blanket.

151470	**Rise N Shine Floor Pillow**	**$520.00**

Motor Planning & Balance

FLEXION/EXTENSION PULLEY SYSTEM

Southpaw's Flexion/Extension Pulley System allows bilateral hand use while increasing core stability and challenging balance skills. This pulley system is a fun and exciting way to help with developing motor planning, bilateral coordination and postural control. The Flexion/Extension Pulley System works well with many pieces of equipment, including Therapy Balls, Scooter Boards, The Whale and Bolsters.

1901	Flexion/Extension Pulley System	$81.00

BALANCE HARNESS

The Balance Harness cradles the upper body in a biomechanically aligned posture. The client is connected to the therapist, while the therapist is in an upright position for better assessment of the overall activity.

This product is very easy to slip on without buckles or adjustments. Depending on the insecurity of the client, the harness can be held from very loose to very tight.

1510	Balance Harness	$99.00

THERABAND™ EXERCISE BALLS

Colorful. Fun. These PRO Series SCP® balls appeal to all ages, and are strong enough to support children or adults. Designed especially for therapeutic exercise, these bright, durable Therapy Balls can be used with clients in almost every developmental position for an endless variety of activities including flexion, extension, equilibrium reactions and postural adjustments.

The Therapy Balls can be soft inflated using a blower type inflator like the Southpaw Inflator/Deflator Pump. Complete instructions are included with each ball.

These Therapy Balls are made of heavy-duty molded vinyl, so they're tough enough to take years of therapy use and abuse.

230010	45cm (18") TheraBand™ Exercise Ball	$20.95
230011	55cm (22") TheraBand™ Exercise Ball	$29.95
230012	65cm (26") TheraBand™ Exercise Ball	$36.95
230013	75cm (30") TheraBand™ Exercise Ball	$40.95
230016	85cm (34") TheraBand™ Exercise Ball	$52.95

INFLATOR/DEFLATOR

Here's the perfect tool for therapists who must inflate and deflate Playballs, Playrolls, Air Mats or other low-pressure inflatables. Handheld pump plugs into any standard electrical outlet. Inflates without danger of over-inflation. A real timesaver!

1350	**Inflator/Deflator**	**$98.00**

FEETBALLS

While you sit on the ball, the feet collapse for maximum instability. Once you get off the ball, the feet snap back and the ball stays in place. A perfect solution for children with the wiggles.

230027	**45cm (18") Feetball**	**$17.95**
230028	**55cm (22") Feetball**	**$21.95**
230029	**65cm (26") Feetball**	**$29.95**

PEANUT

This is a great alternative to the round therapy ball that children may find too challenging. The Peanut can only roll in one direction, either front to back or side to side. Designed so therapist and client can sit on the Peanut together. Can be used in activities involving flexion, extension and postural adjustment.

Dimensions: 16"D x 35"L/40cm x 90cm (230022); 20"D x 39"L/50cm x 100cm (230023); 24"D x 43"L/60cm x 110cm (230024); 28"D x 47"L/70cm x 120cm (230025)

230022	**40cm (16"L) Peanut**	**$28.95**
230023	**50cm (20"L) Peanut**	**$37.95**
230024	**60cm (24"L) Peanut**	**$46.95**
230025	**70cm (28"L) Peanut**	**$56.95**

Motor Planning & Balance

BALL BOUNCE TARGET

Here's a fun new game for your students and clients to play alone, in pairs or in teams. Bounce your ball on the floor in front of you so it goes straight into one of the three pocket targets. It's harder than it looks, but it is a great hand-eye coordination tool and you can certainly enhance socialization skills when you set up team play. Game includes (6) bouncing balls.

Dimensions: 18"W x 28"H x 13"D

303810	**Ball Bounce Target**	**$179.00**

BEANBAG TOSS GAME

Let your kids have fun while working on hand-eye coordination and range of motion with the Beanbag Toss Game.

Our Circle Toss has five targets in two different sizes. The Beanbag Circle Toss Game comes with (6) beanbags.

Dimensions: 29"L x 21"W x 3"H

151102	**Beanbag Circle Toss Game**	**$269.00**

110030 COMPOSITE CLIMBING WALL (PAGE 106)

TRANSITION WALL

The concept of the Transition Wall was developed by PT's and OT's in conjunction with Southpaw. The purpose is to provide motor planning products that allow for execution of different skills to strengthen the upper extremities and legs. A Transition Wall can be made of various Southpaw products that incorporate concepts of in, on, under, over, up and down. The Transition Wall helps develop skills that transfer easily to playgrounds for children with sensory issues. This photo provides a sample of what can be included in a Transition Wall. A Crash Pit (page 128) or Steamroller Ramp (page 122) could easily be added to the wall.

Several of the items shown may ship Motor Freight.

854000 MAT TABLE CUSTOM HEIGHT (PAGE 84)

Motor Planning & Balance

D TUNNEL

Your kids are going to love this great tunnel that they can crawl through, sit inside and look out the windows, while getting tickled by the removable Dacron strips that hang from the ceiling. It has a black polyethylene floor and tabs to stake down the tunnel if it's used outdoors.

Dimensions: 9'L x 30"W x 30"H

256054	**D Tunnel**	**$117.00**

PEEK-A-BOO I SEE-U TUNNEL

Easy to see through and bright enough to capture those smiles. Tunnel also has a connecting lip on one end to enable you to extend the length or connect other tunnels. Flame-retardant 70 denier polyester, meets CPAI-84 standards. Padded interior for comfort and safety. Tunnel folds down flat for easy storage.

Dimensions: 19"dia. x 6' L

256015	**Peek-a-Boo I See-U Tunnel**	**$49.00**

PLAY TUNNEL (WITH INNER FLOOR)

Your clients will have fun while developing body awareness, left and right discrimination and motor planning in our Play Tunnel. This lightweight yet heavy-duty tunnel folds flat for easy storage and opens easily for quick use. Southpaw has enhanced the tunnel even more by including a padded floor covered in heavy vinyl that is 15"W to help prevent bruised knees and hands. Colors may vary. Mats not included.

Dimensions: 22"dia. x 9'L (Tunnel); 15"W (Pad)

3961	**Play Tunnel (with Inner Floor)**	**$245.00**

INSTITUTIONAL PARACHUTE

Parachute play helps develop perceptual, cognitive, motor and social skills. Use them for group cooperative play and to build muscle tone and coordination. The parachute is made of 210 rip-stop polyester and holds up to heavy usage and constant play. Comes in its own storage bag.

Dimensions: 12′ dia.

256303	**12′ dia. Institutional Parachute with 12 handles**	**$69.00**

INSTITUTIONAL PADDED TUNNEL

This is our longest tunnel ever, measuring 15′ with a 24″ diameter for your older children. This tunnel is made of 600 x 300 weave polyester Dacron with 600 mm polyurethane coating. Meets CPAI-84 specifications for flame retardancy. Collapses for easy storage.

Dimensions: 24″dia. x 15′L

256071	**Institutional Padded Tunnel**	**$135.00**

INSTITUTIONAL STRENGTH TUNNEL

This sturdy tunnel is made of polyester Dacron 600 x 300 weave, with 600 mm PU coating, to hold up to repeated classroom and clinic use. Meets CPAI-84 flame retardant specifications. Sturdy steel spring construction.

Dimensions: 22″dia. x 9′L

256050	**Institutional Strength Tunnel**	**$96.00**

Sensory Enrichment

ACTIVITY PANELS

Interactive panels are a great way for your many different clients to receive sensory input. These three panels are made of Baltic Birch and offer tactile, visual and sound sensations. Each panel has a curvy roadway along its width where your clients can guide their vehicles, working on tracking and upper body gross motor skills. If you put the panels together on the wall, the vehicles can be moved along the entire 90 inches. The panels can also be freestanding and placed on the floor.

Dimensions: 30"L x 30"W x 6"D (Each panel)
Weight: 45 lbs. each

303805	**Activity Panels SPECIAL! 3 Panel Set**	**$2,415.00**

Items on pages 140 and 141 ship Motor Freight.

PLEASE NOTE: There may be slight variations in the items on each Activity Panel from time to time. However each panel will have at least the same number of products as shown in the pictures.

DID YOU KNOW: Our new lacquer finish provides an antimicrobial barrier.

FIBER OPTIC ACTIVITY PANEL

Your clients with visual impairments will appreciate this Panel with its glowing fiber optic spray, fiber optic mirrors and unique marble panel backed by LED fiber optics. Tactile components include wooden and plastic animal shapes. The panel is also decorated with glow-in-the dark stars and a letter C. It also has its own vehicle to follow the winding path across the board.

303803	Fiber Optic Activity Panel	$1,149.00

SOUND & MUSIC ACTIVITY PANEL

This Panel is full of noise makers to please the music enthusiasts you work with. We've included a wave drum, xylophone, rainbow maker, desk bell, triangle and mini talking button as well as some wooden and plastic animal shapes, a letter B and another car to travel the highway.

303802	Sound & Music Activity Panel	$769.00

TACTILE ACTIVITY PANEL

Our Tactile Panel will appeal to those who enjoy the feel of different textures. There are three different types of rope handles, a stretchy web, an abacus, glowing stars, a letter A and a wooden car to travel the curved roadway.

303801	Tactile Activity Panel	$627.00

PLEASE NOTE: There may be slight variations in the items on each Activity Panel from time to time. However each panel will have at least the same number of products as shown in the pictures.

Sensory Enrichment

STICKY WALL

Requested by therapists, the Sticky Wall is a great addition to your clinic. The wall consists of soft textured fabric that is compatible with most hook fasteners, and can easily mount to almost any surface with its self-adhesive backing. Each wall comes with 36″ of self-adhesive hook fastener to create many different learning tools to use on your Sticky Wall. Mounting directions as well as an instruction sheet with several ideas are included.

Dimensions: 48″ x 60″ (Small); 96″ x 60″ (Large)

190030	**Small Sticky Wall**	**$69.00**
190031	**Large Sticky Wall**	**$110.00**

PUZZLE PANEL

The all new Puzzle Panel features soft, textured fabric that is compatible with most hook fasteners. Children can create their own designs from the (120) wooden geometric shapes, or use the included pattern boards as a guide.

Dimensions: 30″L x 30″W x 6″H
Weight: 45 lbs.

303804	**Puzzle Panel**	**$635.00**

This item ships Motor Freight.

TACTILE MASSAGE RINGS & ROLLS

There are endless uses to these durable, tactile rings and inflatable rolls! The ring has hundreds of sensory spikes for activities requiring extreme tactile input, while the roll has sensory bumps for those who require modest tactile stimulation. Colors may vary. Sold separately in sets of 2.

Dimensions: 5″dia. (Ring); 2″dia. x 6″L (Roll)

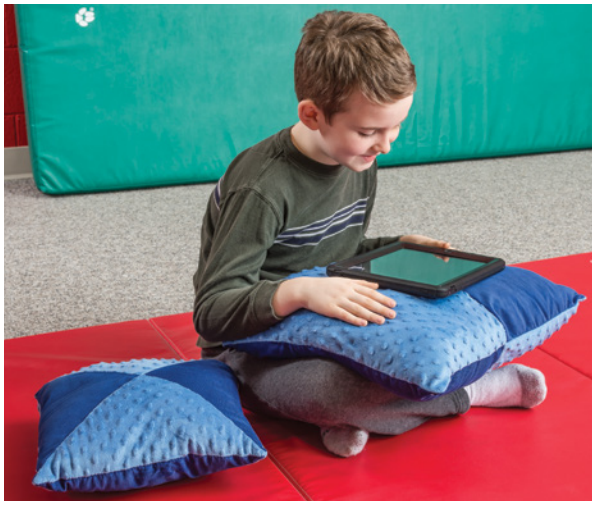

260011	**Tactile Massage Rings (Set of 2)**	**$24.00**
260010	**Tactile Massage Rolls (Set of 2)**	**$18.00**

SENSORY BALLS

Our brightly colored tactile sensory balls come in four different sizes. The pointy bumps on the ball make it a great stimulation tool that can help build both concentration and focus on defense mechanisms. All balls are lead and phthalate free. The 15cm ball needs to be inflated. Colors may vary.

460001	**7 cm Sensory Balls (Set of 4)**	**$16.95**
460002	**8 cm Sensory Balls (Set of 4)**	**$18.95**
460003	**9 cm Sensory Balls (Set of 4)**	**$26.95**
460004	**15 cm Sensory Balls (Set of 2)**	**$31.95**
460010	**Sensory Balls (Set of 1 of each size)**	**$32.35**

TACTILE PILLOWS

Our tactile pillows provide two textures for those who are tactile-defensive. Pillows offer a combination of fleece and chenille. Set includes (2) pillows, (1) 12″ x 12″ and (1) 16.5″ x 20.5″.

165010	**Tactile Pillows (Set of 2)**	**$151.00**

Sensory Enrichment

THERAPY BRUSH SET

Southpaw now offers a sample variety pack of our most popular therapy brushes! This exclusive set includes (2) Tactile Scrub Brushes (2890), (2) O.T. Brushes (2889), (1) OT Brush Handle (262000) and (2) Hand & Palm Brushes (2893).

260000	**Therapy Brush Set**	**$34.00**

O.T. BRUSH AND HANDLE

This O.T. Brush Handle makes O.T. Brushes easier to hold for both client and therapist. This sturdy plastic Brush Handle is the answer to many therapists' requests. When a brush begins to show signs of wear, simply pop it out of the handle and pop in a new brush. The Brush Handle is simple, safe and designed to fit the hand so well it eliminates fatigue. Use the handle with the brush set listed below. Handle and brush sets are sold separately.

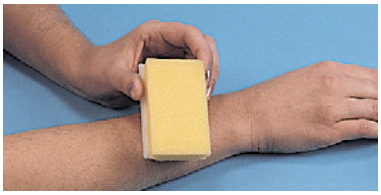

262000	**O.T. Brush Handles (Set of 2)**	**$14.95**
2889	**O.T. Brushes (Set of 10)**	**$14.50**

TACTILE SCRUB BRUSHES

These Tactile Scrub Brushes offer soft bristles to provide an optimal amount of stimulation for tactile desensitization programs.

2890	**Tactile Scrub Brushes (Set of 12)**	**$24.95**
262890	**Tactile Scrub Brushes (Set of 30)**	**$55.00**

WILBARGER THERAPRESSURE BRUSH

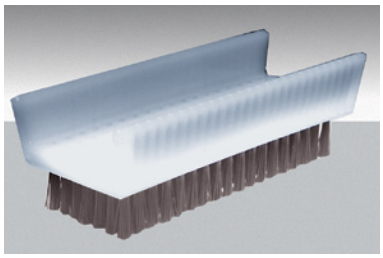

Designed by Patricia Wilbarger, this brush is oval in shape. It has greater density of bristles, for more consistent treatment. Includes a comfortable handle.

262895	**Wilbarger Therapressure Brush (Set of 24)**	**$91.95**

HAND & PALM BRUSH

Here it is... the hard-to-find brush for fingers and palms used in the brushing technique. The brush heightens motor coordinative use of each finger as a separate unit of the hand. The Hand & Palm Brush fosters a client's ability to sequentially oppose each finger to the thumb. It encourages spontaneous use of the fingers as separate units in poking, pointing, tripod grasp and oppositional prehension.

2893	**Hand & Palm Brush (Set of 12)**	**$62.00**

SOFT FRAME BUBBLE MIRROR

This fun mirror offers exciting multi-duplication of images, plus changes of shape and size. Nine convex mirror bubbles are each 9"dia. Great focal point for visual perceptual experiences. Made of shatter-resistant acrylic, the mirror is surrounded by a soft frame.

Dimensions: 34"W x 34"H

503011	**Soft Frame Bubble Mirror**	**$611.00**

Sensory Enrichment

ADJUSTABLE FLOOR MIRROR

Use the mirrored side to develop visual attention. Use the chalkboard side as an activity to develop fine motor skills. Southpaw's Floor Mirror can be adjusted to almost any angle and easily folds flat for storage. The Adjustable Floor Mirror provides feedback on body posture. It uses visual cues to prompt movement patterns. Made of mirrored plexiglass.

Dimensions: 26"W x 26"H
Weight: 22 lbs.

2255	**Adjustable Floor Mirror**	**$419.00**

SOFT FOLDING MIRROR TENT

A tunnel to crawl through and a mirror to play in! The soft-sided tent features a shatter-resistant mirror on the outside for little ones to experience cause and effect and play with their own reflections. This lightweight unit is great for the itinerant therapist.

556105	**Soft Folding Mirror Tent**	**$329.00**

TILTING FLOOR MIRROR/CHALKBOARD COMBINATION

This versatile mirror/chalkboard can be used to engage your client in many activities in either a school or clinic environment. Useful for both oral and fine motor tasks, the large mirror allows the therapist to work with the client directly, while the chalkboard provides added sensory input during drawing and writing. The large design of this combination piece can be adjusted for the right angle or the vertical surface needed, as well as being adaptable to correct hand dominance.

2245	**Tilting Floor Mirror/Chalkboard Combination**	**$660.00**

ACRYLIC TALL MIRROR

Extra-safe, acrylic plastic offers a distortion-free image. Legs remove for vertical or horizontal view. Minimal assembly required.

Dimensions: 13"W x 48"H

558016	**Acrylic Tall Mirror**	**$206.00**

Sensory Enrichment

BAND IN A BOX

Six high-quality musical instruments, ten pieces in all! Children will have hours of musical fun learning rhythm and cooperation while they make their own music or play along with their favorite songs! The Band In A Box includes tambourine, cymbals, maracas, triangle, rhythm sticks and more. Packaged in a wooden storage crate.

205026	**Band in a Box**	**$26.95**

RAINBOMAKERS

These colorful toys appeal to a child's sight, sound and touch. The Rainbomakers are filled with multi-colored beads that cascade through color balconies inside the clear plastic cylinder, making the soothing sound of falling rain.

Dimensions: 16"H (Rainbomaker); 8"H (Mini)

205058	**Rainbomaker**	**$21.00**
205059	**Mini Rainbomaker**	**$11.99**

GOTALK BUTTON

Simple and versatile, the new GoTalk Button records one 10-second message, and the large PLAY button ensures easy use. Its light and compact size (approx. 2"dia. and less than 1 oz.) makes it easy to slip in your pocket. Use several Buttons for multiple messages. Battery included.

Dimensions: 2"dia.; Weight: 1 oz.

275350	**GoTalk Button, Each**	**$17.00**

WHISTLE KIT

The whistles in this collection are colorful and sturdy, encouraging both ocular and oral motor skills. Most feature moving parts as well as noise making to stimulate inspiration and expiration. Whistles may vary.

2807	**Whistle Kit**	**$19.50**

CAUTION: Choking Hazard. Small parts not for children under three years.

SENSORY TACTILE SET

We've put together some of our most popular tactile items for use in the classroom, the clinic or at home. While actual items may vary, the photo (shown right), represents a number of sensory toys included in the kit. The set comes with a Southpaw bag to store your treasures.

360000	**Sensory Tactile Set**	**$97.00**

CAUTION: Choking Hazard. Small parts not for children under three years.

TEACHABLE TOUCHABLES

Scratchy, slippery, silky or soft? Young learners build tactile awareness and vocabulary skills as they interact with these (20) texture squares (10 different pairs) in a variety of hands-on activities. Each textured pillow or patch is approximately 3"H x 2"L in size to fit perfectly in small hands... and in the handy cloth drawstring bag. Includes a Tip Sheet packed with fun activities that touch on matching, vocabulary, communication and tactile discrimination skills. Grades Pre-K and up.

Dimensions: 2"L x 3"H

260007	**Teachable Touchables**	**$28.00**

BLOW TOY KIT

These colorful and entertaining toys encourage prolonged oral blowing without sound as well as ocular tracking. The set of Blow Toys will provide the inhalation and exhalation for oral motor strengthening without making any noise. Kit contents may vary.

2808	**Blow Toy Kit**	**$19.50**

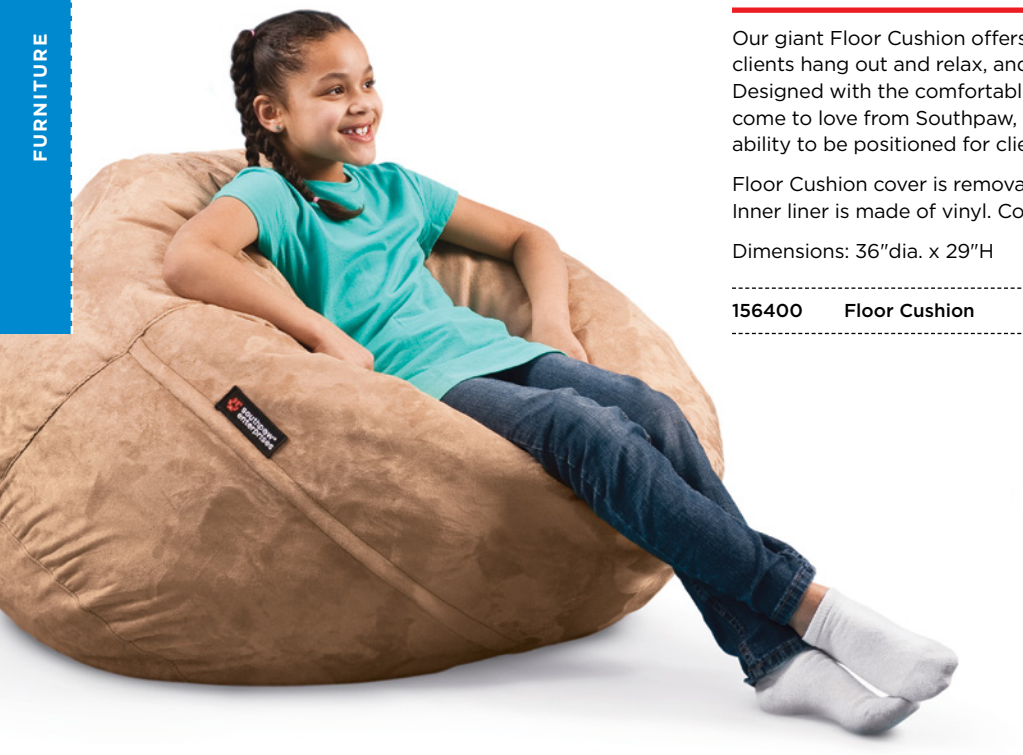

STRETCHY INSIDE OUT BALL

This ball appears to be an ordinary smooth round ball. But it's not! Turn this stretchy ball inside out for a squishy spiky surprise! With one quick move it changes from a smooth ball to a soft spiky ball! Sure to be a favorite fidget! Sold in an assorted set of three. Colors may vary.

264210	**Stretchy Inside Out Ball (Set of 3)**	**$14.99**

Positioning

FLOOR CUSHION

Our giant Floor Cushion offers the ideal place to have your clients hang out and relax, and is perfect for any setting. Designed with the comfortable, durable materials you have come to love from Southpaw, the Floor Cushion offers the ability to be positioned for clients with various needs.

Floor Cushion cover is removable and machine washable. Inner liner is made of vinyl. Colors may vary.

Dimensions: 36″dia. x 29″H

156400	**Floor Cushion**	**$509.00**

FLOOR PILLOWS

Children can work on motor planning, balance and coordination, and get proprioceptive input, by walking, crawling or hanging out under this pillow. In addition, the Floor Pillow offers an ideal space for calming and can easily fit into all environments without taking up a ton of space.

Dimensions: 32″dia. x 9″H

156440	**Floor Pillows (Set of 2)**	**$679.00**

BEAN BAG CHAIRS

Bean Bag Chairs have always been an important positioning and relaxation item for children and adults with sensory integration needs. But, all Bean Bag Chairs are not the same. Our Chairs are covered in durable, commercial strength 20 oz. vinyl, backed by non-woven polyester, which strengthens the fabric. The Chairs are sewn with a flat-felled seam, with all raw edges protected by a double fold that is interlocked. In addition, the seams are secured with a lockstitch, which guarantees that the seams will not unravel if a single thread breaks.

Each Bean Bag Chair has (2) #5 boot zippers, with a unique end tab design that ensures they are childproof. The Bean Bags are filled with modified irregularly shaped polystyrene beads that help the Chair to retain its shape. We offer the chair in four sizes to fit children through adults up to 6'5".

Dimensions: 104" Circumference x 37"H (Kid); 110" Circumference x 45"H (Teen); 125" Circumference x 48"H (Adult)

5805	**Kid Bean Bag Chair**	**$269.00**
5806	**Teen Bean Bag Chair**	**$329.00**
5807	**Adult Bean Bag Chair**	**$409.00**

BEAN BAG COLOR OPTIONS

N Navy	Y Yellow
HG Hunter Green	R Red

SKILLBUILDERS® ROLLS

Adaptive positioning provides stability and support for persons who do not have full body control. The rolls can be used for vestibular training and positioning. The Skillbuilder Roll has an integral waterproof polyurethane coating that can be washed and disinfected.

556323	8"dia. x 36"L Skillbuilders® Roll	$240.00
556324	10"dia. x 36"L Skillbuilders® Roll	$265.00
556325	12"dia. x 36"L Skillbuilders® Roll	$314.00

FOLDING WEDGE

A staple for any therapy room, wedges help in positioning, balance and exercise activities. These folding wedges can be turned into square blocks that are useful for alternative exercise. Made of a firm, solid foam core covered in durable vinyl. Colors may vary.

Dimensions: 26"L x 22"W

155560	6" Folding Wedge	$215.00
155561	8" Folding Wedge	$258.00
155562	10" Folding Wedge	$271.00
155563	12" Folding Wedge	$315.00

SOFT-LITE FLOOR ROLL

Our floor rolls are sturdy enough for clients of all ages. Made of durable foam and covered in heavy-duty vinyl, these rolls are built to withstand years of use.

Dimensions: 16"dia. x 36"L (Full roll)
Working Load: 225 lbs.

1061	Full Soft-Lite Floor Roll	$519.00

256401 BLUE CUBE CHAIR

256400 EDU TRAY

CUBE CHAIRS

Our versatile 15″ durable, lightweight Cube Chair for indoor and outdoor use, features radius corners and multiple uses. First, use as a chair with either 7″ high seat or 9″ high seat. Second, flip our chair over and it serves either as a 15″ high table, or the perfect height chair for adults. Manufactured from non-toxic recyclable polyethylene.

The EduTray can be added to the Cube Chair to provide a surface for play.

Dimensions: 15″L x 15″W x 15″H

256401	**Blue Cube Chair**	**$109.00**
256402	**Green Cube Chair**	**$109.00**
256403	**Red Cube Chair**	**$109.00**
256404	**Yellow Cube Chair**	**$109.00**
256400	**EduTray**	**$175.00**

DONUT

The Donut is smaller than an exercise ball but provides some of the same benefits. Its rounded shape offers a unique balance challenge for core strengthening. A guaranteed kid-pleaser for sensory play. Comes in two sizes. Colors may vary.

Dimensions: 20″dia. or 26″dia.

236103	**20″ Diameter Donut**	**$15.00**
236104	**26″ Diameter Donut**	**$25.00**

CANDO SITTING WEDGE

Inflatable wedge requires active participation from user to assume correct sitting posture. Wedge combines dynamic seating and static positioning. Inflate or deflate wedge to vary degree of difficulty.

Dimensions: 13.5″L x 13.5″W x 3″H (Adult); 10″L x 10″W x 2.75″H (Child)

231332	**CanDo Sitting Wedge, Adult Size**	**$35.00**
231333	**CanDo Sitting Wedge, Child Size**	**$31.00**

Positioning

SENSORY ROCKERS

These soft, contoured rocking chairs offer gentle sensory stimulation in a comfortable position. An ideal positioning product for those who only need mild vestibular input.

Adult Sensory Rocker is covered in camel; Medium Sensory Rocker is covered in blue; Child Sensory Rocker is covered in yellow.

Dimensions: 45″L x 22″W x 26″H (Child)
52″L x 24″W x 33″H (Medium)
61″L x 32″W x 41″H (Adult)
Weight: 18 lbs. (Child); 40 lbs. (Adult)

154051	**Child Sensory Rocker**	**$729.00**
154052	**Medium Sensory Rocker**	**$909.00**
154050	**Adult Sensory Rocker**	**$1,209.00**

This item ships Motor Freight.

BEAN CHAIR

You can rock in this comfortable chair or you can turn it over for a peaceful stationary seat, with a quiet hideaway underneath. This sturdy birch frame has a heavy-duty Cordura® nylon seating area that's big enough for two children or a child with a therapist or parent. The chair can be disassembled when the seating area needs to be cleaned.

Dimensions: 25.75″L x 30.5″W x 40.5″H
Working Load: 200 lbs.

156420	**Bean Chair**	**$345.00**

INDIVIDUAL BEAN CHAIR

This chair has been sized down to fit a single child. The gentle rocking movement offers soothing proprioceptive input and the high sides help enhance body awareness.

Dimensions: 19.75″L x 15.5″W x 29.75″H
Working Load: 150 lbs.

156421	**Individual Bean Chair**	**$267.00**

PLEASE NOTE: Bean Chairs ship flat pack and must be assembled.

CONTOURED RELAXATION CHAIR

This Relaxation Chair has been contoured to conform to the shape of the body and distribute weight evenly. Made of soft foam covered with washable vinyl, it is ideal for an MSE or any Quiet Room. Can be cleaned with mild diluted detergent.

Dimensions: 47"L x 25"W x 29"H

This item ships Motor Freight.

555480	**Contoured Relaxation Chair**	**$597.00**

HOWDAHUG®

"It feels like a HUG"

The HowdaHUG offers proprioceptive and vestibular input for children with sensory integration needs, and is also enjoyed by typically developing peers. It can be used on the floor, for rocking and upright back support. It may also be used in different types of chairs, including classroom chairs. Many children who sit in regular school chairs constantly squirm and rock the entire chair. Using a HUG allows the child to rock in the chair so the chair stays stationary. The HowdaHug® can go everywhere with the child, because it can be rolled up and weighs only two pounds. The colorful seat comes in three sizes, to fit children 3 years old and up.

Dimensions: 13" x 13" x 13" (PetiteHUG); 15" x 15.5" x 13.5" (HowdaHUG); 16" x 15.5" x 14.5" (HowdaHUG, Large)

Working Load: 50 lbs. (PetiteHUG); 100 lbs. (HowdaHUG); 125 lbs. (HowdaHUG, Large)

255110	**PetiteHUG® (Ages 3–5)**	**$79.99**
255111	**HowdaHUG® (Ages 5–7)**	**$79.99**
255112	**Large HowdaHUG® (Ages 7–12)**	**$79.99**

Positioning

556466 ZUMA ROCKER WITH ARMS

556461 ZUMA ROCKER

ZUMA® ROCKER

The Zuma Rocker offers the movement students need to stay alert and pay attention, in a safe and non-disruptive way. In three sizes, this chair is great for circle time, reading, for working on a handheld or laptop device and for collaborative learning discussions. While all students can benefit from the calming and organizing motion of the Zuma Rocker, children who have specific sensory needs may show an especially positive response.

556460	13" Zuma® Rocker	$250.00
556461	15" Zuma® Rocker	$256.00
556462	18" Zuma® Rocker	$275.00
556465	13" Zuma® Rocker with Arms	$267.00
556466	15" Zuma® Rocker with Arms	$272.00
556467	18" Zuma® Rocker with Arms	$291.00

PLEASE NOTE: Minimum order for all Zuma Rockers is two (2) chairs of the same size. Zuma Rockers may take 4–6 weeks for delivery.

ANALOGY ROCKER

The Analogy Rocker offers the movement students need to stay alert and pay attention, in a safe and non-disruptive way. This chair is great for circle time, reading and collaborative learning discussions. While all students can benefit from the calming and organizing motion of the Analogy Rocker, children who have specific sensory needs may show an especially positive response. The rocker provides an oversized seat in three sizes.

556470	14" Analogy Rocker	$250.00
556471	16" Analogy Rocker	$256.00
556472	18" Analogy Rocker	$275.00
556473	18" Analogy Rocker XL	$288.00

PLEASE NOTE: Minimum order for all Analogy Rockers is two (2) chairs of the same size. Analogy Rockers may take 4–6 weeks for delivery.

THE SENSORY LOUNGER

The Problem

Sensory processing disorder disrupts the way an individual responds to sensations, severely impacting daily activities and impairing quality of life. For children with autism spectrum disorders, attention deficit disorders, emotional and behavioral disorders, anxiety disorder, or other developmental conditions, sensory processing differences can initiate high levels of anxiety or arousal, leading to self-stimulatory behavior, self-injurious behavior, tantrums and meltdowns.

A growing body of literature indicates that deep-touch pressure interventions act as a calming or focusing agent for individuals coping with sensory integration problems. While numerous tools are currently available to occupational therapists to provide this kind of proprioceptive input, few of these items actually achieve high enough levels of pressure to provide a sufficient benefit.

Dimensions: 47.5"L x 33"W x 27.75"H (Sensory Lounger); 42"L x 23"W x 26.75"H (Child Sensory Lounger)

154060	**Sensory Lounger**	**$2,815.00**
154061	**Child Sensory Lounger**	**$2,635.00**

This item ships Motor Freight.

DID YOU KNOW: Our new lacquer finish provides an antimicrobial barrier.

A New Solution

The Sensory Lounger is a new sensory-based intervention that provides rapid deep-touch pressure to the lateral, medial, ventral and dorsal sides of the body at the discretion of the user. By turning and shifting into the position that is most comfortable, the Sensory Lounger provides deep-touch pressure in exactly the places where it's needed.

At the heart of the patent-pending Sensory Lounger is a sophisticated diaphragm pump and inflatable air compartment system. The pump is so quiet as to be barely audible, an important factor for sensitive ears. Powering-on the system allows the air compartments to inflate to a pressure that is both effective and safe. Powering-off provides a slow release of pressure. A quick-release valve is also provided for rapid evacuation of the air compartments.

854021 ACTIVITY TABLE WITH SHELF

854020 ACTIVITY TABLE

ACTIVITY TABLE

If you are looking for that ideal piece of equipment to address tactile needs and play skills for your clinic or classroom, then the Southpaw Activity Table is your answer. High-quality craftsmanship is seen throughout this table, offering two large bins that can be filled with various media. The options are vast and the fun is endless, so make this the newest addition to your space.

If you need extra storage or would like to be able to swap the bins out easily, the Activity Table is also available with a lower shelf that holds 2 extra bins with covers.

Dimensions:
60″L x 30″W x 25″H (Table); 26″L x 18″W x 5.75″D (Bins)

854020	**Activity Table**	**$647.00**
854021	**Activity Table with Shelf**	**$1,025.00**

This item ships Motor Freight.

IN2GREAT ME! BOARD GAME

IN2GREAT ME! is a board game that allows children to better understand their sensory experiences and develop their executive functioning skills. Select from 120 real-life scenarios that children with sensory challenges are likely to experience, explore 140 strategies that promote self-regulation, and participate in a variety of movement-based activities through 100 "DO IT!" cards. Blank scenario, strategy and "DO IT!" cards are also provided to make the game more individualized.

Order yours today!

276000	**IN2GREAT ME! Board Game**	**$49.99**

DESIGN & DRILL ACTIVITY CENTER

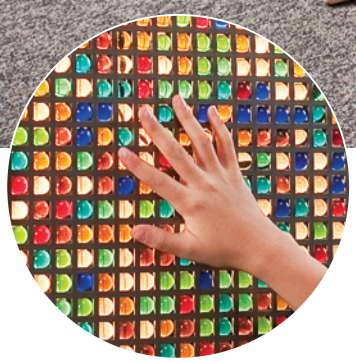

Children will love using the Design & Drill Activity Center to create their own designs, or following the set's colorful activity cards to make pictures and patterns — from trains and boats to flowers and fish. Just snap any one of the drill bits into the reversible power drill or the screwdriver handle, grab a handful of big bolts, and turn on the learning fun. Twenty colorful activity cards provide young learners with tasks from simple to challenging.

290129	**Design & Drill Activity Center**	**$41.00**

Fine Motor

SMALL MARBLE PANEL

Our Marvelous Marble Panel has been such a hit with kids and teachers alike, we've made a smaller one that can be held on the lap or on a desk. It also includes a base that will hold it upright on the desk. Great for fine motor stimulation and sensory input.

Dimensions: 14"W x 14"H x 1.25"D; 12.5"L x 11"W (Base)

303816	**Small Marble Panel**	**$125.00**

ADVANTAGE SLANT BOARD

Lightweight and collapsible for ease in storage, the Advantage Slant Board includes a durable clip and smooth writing surface. The improved Slant Board, with its 20-degree angle, positions paper and the child's wrist and hand for the ready to write/color position. Folds flat for easy storage!

Dimensions: 12"W x 12"H; 18"W x 12"H

290078	**12"W x 12"H Advantage Slant Board**	**$36.95**
290079	**18"W x 12"H Advantage Slant Board**	**$42.95**

HAND FIDGITS

Hand Fidgits are used in classrooms and study time to help promote attention in children. We sell a variety in a set of 24. Monster figures may vary.

372001B-24	**Hand Fidgits (Set of 24)**	**$27.00**

CAUTION: Choking Hazard. Small parts not for children under three years.

WIKKI-STIX BIG COUNT BOX

468 Wikki-Stix in 13 colors! All Wikki-Stix are 6"L. Includes 12-page fun booklet of arts & crafts ideas and several colorful project sheets.

Use the one-of-a-kind creatables known as Wikki-Stix anywhere! Includes 84 Wikki-Stix in 16 colors and 2 sizes plus a multi-use playboard. Contained in a handy, re-closable storage bag with 8 pages of fun ideas.

Dimensions: 6"L (Wikki-Stix)

290047	**Wikki-Stix Activity Set**	**$15.95**

ALPHABET AND NUMBER PADS

Our gel pads are great tools for practicing pre-handwriting skills. Clients who are tactile-defensive will enjoy tracing letters and numbers. Helps teach letter and number recognition, as well as improving hand-eye coordination and fine motor skills.

Dimensions: 16″L x 7″W

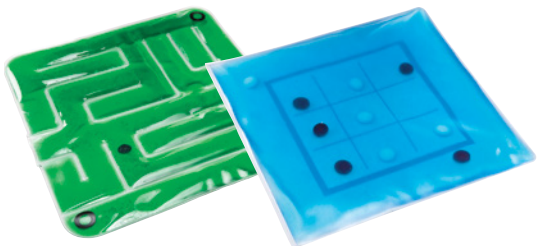

290181	Uppercase Alphabet Letters	$32.00
290182	Lowercase Alphabet Letters	$32.00
290183	Number Pads	$32.00
290184	Alphabet and Number Pads (Set of 3)	$85.00

PLAYFUL GEL PADS

These (2) gel pads offer your clients some fun while they're working on finger isolation, hand-eye coordination and cognitive skills. They can guide a ball through a green maze, or play cooperatively in a game of tic-tac-toe. Enhances hand-eye coordination, increases finger strength, and offers tactile and visual stimulation.

Dimensions: 14″L x 14″W (Maze); 10″L x 10″W (Tic Tac Toe)

290180	Tic Tac Toe Playful Gel Pads	$29.00
290187	The Maze Playful Gel Pads	$30.00

LIGHT BOX

Our new Light Box offers visual and tactile stimulation that facilitates learning. The box has a large frosted screen that provides a surface for tracing shapes and patterns, or for playing with the Spiral Gel Pad listed below. Plug it into any wall outlet and watch your clients enjoy themselves.

Dimensions: 16″L x 16″W

503050	Light Box	$199.00
290206	Spiral Gel Pad	$30.00

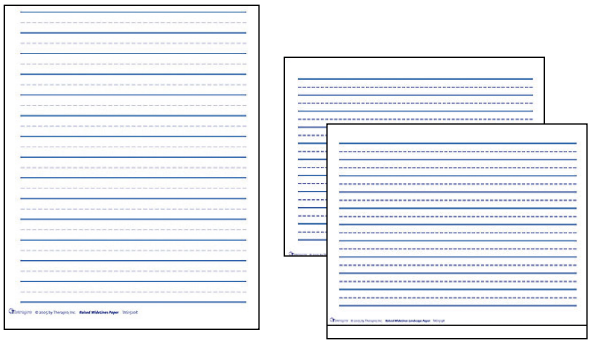

FLOWER FLOOR MAT

This gel-filled flower pad may be used as a comfortable seat on the floor, providing children with a conceptual feeling of the space around them. It can be used on top of a table as a sensory stimulation pad that offers visual and tactile stimulation.

290210	Flower Floor Mat	$51.00

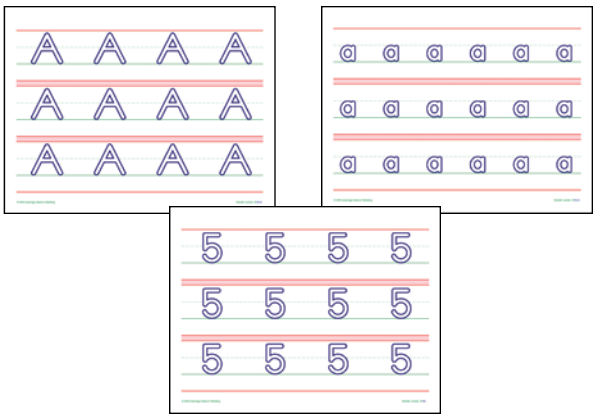

RAISED LINE PAPER

Raised Line Paper adds a tactile input from feeling the lines while learning to write. Wide Lines paper offers 5/8" space between lines. Narrow Lines offers a more compact writing area of 3/8" space between lines. Includes (250) sheets.

271085	Raised Wide Lines Landscape	$41.50
271086	Raised Wide Lines Portrait	$41.50
271087	Raised Narrow Lines Paper	$41.50

RAISED LINE ALPHABET AND NUMERALS

Learn correct handwriting alignment in relation to the baseline, top line and dotted middle line. The tactile, raised outline provides a structure that will help achieve the correct formation of each letter. Trace, color in or write for practice. Each set is packaged with (4) pages of each character, (104) total sheets for the alphabet and (40) sheets for the numbers.

271053	Uppercase Raised Line Alphabet	$32.50
271054	Lowercase Raised Line Alphabet	$32.50
271056	Raised Line Numerals	$16.50

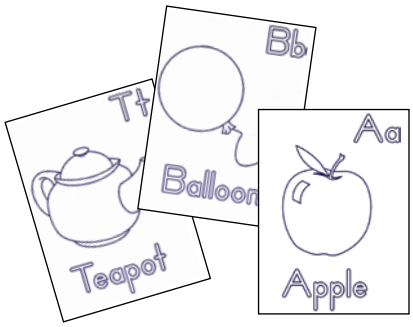

BRIGHTLINES PAPER

The yellow highlights on these lined pages help your children focus as they learn to print and write. We offer three different versions: Narrow Lined Paper has 3/8" spaced lines and Regular Lined Paper has .5" spacing. The Raised Line Paper also has .5" spacing with the added tactile input from feeling the lines. Each pad has (50) sheets of paper.

271095	Regular Brightlines Paper	$6.30
271096	Narrow Brightlines Paper	$6.30
271097	Raised Line Brightlines Paper	$9.95

RAISED LINED ALPHABET COLORING SHEETS

These unique coloring sheets allow a child to feel the borders! This feature provides structure, in assisting the child to learn to stay within the lines of the picture. Also presented on the page are the raised, upper and lowercase letters A–Z and the name of the object they are coloring. Benefits include: incorporating letter sound & identification and fine motor skill development. Comes as a set of (104) sheets; (4) sheets of each letter.

271046	Raised Lined Alphabet Coloring Sheets	$32.50

CAUTION: Choking Hazard. Small parts not for children under three years.

PENCIL & GRIP SAMPLER

This handy kit contains one of each of the most popular pencil grips and wooden pencils available. Therapists will be able to address many specific hand grasp problems with the wide variety of pencils and pencil grips provided.

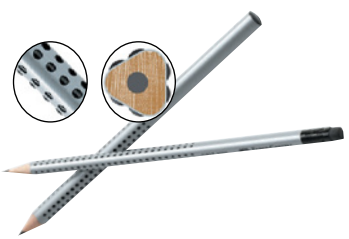

4015	Pencil & Grip Sampler	$11.95

TRI-GRIP PENCILS

The unique triangular shape of these pencils allows for proper grasp for improved writing skills. Each pencil has several raised dots on the tips that provide tactile input that allows the writer to have greater control and awareness of the movement of the pencil.

290030	Tri-Grip Pencils (Set of 12)	$11.95
290035	Jumbo Tri-Grip Pencils (Set of 12)	$19.50

EASI-GRIP SCISSORS

The extensive range of Easi-Grip adaptive scissors have all been ergonomically designed and developed from working with clients with grip and grasp strength difficulties. These scissors are recognized for their quality, utilizing only high-grade materials, giving them a longer life. Blade guards are supplied with all self-opening scissors for safe storage. Easi-Grip Scissors are lightweight (under 2 oz.) and require little pressure to close the blade.

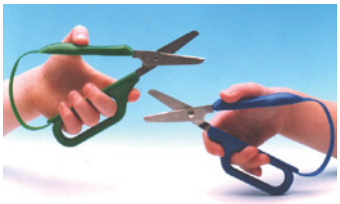

290149	Mini Easi-Grip Loop Scissors	$6.25
290152	Easi-Grip Self Operating Scissors, Left Hand	$8.95
290153	Easi-Grip Self Operating Scissors, Right Hand	$8.95
290154	Long Loop Easi-Grip Scissors, Left Hand	$9.95
290155	Long Loop Easi-Grip Scissors, Right Hand	$9.95

MINI EASI-GRIP LOOP SCISSORS

EASI-GRIP SELF OPERATING SCISSORS

LONG LOOP EASI-GRIP SCISSORS

CAUTION: Younger clients should use scissors under supervision.

FIRST CUT™ ADAPTIVE SCISSORS

These innovative scissors provide guides for proper finger placement, aiding children in developing good habits early. The adjustable loop isolates the index finger allowing it to act as the guiding finger. The reversible thumb hole promotes thumb flexion resulting in increased web space and allows greater leverage while cutting.

190040	First Cut™ Adaptive Scissors	$25.50

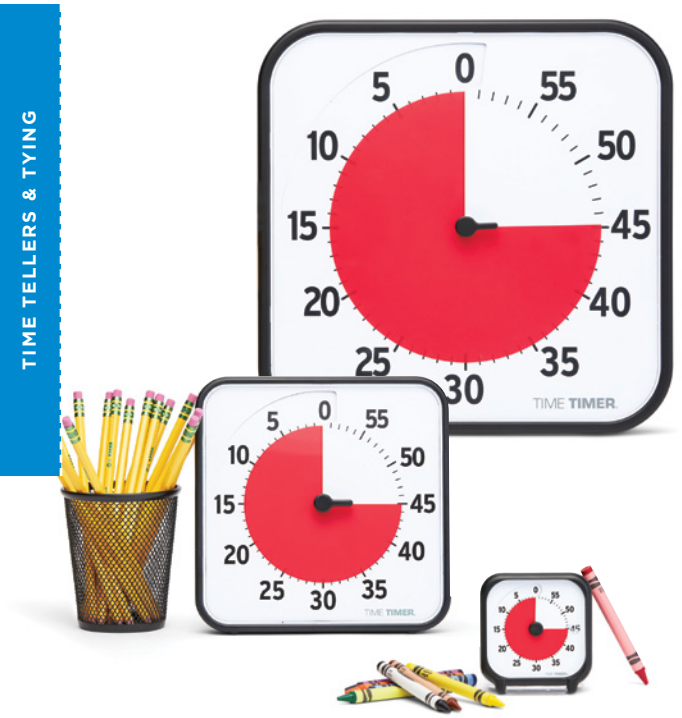

FINGER FIDGETS™ PENCILS

A hand fidget and pencil all in one! This set offers children a variety of visual entertainment while developing finger function and fine motor control. Aids in attention to tasks and skills.

290020-12	Finger Fidgets™ Pencils (Pack of 12)	$35.50

Fine Motor

TIME TIMERS

Visually count down the minutes using the Time Timer. This patented visual timer displays time in a concrete way—the red disk disappears as time elapses, making time easily and quickly understood by all ages, grade levels and abilities, with just a quick glance. Sized for individuals. It's simple to set any duration up to 60 minutes. Time counts down automatically. The Time Timer includes a clear protective lens and has a built-in slot on top for PEC placement and includes a Dry Erase Card for activity management. No loud ticking, and optional alert. Requires one AA battery for the 3" Pocket size and two AA batteries for the 8" and 12" (not included).

Dimensions: 12" x 12", 8" x 8" or 3" x 3"

274002	**12" Classroom-size Time Timer**	**$38.50**
274006	**8" Time Timer**	**$33.50**
274007	**3" Personal-size Time Timer**	**$27.50**

MANUAL DEXTERITY VESTS

Vests encourage practice in basic dressing skills and include snaps, buttons and zipper. Elastic panels let one size fit all children. Made of heavy-duty cotton/poly blend. Colors may vary.

Dimensions: 17.5"L x 13.5"W

297036	**Manual Dexterity Vests**	**$145.00**

LEARNING BOARDS

Each board encourages children to practice basic skills for zippers, snaps, buttons, buckles and tying. Made of Masonite covered in heavy-duty cotton blend. Colors may vary. Ages 3 and up.

Dimensions: 11.5"L x 9.5"W

297035	**Learning Boards**	**$209.00**

CAUTION: Choking Hazard. Small parts not for children under three years.

WEIGHTED PENCIL SET

Improve legibility of handwriting with our Weighted Pencil. The weight provides proprioceptive and tactile input for children who experience problems of dyspraxia or poor motor planning. The weight slides on and off easily, and can be placed at the finger grasp for a larger surface or higher on the pencil for a more normal grip. The slide-on weight is 1.4 oz., an ideal weight for elementary ages through adults. Fits on #2 pencils and some disposable pens. Comes with (12) pencils, (2) grips, (5) weights and (10) rings.

2299	**Weighted Pencil Set**	**$19.95**

FINGER WEIGHTS™

These innovative Finger Weights with universal fit slip-on design feature an adjustable weight system. Excellent for strengthening, dexterity and receiving kinesthetic and proprioceptive feedback to fingers! You'll find many uses for these smart weights. Try them keyboarding, practicing guitar, doing therapy exercises, etc. Available in your choice of (5) or (10) ring sets in a rainbow of primary colors. Each set includes a storage pouch and nicely illustrated instruction/exercise manual. The professional therapy tool for the clinic or school based therapist!

295100	**Finger Weights™ (Set of 5)**	**$69.99**
295101	**Finger Weights™ (Set of 10)**	**$99.95**

CAUTION: Choking Hazard. Small parts not for children under three years.

Oral Motor

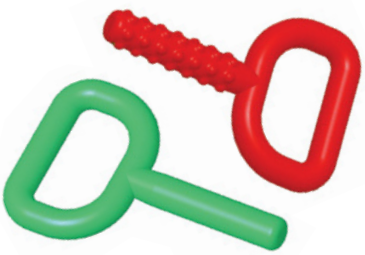

LATEX-FREE CHEWY TUBES®

Chewy Tubes oral motor device offers therapists a new tool to address client's oral needs. Originally designed to implement goals of a jaw rehab program, the Chewy Tubes are FDA compliant and contain no latex. Yellow has a thin stem; red has a wider and stronger stem.

Dimensions: 3"L x 2.5"W

208011	Yellow Latex-Free Chewy Tubes® (Pack of 2)	$17.00
208012	Red Latex-Free Chewy Tubes® (Pack of 2)	$17.00

208009	Red/Yellow Latex-Free Chewy Tubes® (Pack of 12)	$82.00

SUPER CHEWS

Super Chews are the newest oral motor tool from Speech Pathology Associates. The Super Chews feature closed loop handles and solid one-piece construction. The green chew is smooth while the red one offers a knobby version for added oral input.

208021	Green Smooth Super Chews (Pack of 2)	$12.00
208022	Green Smooth Super Chews (Pack of 6)	$34.00
208023	Red Knobby Super Chews (Pack of 2)	$12.00
208024	Red Knobby Super Chews (Pack of 6)	$34.00
208026	Super Chews, Combo Pack (Set of 6, 3 of each)	$34.00

BLUE CHEWY TUBE®

The Blue Chewy Tube is designed with a larger diameter and an increased wall thickness for children and adults who have a strong bite. Blue Chewy Tubes provide oral-motor sensory input and are a resilient, non-food, chewable surface that will enhance biting and chewing skills. Non-flavored, non-toxic and FDA compliant.

208005	Blue Chewy Tube® (Pack of 2)	$17.00

KNOBBY CHEWY TUBES®

The Knobby Chewy Tube is an innovative oral-motor chewing/biting device, but with added bumps or "knobs" on the surface for additional oral and tactile stimulation. Non-flavored, non-toxic and FDA compliant.

208007	Knobby Chewy Tubes® (Pack of 2)	$17.00
208025	Knobby Chewy Tubes® (Pack of 6)	$45.00

PLEASE NOTE: Chewy Tubes® are not recommended for use with children under 9 months of age

LATEX-FREE Ps AND Qs BY CHEWY TUBES®

Produced by the same manufacturer as Chewy Tubes, the Ps and Qs are a solid, stimulating therapy tool for children and adults who seek oral-sensory input. Sold in a package of two consisting of one P and one Q. The P is easily grasped by small fingers, or for those with low muscle tone and the Q is wide enough for bi-lateral chewing activities. All Ps and Qs are lead-free, do not contain PVC or phthalates and are orange in color.

Dimensions: 1.75"W x 3.5"H (P); 2.75"W x 3.5"H (Q)

208010	**Latex-Free Ps and Qs (Pack of 2)**	**$10.00**
208027	**Latex-Free Ps and Qs (Pack of 6)**	**$27.00**

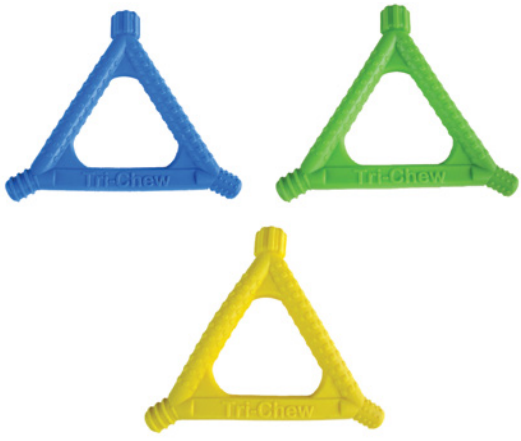

LATEX-FREE ARK'S GRABBER & GRABBER XT

The Grabber is a mouthing therapy tool constructed of a durable medical-grade material. It provides an opportunity for jaw movement, tongue movement and oral exploration. The Grabber XT is extra tough for clients who need to exert excessive jaw pressure. The handle makes it easy for little hands to hold. Materials and colors are FDA approved.

208151	**Ark's Grabber**	**$9.99**
208152	**Ark's Grabber XT**	**$9.99**

TRI-CHEW

The Tri-Chew, designed by Debra Beckman, MS, CCC-SLP, is constructed of a medical-grade chewy, resilient material. Designed with ridges, bumps and swirls on each end to simulate the various textures of food used for chewing. Sensory input is provided for the lips, gums and tongue through the textured sides and varied sizes of the ends, which are also small enough to prevent gagging. The Tri-Chew is recommended from birth to two years.

208153	**Tri-Chew, 1 Blue Soft**	**$8.99**
208154	**Tri-Chew, 1 Green Firm**	**$8.99**
208155	**Tri-Chew, 1 Yellow Soft**	**$8.99**

! PLEASE NOTE: Oral Motor products are non-returnable.

Oral Motor

CHUBUDDY CHEW TUBE & TETHER

The Chubuddy Chew Tube & Tether is a convenient way to help kids self-regulate and satisfy chewing needs so they can increase their attention and focus. The shoulder clip allows fast access to the durable tube that is fun to chew! Rates a 3.0 Chew Factor for strong chewers. 90-Day, No Chew Thru Warranty.

208190-B	**Chubuddy Chew Tube & Tether**	**$12.99**

CHUBUDDY CHEW TUBE & LANYARD

The Chubuddy Chew Tube & Lanyard makes it easy for kids to experience the calming effect of chewing whenever they like. The lanyard slips easily around the neck and features a breakaway clasp. Comes with a 4" regular 1/2" Chewy Tube that is non-toxic and free of phthalates, latex, lead and BPA.

208191-R	**Chubuddy Chew Tube & Lanyard**	**$11.99**

CHUBUDDY CHEWY HOLDER & TETHER

The Chubuddy Chewy Holder & Tether is uniquely designed to hold your child's favorite chewable to the strap, then attach the strap to the C-ring on the tether. Clip to the shirt near the shoulder/neck for easy reach and availability. Chewy toy not included.

208196	**Chubuddy Chewy Holder & Tether**	**$15.98**

CHUBUDDY CHEWY HOLDER & LANYARD

The Chubuddy Chewy Holder & Lanyard is uniquely designed to hold your child's favorite chewable to the holder, then wear as a necklace for easy reach and availability. Breakaway clasp opens easily. Chewy toy not included.

208197	**Chubuddy Chewy Holder & Lanyard**	**$13.98**

PLEASE NOTE: Oral Motor products are non-returnable.

CAUTION: Choking Hazard. Small parts not for children under three years.

FLEXI CUT CUPS

Designed to promote ease in drinking. The flexibility that the cup provides when squeezed allows the caregiver to see the lips and tongue in action with minimal head movement. Made with see-through colors to provide visibility of liquid.

208225	1 oz. Pink Flexi Cut Cup (Set of 5)	$15.99
208226	2 oz. Blue Flexi Cut Cup (Set of 5)	$15.99
208227	7 oz. Green Flexi Cut Cup (Set of 5)	$15.99

NON-SKID SCOOPER BOWLS AND PLATES

These dishes have a high rim and a reverse curve on one side to help to scoop food onto a utensil. A suction cup base helps to keep plate safely on the table. Bowl and plate can be cleaned in dishwasher, without suction base.

Dimensions: 4.5″dia. (Bowl); 6.75″dia. (Plate)

208301	Non-Skid Scooper Bowl	$9.35
208304	Non-Skid Scooper Plate	$9.25
208306	Non-Skid Scooper Bowl and Plate Set (1 of each)	$17.75

PLEASE NOTE: Eating and drinking items are non-returnable unless unopened.

Oral Motor

MAROON SPOONS

Ideal for feeding therapy when using shallow or narrow bowls. Perfect for working with children with problems such as poor lip closure, oral hypersensitivity or tongue thrust. While extremely tough and break-resistant, these spoons are plastic so we do not recommend using them with clients with severe bite reflex. Dishwasher safe. No heated drying.

208218	Small Maroon Spoons (Pack of 10)	$19.99
208219	Large Maroon Spoons (Pack of 10)	$19.99

SMALL TEXTURED SPOONS

The textured spoon is a single tool that combines oral-motor stimulation along with feeding. The key feature is a textured bottom, which provides increased oral-sensory stimulation to the tongue during the functional activity of tasting. The handle is extended to allow for hand-over-hand assistance. Sold in a set of 3 (one orange, one teal, and one purple).

208200	Small Textured Spoons	$12.95

EASIEEATERS™ CURVED UTENSILS

These uniquely molded sets of utensils are great! Easy to hold, curved for either right or left hand, and have a shielded option to prevent going back too far. Designed by an Occupational Therapist who recognized the benefit and potential for success in hand-to-mouth feeding.

208211	EasieEaters™, Left	$8.50
208212	EasieEaters™, Right	$8.50
208213	EasieEaters™, Left w/shield	$8.50
208214	EasieEaters™, Right w/shield	$8.50

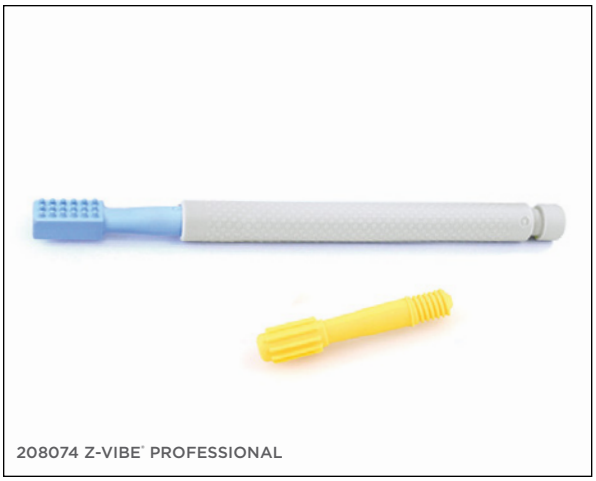

PLEASE NOTE: Eating & drinking items are non-returnable unless unopened.

Z-VIBE®

The Z-Vibe's dynamic, all-in-one design allows the therapist to use it as the Z-Vibe or the Double Z-Vibe simply by unscrewing the improved switch at the other end and attaching another tip. The kit comes in a handy carrying case with a second tip, the Preefer Tip, that easily fits in a purse.

208074	Z-Vibe® Professional	$46.99

208074 Z-VIBE® PROFESSIONAL

Z-VIBE® REPLACEMENT PARTS

Replacement parts for the Z-Vibe including springs, battery and tip end.

208090	Replacement parts for the Z-Vibe®	$14.99
208039	Z-Vibe® Battery	$3.50

208090 REPLACEMENT PARTS FOR Z-VIBE®

Z-VIBE® TIP ASSORTMENT

The ultimate and unique Z-Vibe Tip Assortment for the specialist in oral motor intervention. We have assembled an exceptional package to include (1) Probe Tip, (1) Preefer Tip, (1) Mini Tip, (1) Fine Tip, (1) Hard Spoon Tip, (1) Soft Spoon Tip, (1) Bite-n-Chew Tip, (1) Textured Bite-n-Chew Tip XL, (1) Hard Brush Tip, and (1) Soft Brush Tip all in their own travel case.

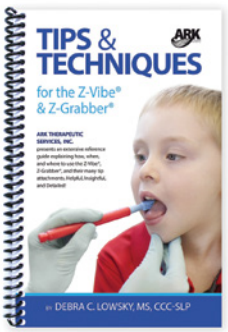

208075	Z-Vibe® Tip Assortment	$62.99

TIPS AND TECHNIQUES FOR THE Z-VIBE®

Tips and Techniques is a quick and easy reference guide explaining how, when and where to use the Z-Vibe and its Tips. It is a 48-page spiral-bound book with many detailed illustrations showing the placement of the tools.

208070	Tips and Techniques for the Z-Vibe®	$19.99

PLEASE NOTE: Oral Motor products are non-returnable.

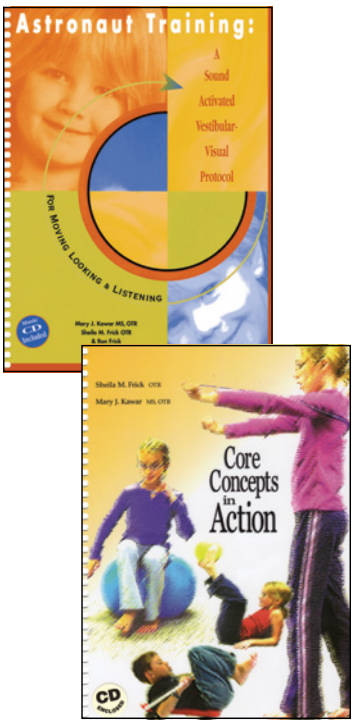

Books

SACRED EARTH DRUMS CD

Rhythms and drumming are very helpful for children with disorganized sensory systems. Drums from around the world join with Native American flute, Incan panpipes, Spirit Rattle, Guitars, Digital Synthesizers and Sound of Nature (including Wolf, Eagle, Coyote and Dolphin). Feel the intense grounding power of the beat as it brings the child to a more organized state.

273060	**Sacred Earth Drums CD**	**$16.00**

ASTRONAUT TRAINING

A Sound Activated Vestibular-Visual Protocol for Moving, Looking & Listening Handbook with CD

In this handbook, Mary J. Kawar, MS, OTR, and Sheila M. Frick, OTR, present a long-awaited protocol for improving function in the Vestibular-Auditory-Visual Triad.

271038	**Astronaut Training**	**$42.00**

CORE CONCEPTS IN ACTION HANDBOOK WITH COMPANION CD

Activities were selected based on sound therapeutic principles, in-depth clinical reasoning, and their ability to inspire willing, playful participation with minimal equipment. These activities can be implemented by teachers, parents and paraprofessionals working under the supervision of a trained therapist.

271039	**Core Concepts in Action Handbook With Companion CD**	**$34.00**

PLEASE NOTE: Books and Resources are non-returnable.

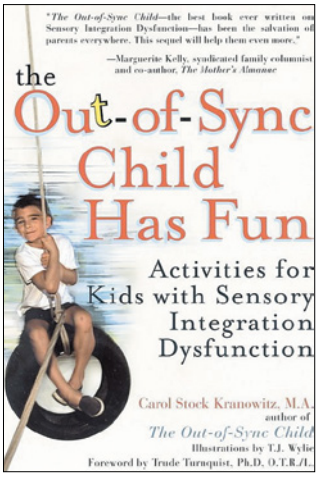

SLEEP 'N SYNC PROGRAMS

Sleep 'n Sync helps children achieve their goals fast through a technique that uses principles of neuroplasticity, positive suggestions, hypnotherapy and research on the sleep process. Children easily overcome functional problems of flexibility, handling frustration or anger, learning what to do to help prevent being bullied and many more...while sound asleep. These are incorporated into an audio that is easy to use, efficient and can be set up to play every night without adult intervention.

These programs come with a caregiver's instruction guide. As the child becomes receptive and open, and the conscious mind becomes ready to learn, the caregiver helps teach and guide the child, when awake. In this way the child will be synchronizing the conscious mind with the new messages of the subconscious mind.

271240	Dealing with Anger Program 1	$35.99
271241	Dealing with Anger Program 2	$35.99
271242	Bullying Program	$35.99
272243	Flexibility Program 1	$35.99
272244	Flexibility Program 2	$35.99
272245	Flexibility Program 3	$35.99

THE OUT-OF-SYNC CHILD HAS FUN

Carol Stock Kranowitz continues her significant work with this companion volume, featuring more than one hundred playful activities to help strengthen all children's neurological development. These activities are a great way to counteract Sensory Integration Dysfunction at home, work or at school.

271010	The Out-of-Sync Child Has Fun	$15.95

PLEASE NOTE: Books and Resources are non-returnable.

Books

SENSORY DEVELOPMENT PROGRAM

The AVS Sensory Development Program is a checklist and toolkit that identify areas of sensory processing that may impact the daily functioning of individuals. The checklist, based on Sensory Integration Theory, allows the user to collect and analyze an individual's response to sensory stimuli. The toolkit provides activities targeted to enhance sensory processing in specific sensory areas, while enriching the individual's quality of life through improvement of the sensory environment.

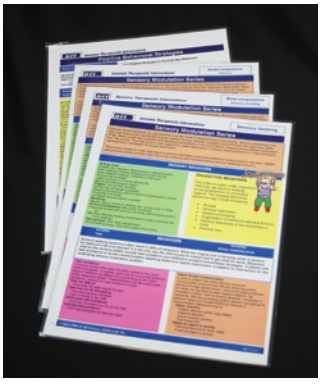

274201	**Sensory Development Program**	**$249.00**

SENSORY MODULATION CARDS (SET OF 3) AND POSITIVE BEHAVIORAL STRATEGIES CARD (SET OF 4)

These quick, concise reference guides are indispensable for therapists, teachers and parents. These laminated cards provide Positive Behavioral Strategies to develop and reinforce the desired behaviors. The Sensory Modulation Cards describe the characteristics of each type of modulation disorder, making it easier to identify the child with modulation difficulties. They provide concrete, positive and easy-to-implement activities that are proven to address the underlying sensory behavior. Mount them in an easily accessible spot to reference them as you need. Colorful, two-sided, laminated and durable, they are full of practical and useful information.

271331	**Sensory Modulation Cards**	**$45.00**

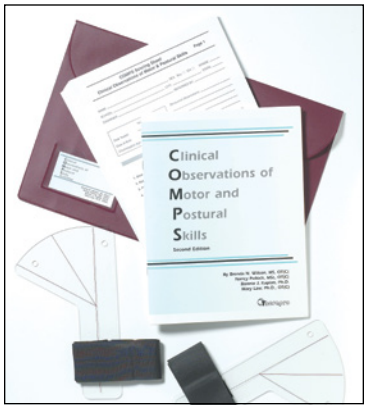

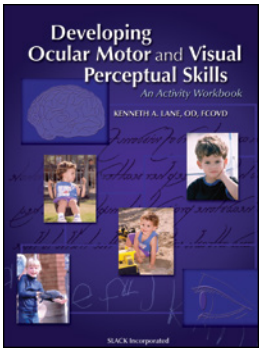

PLEASE NOTE: Books and Resources are non-returnable.

CLINICAL OBSERVATIONS OF MOTOR AND POSTURAL SKILLS: COMPS, 2ND EDITION

Written by Brenda Wilson, M.S., OT(C), Bonnie Kaplan, Ph.D., Nancy Pollock, M.Sc., OT(C), and Mary Law, Ph.D., OT(C). This unique screening tool based on six of the Clinical Observations developed by Dr. A. Jean Ayres generates a score to help identify a number of subtle motor coordination problems in children. The new revision now includes ages 5 to 15. COMPS offers standardized administration procedures and objective criteria for scoring. Easy-to-follow instructions and illustrations help therapists to administer the test quickly and reliably, in less than 15 minutes.

274010	**Clinical Observations of Motor and Postural Skills: COMPS 2nd Edition**	**$92.00**

DEVELOPING OCULAR MOTOR AND VISUAL PERCEPTUAL SKILLS

Dr. Kenneth Lane has developed this workbook to help OT's, Optometrists and other professionals develop the ocular motor and visual perceptual skills of children with learning disabilities. Easy-to-follow activity forms are included along with numerous illustrations. The forms are divided into levels of difficulty so children and teenagers can both benefit from each activity. The book contains daily lesson plans and practical tips on how to successfully start an activities program. It also includes a glossary of terms and a reference list of individuals and organizations that work with learning disabled children to develop these skills.

271043	**Developing Ocular Motor and Visual Perceptual Skills**	**$68.95**

DEVELOPING VISUAL MOTOR INTEGRATION WORKBOOK

This erasable, reusable, laminated workbook designed to systematically develop perceptual and motor skills needed for writing, copying and graphomotor proficiency. This series of five graduated levels is ideal for therapists and teachers working with children of all ages and developmental levels and is a great tool for group activities as well as classroom and individualized lessons. Book includes (106) laminated pages, instruction manual and erasable marking pen.

271230	**Developing Visual Motor Integration Workbook**	**$66.00**

MULTI-SENSORY ENVIRONMENT

Southpaw Made in the USA Multi-Sensory Environment (MSE) Products

Accessible to all functioning levels, and proudly made in our Dayton, Ohio, facility, Southpaw's MSE products empower the individual to overcome sensory deficits through a form of communication that focuses on the natural process of multi-sensory stimulation.

MSE products facilitate coordination and motor development; encourage creativity and imagination; and sharpen awareness, focus and concentration. Additionally, social interactions are increased, as are mental and physical relaxation levels. An MSE can do all that and more.

RIDGID

MULTI-SENSORY ENVIRONMENT

Boost patient experience AND your bottom line

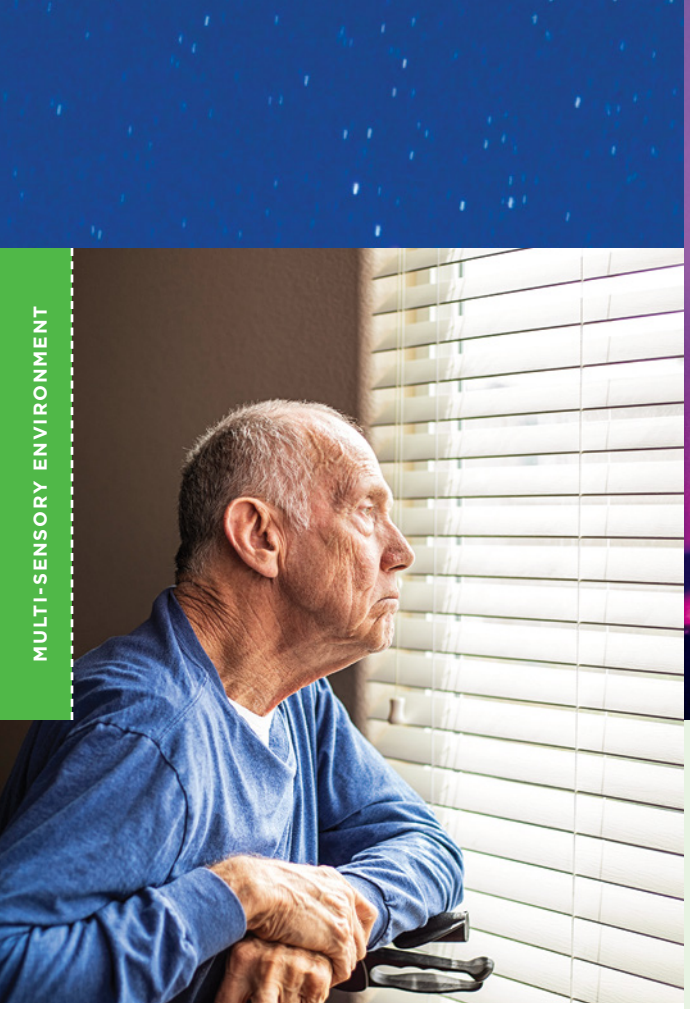

Whether you are running a facility with a memory care unit or a school for special-needs children; a hospice facility or a children's hospital; using a Multi-Sensory Environment (MSE) room is a vital way to improve the quality of life for patients and help improve your bottom line.

An MSE room is a space designed to allow the user control over all aspects of sensation in the area and is accessible to patients at all functioning levels. An MSE room is demand-free and empowers the individual to overcome sensory deficits by allowing them to take control and discover the world around them.

No matter the age of the patient, therapists recommend using an MSE room to assist the development of self-regulation by adjusting levels of arousal—up or down. The experience of changing lights, sounds and vibration during a session allows the user to synchronize patterns of reception in the brain which, over time, leads to better control and self-regulation. Allowing the room to be both user controlled and therapist controlled provides maximum flexibility for a variety of potential populations.

ADDRESSING AN OLDER POPULATION

More than ever, facilities with a memory care unit need to create an environment for individuals who are experiencing a broad range of emotions. An MSE room can help therapists establish new routines and goals for patients, such as increasing and maintaining self-esteem, increasing communication, decreasing isolation and anxiety, and increasing control and empowerment. In addition, for people with dementia or Alzheimer's, the MSE room can offer treatment options for agitated or aggressive behavior, declining speech, a cycle of wandering, and sleep disturbance.

PEDIATRIC PATIENT CHALLENGES

Children with physical disabilities, developmental delays and sensory impairments can benefit from the physical and mental stimulus provided by an MSE room. For children with physical disabilities, interaction with sensory stimuli can help them to grow proficiencies using their sight, sound, touch and hearing, as well as encouraging independence.

By providing a sense of calm and comfort, MSE rooms help all children learn to self-regulate their behaviors, and ultimately improve their focus.

For those children on the autism spectrum, time in an MSE room helps them to improve their visual, auditory and tactile processing, as well as fine and gross motor skills.

IMPROVE YOUR BOTTOM LINE

Facilities that implement MSE therapy often find that they no longer need to hire additional staff or administer extra medication to patients. In addition, one of the biggest challenges faced by all facilities is high staff turnover because of the unmanageable behavior of patients and its impact on therapists. An MSE room can mitigate that issue because patient behavior will become less erratic.

The total cost involved in building an MSE room can be offset by reducing the use of additional medications and additional staff, and mitigating staff turnover.

LET'S FIND THE PERFECT FIT FOR YOU

At Southpaw, we custom design a space that works for your organization, and can include a wide array of products that promote adaptive learning and behavior control. We also deliver on-site training and installation assistance to ensure that you, your staff and everyone involved make the most of the space and its elements.

To learn more about custom MSE room design, contact Southpaw Customer Service at **844.632.2191** or visit **Southpaw.com/MSE** for more information.

MSE+

Greater sensory control is here

MSE+ gives your clients the chance to actively explore their world like never before.

This fully interactive and completely wireless system is designed to give the client experiential control over their environment and empowers clinicians to create an interactive and targeted intervention experience. And thanks to a proprietary Bluetooth system, **MSE+** doesn't depend on WiFi, allowing facilities with limited internet access to still enjoy all it has to offer.

MSE+ INTERACTIVE SUPER SWITCH

Our switches are wireless and can be connected to any Interactive product. Connection to the Super Switch, with its 8 modes of operation, is quick and easy! Just the touch of a button on the Super Switch and you're connected. With a range of 30', these switches have the capability to change the color of an unlimited number of interactive products simultaneously.

The Super Switch can be used to develop specific switching skills across 8 modes of operation or operate simply as a color changer. Modes of operation include: Relaxation, Latched, Toggle, Momentary, Racing Game, Timed Off and the Just Right Challenge, which requires customizable response times, good hand-eye coordination and memory skills—promoted through an interactive game of matching color patterns and moving through different levels of skill.

The new Super Switch features a rechargeable battery. Just plug it in overnight for a 24-hour charge.

903100	**MSE+ Interactive Super Switch**	**$557.00**

MSE+ INTERACTIVE POWER CUBES

Our Power Cubes are wireless, and connection to any Interactive product is quick and easy. A simple turn of the Power Cube and you're connected. The Interactive product turns whatever color is facing upward when the soft, multi-colored cube is turned. The Power Cube will help teach cause and effect, color recognition and communication skills. With a range of 30', these switches have the capability to change the color of an unlimited number of interactive products simultaneously. Two AA batteries are included to power the cube.

Dimensions: 11"L x 11"W x 11"D or 8"L x 8"W x 8"D

903106	**MSE+ 11" Interactive Power Cube**	**$667.00**
903105	**MSE+ 8" Interactive Power Cube**	**$657.00**

MSE+ SUPER CONTROLLER

The Super Controller connects wireless switches to all Southpaw Interactive products and must be used in conjunction with the Interactive Video Player.

903111	**MSE+ Super Controller**	**$497.00**

MSE+ ONE BUTTON SWITCH

The One Button Switch connects wirelessly to all **MSE+** products in conjunction with the Super Controller. This easy-to-operate switch enables the client to activate color changes and/or video selections with each hit, thereby encouraging purposeful and meaningful interaction with the environment. The One Button Switch is waterproof and so can be used safely in wet environments such as a pool or spa. Requires 2 AA batteries (included).

903108	**MSE+ One Button Switch**	**$377.00**

Tubes

BUBBLE TUBES

Tube Fun. Bubble or Popcorn, We Have Them.

Our Bubble and Popcorn Tubes are available with Interactive or Relaxation functionality, and the option to add a padded platform that surrounds the tube and offers your clients a soft comfortable seat. Both Interactive and Relaxation models allow clients to enjoy the vibratory input offered by the movement of the bubbles/beads and the visual sensory input provided by the gradual changing color of the LEDs. And... our Bubble Tubes use the Simple Drain™ system, making water changes stress free.

BUBBLE TUBE

SOUTHPAW USA

Rovers

Southpaw Rovers. A Complete and Portable Multi-Sensory Environment.

Southpaw's Rovers contain a complete sensory environment that can offer calming input or sensory stimulation to clients anywhere in your facility. With so many features, you'll be sure to find one to suit your needs.

91BWVISM INTERACTIVE BUBBLE ROVER WITH 11" INTERACTIVE POWER CUBE AND INTERACTIVE SUPER SWITCH.

BUBBLE ROVERS

The Interactive model is our most powerful and adaptive Bubble Rover, containing Interactive elements combined with connections for 2 vibro-acoustic products. The external speakers and the ability to connect your iPod/iPad/MP3 to the radio allows for greater control by the facilitator to provide vibration and music to the user. By adding both the Super Switch and Power Cube, the Interactive model can be adapted for use with any population, regardless of their abilities and needs.

The Relaxation Bubble Rover automatically rotates through 8 colors, and does not include vibro-acoustic connections.

The Composite Bubble Rover has all of the great features listed in our Bubble Rover but is made of a plastic composite material in order to meet strict Infection Control standards.

Dimensions: 21.5"W x 57.5"H x 40"D

91BWVISM	MSE+	Interactive Bubble Rover	$7,077.00

Does not come with harness. Can be used with fiber optic spray harness on page 194 (see items 203510, 203511).

Add an Interactive Super Switch or Interactive Power Cube to create a full range of opportunities for interactive activities.

903501	MSE+ Interactive Fiber Optic Light Source	$957.00

THREE OF EIGHT COLORS SHOWN

LED 1000 LIGHT SOURCE

This LED light source offers complete two-button control over light output, with the ability to stop on the 4 main colors (white, red, green and blue). It also allows color cycling at a choice of 3 speeds through 7 colors: red, yellow, green, cyan, blue, violet and white.

203507	LED 1000 Light Source	$431.00

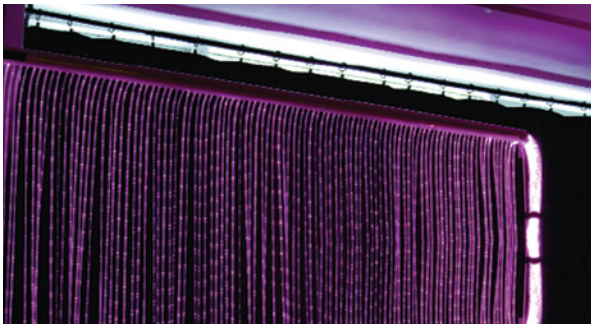

MICRO LED 4000

Powered by LED technology and controlled by an advanced RF remote control, which features a multi-color touch wheel allowing you to instantly switch to almost any color imaginable. The light source remote control also gives the ability to start and stop color cycling on any color. It also features master/slave synchronization and the ability to control more than one unit with the same remote control.

203508	Micro LED 4000	$515.00

Fiber Optics

FIBER OPTIC WATERFALL

Cover a doorway, hang it on a wall, or use it to turn a corner of the room into a private hideaway. Ninety-nine fiber optic strands create a waterfall effect as they cascade down from a 59"W aluminum tube. Light source sold separately. See items 203507 or 203508 (page 193).

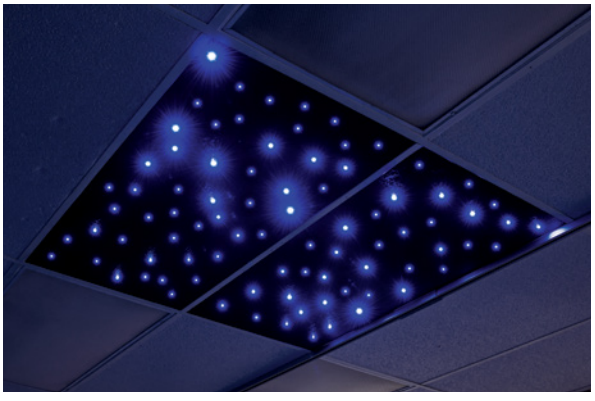

Dimensions: 59"W

203535	**Fiber Optic Waterfall**	**$1,237.00**

FIBER OPTIC SPRAY SETS

Sets include fiber optic spray and LED 1000 light source.

403500	**78" Fiber Optic Spray Set, 200 strand spray**	**$1,097.00**
403510	**118" Fiber Optic Spray Set, 150 strand spray**	**$1,207.00**

FIBER OPTIC CEILING TILES

Create a starry night effect with these Fiber Optic Ceiling Tiles. The stars change colors and are controlled by the fiber optic light source (included), which must be mounted above the ceiling. Includes (1) ceiling tile. Everything comes pre-assembled and installs in minutes! In a small room you could do the entire ceiling. The effect is fantastic!

Dimensions: 2'L x 4'W

303520	**Fiber Optic Ceiling Tile**	**$430.00**

FIBER OPTIC SPRAY HARNESS

Fiber Optic Spray Harnesses offer both tactile and visual stimulation. They produce a sparkling effect when paired with Light Sources. Composed of polymer strands in a plastic sleeve, these are durable and highly resistant to stretching or chewing, making them a safer product than the fiberglass versions. Light source sold separately. See items 203507 and 203508 (page 193).

203510	**78" Fiber Optic Spray Harness, 200 strand spray**	**$675.00**
203511	**118" Fiber Optic Spray Harness, 150 strand spray**	**$767.00**
203512	**78" Fiber Optic Spray, 12 thick strands**	**$298.00**

FIBER OPTIC TUNNEL ON VIBRO-ACOUSTIC MAT

Crawl through the tunnel or just sit back and relax in it while enjoying the stars on the inside walls. Enhancing the sensory experience even more, the Vibro-Acoustic Mat underneath provides calming vibratory input controlled by the music being played.

Dimensions: 32"W x 35"H x 36"D (Tunnel); 20"W x 27"H (Inside); 32" x 72" (Small Mat); 48" x 72" (Medium Mat)

303492	**Fiber Optic Tunnel, Small Vibro-Acoustic Mat**	**$2,607.00**
303491	**Fiber Optic Tunnel, Medium Vibro-Acoustic Mat**	**$2,757.00**

PLEASE NOTE: Light source is not included. See items 903501, 203507 and 203508 (page 193). Vibro-Acoustic Mat must be connected to a Southpaw Stereo Rover (not included, see page 199).

FIBER OPTIC TUNNEL

This Fiber Optic Tunnel allows clients a visual and tactile experience. Light source sold separately.

Dimensions: 32"W x 35"H x 36"D (Outside); 20"W x 27"H (Inside)

303490	**Fiber Optic Tunnel**	**$2,117.00**

PLEASE NOTE: Light source is not included. See items 903501, 203507 and 203508 (page 193).

All Fiber Optic Tunnels ship Motor Freight.

Vibro-Acoustic

Where Comfort, Vibration and Music Meet.

Our Vibro lounges and seating have two bass shaking speakers that offer vibratory input to your clients. Each piece has a built-in connector that uses speaker wires that are easily connected or disconnected from our stereo units. The seats are all constructed of polyurethane and covered in 14 oz. lead and phthalate compliant material. Many of the seating options are also available in a waterproof Crypton fabric.

VIBRO-ACOUSTIC RECLINER

The Vibro-Acoustic Recliner works in conjunction with the Southpaw Rovers or Stereos to provide vibratory input in both a reclined and upright position. The recliner comes standard in an off-white waterproof Crypton fabric.

Contact Southpaw Customer Service at 844.632.2191 for waterproof Crypton fabric options.

303260	**Vibro-Acoustic Recliner**	**$2,767.00**

VIBRO-ACOUSTIC WATERBED

Our Southpaw Vibro Waterbed is made of Baltic Birch, has two speakers, and a removable vinyl cover that can be cleaned and disinfected. It also features a cut-out base for mobile lift access, so your non-ambulatory clients can be moved on and off the bed. Speaker wires connect easily to the stereo.

Dimensions: 84″L x 48.5″W x 17″H

303101	**Vibro-Acoustic Waterbed**	**$1,997.00**

PLEASE NOTE: All items in this section are to be used with any Southpaw Rover/Stereo.

Waterbed, Recliner, Bean Bag Chair and Rockers ship Motor Freight.

VIBRO-ACOUSTIC ROCKERS

The soft, contoured rocking chair holds the user in a very comfortable position while offering vibratory input.

Dimensions: 45"L x 22"W x 26"H (Child);

Projectors

Unlimited Flexibility.

902000 INTERACTIVE VIDEO PLAYER & ONE BUTTON SWITCH

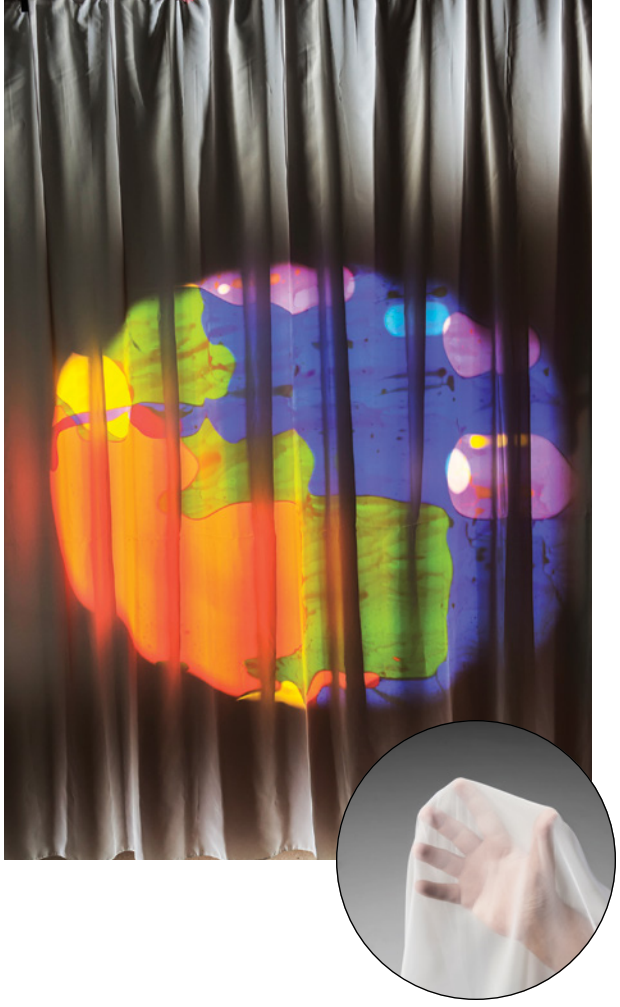

Epson and Southpaw Enterprises have partnered to help patients and students with sensory disabilities by enhancing experiences with new visual display technology products: Southpaw's Interactive Video Player and PowerLite™ Projector. Pairing either of the Epson projectors with the new Southpaw Interactive Video Player offers occupational therapists virtually unlimited flexibility when choosing images that are most pleasing and calming to their clients.

INTERACTIVE VIDEO PLAYER

To provide an all-in-one video solution, Southpaw has designed the first user-controlled video player that works seamlessly with the PowerLite™ projector. Pre-programmed with 8 calming video clips, the client can select which scene they wish to display with the included switch. With the use of a flash drive (not included), therapists can easily add their own content that can be adapted for the needs of each client. The video player is designed to allow the therapist to display images and videos anywhere in the room to capture their client's attention wherever their focus may be. In instances where someone is lying on the floor, a therapist may want to show a familiar scene on the ceiling. In a scenario where a client is very withdrawn, the therapist can display an image at their feet and then move it away to encourage movement. The Southpaw Interactive Video Player also connects wirelessly to Southpaw's Interactive Super Switch and Power Cube. Both devices allow clients to easily control a variety of stimuli in the sensory room. With a simple push of a button or a turn of a foam cube, clients can change the content being displayed through the projector to appease their needs. The Interactive Video Player comes preloaded with 8 scenic videos and includes a switch and an HDMI cord (projector is sold separately).

902001	**Interactive Video Player**	**$517.00**
902000	**Interactive Video Player & One Button Switch**	**$787.00**

PROJECTOR CURTAIN

This sheer curtain provides a backdrop that's perfect for use with the Solar Projectors to capture images. The sheerness of the curtain allows images to be seen on both sides of the curtain. Works well in multipurpose rooms where wall space is limited. Includes 17′ of ceiling track for hanging.

Contact Southpaw Customer Service at 844.632.2191 for custom sizes.

Dimensions: 212″W x 93″H

103400	**Projector Curtain**	**$547.00**

EPSON POWERLITE™ 990U LCD PROJECTOR

The Epson PowerLite™ projector delivers remarkable color accuracy and 3LCD, 3-chip technology, while offering up to 12,000 hours of 3800 lumens of equal color and white brightness. The Epson PowerLite's™ flexible and easy installation offers four stationary mounting placement options: Front, Rear, Front Ceiling and Rear Ceiling. This projector can be used in well-lit rooms and comes with a 2-year projector limited warranty, power cord, VGA computer cable, remote control with batteries, user manual CD, Epson projector software CD and Quick Setup Sheet.

302020	**Epson PowerLiteTM 990U LCD Projector**	**$798.00**

Projectors

SOLAR 250 LED PROJECTOR

Finally! The halogen bulb has been replaced with LED. No more bulbs to change! Same great quality, lighter and quieter design.

Dimensions: 13"L x 5"W x 9"H; Weight: 13 lbs.

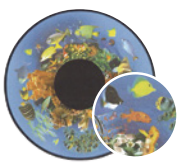

203401	**Solar 250 LED Projector**	**$1,049.00**

PLEASE NOTE: You must get Wheel Rotator or Cassette Rotator (page 208) to work with Solar Projectors.

6" SOLAR EFFECT WHEELS

Use one of these wheels and let your clients use their imagination, make up games, tell stories, and interact on many levels. Can be used with either projector. Must be used with Solar Wheel Rotator (#203408).

$137.00

203408 SOLAR WHEEL ROTATOR
Rotates 6" wheels at 1/2 rpm.
$137.00

PLEASE NOTE: Visit southpaw.com for a full range of wheels and cassettes.

303800 STAR GAZER

STAR GAZER

Southpaw has improved on the popular laser star generator and made it robust enough for continuous use in your home or facility. The Southpaw Star Gazer has controls for the speed of the stars, allows the user to add blue and/or white clouds, includes a timer that allows you to control operation in 30 minute increments up to 4 hours, or allow it to run continuously. The unit has its own fan to keep things cool and running smoothly. The laser in the unit will last 3,000 hours and the laser can be changed without purchasing a new unit. Southpaw developed the Star Gazer in conjunction with the Hospice of Dayton.

303800	**Star Gazer**	**$1,447.00**

Sensory Tools

WOOD BACKED MIRROR

Wall-mounted mirrors are a great way to increase the intensity of the visual effects in an MSE room.

We have backed our acrylic mirror panels with wood to ensure that there is no distortion in the reflections. Panels can be mounted to your walls.

Dimensions: 36"W x 60"H

303105	**Wood Backed Mirror**	**$547.00**

MIRROR BALL

Our Mirror Ball will cover the ceilings, walls and floors with sparkling dots of light when you aim a Pinspot lamp at it. Has a hook or ring that attaches to an S-hook or a mirror ball motor.

Dimensions: 8"dia.; Weight: 5 lbs.

203117	**Mirror Ball**	**$45.00**

MOTOR FOR MIRROR BALL

This heavy-duty motor will hold a ball weighing up to 25 lbs. It causes the mirror ball to rotate at a slow 1 rpm.

203115	**Motor for Mirror Ball**	**$34.00**

LED PINSPOT

Point this bright 3W white LED Pinspot at your moving Mirror Ball and watch tiny sparks of light move around the room and cast a magical effect.

203118	**LED Pinspot**	**$94.00**

MICROPHONE

The Microphone connects to the Interactive Video Player via USB cable. The microphone allows clients to sound-activate light and/or color changes in any connected **MSE+** equipment. This allows for immediate reinforcement of speech development practice during a therapy session and/or while simply enjoying the Multi-Sensory Environment.

903101	**Microphone**	**$167.00**

ROPE LIGHT

Use our safe, cool, white LED rope light to make a calming, intriguing environment. The LED bulbs are safe for indoor use in confined spaces, last an average of 60,000 hours.

Dimensions: 9'L

150225	Rope Light	$99.00

FLUORESCENT ROD SET

Set of 8 glow-in-the-dark acrylic rods in 4 neon colors that glow under ultraviolet black light. The ends are finished in such a way as to glow very bright to provide a colored star when waved under the light. Colors are red, blue, green and orange and are 12"L. Unbreakable and safe for all ages. UV Black Light sold separately.

Dimensions: 12"L

300100	Fluorescent Rod Set	$249.00

Southpaw Switches

Don't forget to purchase a Southpaw Switch when ordering one of our Interactive products. Only Southpaw offers the Super Switch, which is really quite super.

Therapist directed. Client controlled.

903106	MSE+ 11" Interactive Power Cube	$657.00
903105	MSE+ 8" Interactive Power Cube	$667.00
903100	MSE+ Interactive Super Switch	$557.00

MSE+ SUPER CONTROLLER

The Super Controller connects wireless switches to all Southpaw interactive products and must be used in conjunction with the Interactive Video Player.

903111	MSE+ Super Controller	$497.00

MSE+ ONE BUTTON SWITCH

The One Button Switch connects wirelessly to all **MSE+** products in conjunction with the Super Controller. This easy-to-operate switch enables the client to activate color changes and/or video selections with each hit, thereby encouraging purposeful and meaningful interaction with the environment. The One Button Switch is waterproof and so can be used safely in wet environments such as a pool or spa. Requires 2 AA batteries (included).

903108	MSE+ One Button Switch	$377.00

Sensory Tools

UV WASH

This UV Wash offers the glow and flow of a premium black light fixture, but with slightly less wattage using a fluorescent UV lamp and color-dispersing glass reflectors. Features shatterproof front glass cover with rugged aluminum case. Includes hanging bracket and 100-watt lamp.

Dimensions: 10″W x 14″H x 8″D

203126	**UV Wash**	**$303.00**

ROLLER BALL BLEND

FOCUS: Roll onto ear lobes, chest, feet or pressure points to encourage concentration and grounding. Contains 100% Therapeutic Grade-Lavender, Atlas Cedarwood, Vetiver, Jojoba Oil and Fractionated Coconut Oil.

RELAX: Roll onto pressure points for soothing relaxation. Contains 100% Therapeutic Grade-Lavender, Jojoba Oil and Fractionated Coconut Oil.

203303	**Relax Roller Ball Blend**	**$10.00**
203304	**Focus Roller Ball Blend**	**$12.00**

ESSENTIAL OILS

Offer your clients an additional sensory experience by using essential oils in class, therapy room or at home. We've put together two sensory sets of five different oils. Our Calming Set includes Clary Sage, Ylang Ylang, Lavender, Rosemary, and Patchouli. The Mood-Elevating Set includes Geranium, Orange, Lemon, Cinnamon, and Peppermint. All oils are .25 oz. each.

203301	**Calming Essential Oils Set**	**$43.00**
203302	**Mood-Elevating Essential Oils Set**	**$38.00**

AROMAPEARL & REUSABLE AROMA PADS

The AromaPearl has been designed to provide diffusion of essential oils in their purest form through cold evaporation. The diffuser unit is portable and works using 2 AA batteries (not included) or with the suppled AC adapter. This comes with (5) reusable aroma pads.

203318	**AromaPearl**	**$28.00**
203319	**Reusable Aroma Pads (Set of 10)**	**$3.00**

Are you charged with creating a Multi-Sensory Environment (MSE) for your school, residential or day facility, or memory care unit?

From conceptual drawings to installation and training, the team at Southpaw can make the process easy and comprehensive. We are the only manufacturer of a full line of multi-sensory equipment in the United States!

Product Demonstrations
We have a complete showroom in our manufacturing facility in Dayton, OH, where you can operate the equipment and see and feel the effects they create. If you can't make it to Dayton, we can do an online demonstration for you.

Digital Design and Quote
Do you need a proposal to submit for a grant? We design rooms for treatment, education and play and can create a detailed proposal, including specifications for electrical outlets and lighting that will make the installation process easy.

Installation
The team at Southpaw can install your MSE room in a professional and cost-effective way to meet your needs. If you wish to do it yourself, we are always available to answer your questions to make the process go smoothly.

Training
At Southpaw, we want to provide you every opportunity to be successful in your new MSE room. Whether you have a new installation, a room that is a few years old, or even one that was completed by one of our competitors, the team at Southpaw can train your staff to obtain the results you envisioned for your multi-sensory environment.

Customer Support
Southpaw has a solid reputation for manufacturing high-quality products and providing first-class customer support for nearly 40 years. Just call or email and let us do the rest!

"Responsive, helpful, timely and customer-oriented are the first words that come to mind when I think of Southpaw Enterprises. From start to finish the Southpaw staff were by our side helping us to learn about equipment, giving us solid cost estimates and delivering on time and on budget. Their interest did not stop after the sale. The folks at Southpaw were there to answer questions and walked us through the setup of the equipment. I look forward to working with Southpaw for our other two communities."

Robert Murphy
Director of Development, Sunnyside Communities
